culture or resolutions, and in the latter case what, also, the influence on the forest which the uses produce.

Boundaries on adjoining stranger owners; also, when the forest belongs to homestead or farm, on the thereto belonging arable and pasture land; wherewith for that case any land which did not before belong to the forest, but which is included in the allotment, with the reason therefor, ought separately to be given, regard being had to what is prescribed in royal forest regulations of the 20th June, 1866, section 38.

Nature of the forest land, nature of the forest stand in general, according to stand description.

Block allotment or dividing, and motives for the same. Prevailing winds, and their effect.

Depredations and wastes: to what extent the forest is exposed to such, and their nature.

Watching or care; hew this is ordered and how far sufficient,

Pasture and autimini-mowing, and what effect such use has on the forest.

Selling of the produce of the forest, where this can come in question, wherewith, when this is dependent on opportunity of floating, a map of the floating course in the forest and in its neighbourhood is annexed, providing such map can be had without separate survey.

With several other relations which, in and for the forest administration, can be of weight, which like the abovementioned ought to be stated under separate titles.

9. The description of the stand. Table No. 1, which is prepared in tabular form, and which, with the exception of area reports, composed in proportion to the progress of the survey and valuation, contains the following columns:—

1. Division, or parcel (in the Swedi "skiften"), wherein is introduced the name of the division of what block it has been divided, also the letters whereby mese are denoted on the map.

2. Subdivision, in which column is placed the letter whereby the differences of the forest land and forest stand have been denoted on the map.

3. Extent, wherein the area is given in new measuring (quadrat ref and quadrate poles), and which column is subdivided in two, namely:
