

STUDY VII
(Review of Figures)

1. Practice

1 2 3 4 5

6 7 8 9 0

1 2 3 . 4 5

5 6 7 . 8 9

121.10

231.95

106.78

83.16

145.45

688.44

$$\frac{1}{2} + \frac{3}{4} + \frac{5}{6} + \frac{7}{8}$$

$$3\frac{2}{3} + 5\frac{3}{7} + 6\frac{4}{8}$$

$$\frac{\frac{1}{2} + \frac{3}{4} + \frac{5}{6}}{\frac{1}{2} + \frac{3}{4} + \frac{4}{5}} = \frac{2}{\frac{123}{60}} = \frac{120}{123}$$
