

EXPORTS OF U.S. SHOW INCREASE

Wall Street Given Encouragement — Preparations for Dividend Payment.

NEW YORK, Sept. 29.—The financial district found encouragement today in the record of exports of merchandise from this port for the past week. The figures exceed by almost \$3,000,000 the total for the previous week and show an increase of \$3,222,000 over the same week of 1913. To this important factor and increased offerings of cotton and grain bills was attributed the diminished activity in foreign exchange at lower rates. The approach of the final quarter of the year with its interest and dividend requirements, was primarily responsible for the withdrawal of much of the money recently offered in the market. The supply today was extremely small, with a falling off in demand for commercial paper, except for the short term.

The gold pool continued its activities, with intimations of a definite settlement of its accounts to be made more than a week. It was learned that at least five of the reserve cities have announced their willingness to subscribe more than their quota to the \$100,000,000 fund, if necessary.

Steel trade advices offered little in the way of encouragement. Incoming business being reported as the smallest in some years.

CANADA TO ENJOY GREAT PROSPERITY

Worst Over, Crops Better Than Anticipated, Outlook Brilliant.

CALGARY, Sept. 29.—"With a greatly increased demand for everything, immigration greater than ever before and a return of that old-time prosperity to which the country is so accustomed, the whole Dominion in general and the great western provinces in particular should enjoy, at the close of the present war, a period of prosperity which will set the country on its feet. It need never again have cause to fear, and as for the people themselves, if they will only realize that there is no reason whatever for talking about alarming conditions that do not exist and will only exercise a little caution and keep up hope and courage, at the same time avoiding speculation, they will be further ahead in a few months than they would have been if conditions throughout the world had remained normal."

In this manner did Sir William Mackenzie, who spent a day in the city, accompanied on his rounds by General Manager Macdonald, Superintendent Brown, Pat Burns and C. J. K. Nourse, deliver his message to the people of Calgary.

Sir William stated that conditions throughout the country were all good. In the territories that he had traversed, the crops were all fairly good, and with the marketing of them there should be a loosening up of money. The movement of the crops, he said, was proceeding with remarkable rapidity, and in comparison with last year about double the amount of grain is being handled.

Adding that the crop situation was not anything like as bad as had been reported some weeks ago, Sir William said that the country had already weathered the worst of the storm. The people had been a little afraid at first, and not altogether without reason, but with the clearing of the seas by the British fleet and the holding back of the Germans on land by the British and the French, there was no reason why Canada should be afraid.

In the meantime there was to be no stoppage. If the country lagged now it would be the people's fault. Money, of course, was not so plentiful as it might be, but the money had not all gone. There was plenty in the country yet, he said for business purposes, and if the merchants and the manufacturers would only make up their minds to throw off the cloak of gloom and pessimism as they would a wet blanket, the entire Dominion and the people therein would reap a wonderful harvest.

BRITAIN IS NOT JEALOUS OF GERMANY, AVERS FALCONER.

Several Nations Have Found Prussia Had a Malignant Disease.

The menace of Prussian militarism as a force threatening modern civilization was dealt with by President Falconer in his opening address to the students of the University in Convocation Hall yesterday afternoon.

"The Germany that we knew and admired," said the president, "has been trampled down by the rude soldier. The present attitude of the Briton to Germany is not one of jealousy. Britain has no more desire to take her commerce from her by force than she has to seize her intellectual development. We are one of several nations who have found that another nation had a disease dangerous to the rest of the world. That disease is Prussian militarism."

CANADIAN STUDENT HAD LUCKY ESCAPE

Got Away From Germany as American — Known Britons All Arrested.

Special to The Toronto World.

TWEED, Sept. 29.—Ross Tuttle of Tweed, who was a student in Germany and recently escaped from the theatre of war, underwent some interesting experiences before arriving safely under the Union Jack. When the war broke out he was living at Gottling, the military centre for that district. Mr. Tuttle is a son of Dr. Tuttle of Tweed. On Friday, August 4, word was received of Great Britain's declaration of war and before morning most of the British subjects had been arrested and put in jail. Those arrested consisted of Canadians, South Africans and Hindus. However, Mr. Tuttle was missed. In a few days notice appeared in the papers, saying that all foreigners including Americans must report to the police in order to secure special passes which would ensure their safety while in Germany.

Accordingly Mr. Tuttle went to the police and told them he was a student from Tweed, Canada, America. In due time Mr. Tuttle received a pass stating that he was from Tweed, America. Later when Americans were allowed to leave the city he received a pass to leave Germany via Holland. The official taking it for granted that he was not placed under arrest with other British subjects when war was declared, he was an American.
