THE application of SWIFT'S FERTILIZERS will make your lawn more velvety, protect it from burning out in the summer and give it a much earlier start in the spring.

Why buy your vegetables this summer when you can grow same in your lot with the application of SWIFT'S FERTILIZERS? Stable manure is a very good fertilizer, but it does not contain all the available plant food elements required by the plants.

SWIFT'S RED STEER HIGH-GRADE FERTILIZER contains a liberal supply of available plant food. It will enrich your soil and enable you to grow more and better vegetables.
