VISIBLE WHEAT SHOWS DECREASE

Market Responded to News by Showing Firmness--Big Corn Receipts.

CHICAGO, Feb. 24.—Surprise at a big decrease in the visible supply gave the wheat market today a lift. Closing prices were firm at 1-1/4 to 5-8c net advance. The outcome for corn was unchanged to 1-8c to 1-10c up, and for oats a gain of a shade. Provisions finished dearer by 2-1/4c to 1-1/2c.

Instead of a fall off in the visible supply, wheat traders were looking for a decided enlargement of the total. Strength developed also as a result of improved demand here from exporters. Oats, too, sent word of activity on foreign accounts, and by milling interests. Most of the wheat advance came late in the session, and was partly due to the fact that the crop belt was a source of worry, snow protection being ample.

Primary receipts of wheat were 86,000 bushels against 72,000 a year ago. Receipts held corn prices in check despite cold weather that promised a reduction of stocks later on. Buyers, Oats were practically at a standstill, the trade awaiting news of farm reserves.

Provisions turned sharply higher owing to continued scarcity of hogs at the principal western cities. On the bulls, however, one of the leading causes unloaded and brought about some setback.
