	<b>Q</b>	
Quantity dynamo .....		
" " data .....		
" " firing .....		
" " method of using .....		
" " testing .....		
Quantity of electricity, unit of .....		
Quarrying .....		
" Gibraltar method .....		
Quick match .....		
	<b>R</b>	
Racks, in magazines .....		
Rails, cutting with guncotton or dynamite .....		
Recipes, sundry .....		
Resistance coils .....		
" " box of .....		
" " Firing .....		
" Post Office pattern .....		
" connecting unknown resistance to measuring apparatus .....		
" electrical, definition of .....		
" of a conductor, measurement of, by fusion of fine wire .....		
" " " " Latimer Clark's differential galvanometer .....		
" " tangent galvanometer .....		
" " " Wheatstone's bridge method .....		
" " with 3-coil galvanometer .....		
" " galvanometer, measurement of .....		
" of copper and iron wire .....		
" fine wire at the point of fusion, measurement of .....		
" liquid, measurement of, by deflection of a galvanometer .....		
" " " " fusion of fine wire .....		
" " Kempe's method .....		
" " Latimer Clark's differential galvanometer .....		
" " Mance's Wheatstone's bridge method .....		
" very high, measuring .....		
" low, rough test of .....		
" unit of .....		
Reversing key .....		
Rock, blasting .....		
	<b>S</b>	
Selection of arrangement of circuit .....		
Service cables .....		
" " resistance of .....		
Simple circuit .....		
Sine galvanometer .....		
Shunts, for galvanometers .....		
Solder for circuit wires .....		
Soldering .....		
" fluxes for .....		
Sources of electricity for use with high tension fuses .....		
" " " " wire fuses .....		
Standard cells, Latimer Clark's .....		
" " Modified Daniell's cell .....		
Stockades, cutting an opening in, by means of explosives .....		
Stone piers, demolishing with explosives .....		
Storage of guncotton .....		
" gunpowder .....		
	<b>T</b>	
Tamping, effect of .....		
" amount required in various cases .....
