FRIDAY MORNING, SEPT. 29, 1911

CANADA DIDN'T LIKE THE FACT.

We desire to call attention to the notable article, republished elsewhere, from The Ottawa Free Press. It is a complete justification of all The World has been saying for six years past concerning the Liberal party, and coming from the organ of the Laurier government in Ottawa it is the most hopeful sign to be discovered for the political future of Canada.

There are some people who think that The World's fault finding with the Globe is merely the result of party hostility. Most of our readers, and many of them Liberals, understand that The World takes an independent view of affairs in this respect. It may be too much to expect a dyed-in-the-wool partisan or a machine politician to believe that we are inspired by a desire for the best interests of the Liberal party in criticizing The Globe. But this is the fact, and it naturally follows from the desire to procure efficient government for the country, whether federally or provincially. Under our constitutional form of government there can be no continuously good administration without a strong opposition. When the opposition is misled to its ruin as The Globe appears anxious to mislead the Liberal party, the government must suffer, and the Conservative party, for lack of the balancing opposing force in parliament, must degenerate. That is the chief danger that besets the Whitney government.

An opposition, which would constantly keep the government to its utmost pitch of efficiency and progressive vigor is the greatest blessing the country could bestow upon it. This is not a party view, but a national view, and any politician that loses sight of national needs in party issues is not the Canadian he ought to be.

The Free Press sees what everybody else sees, and that is the blindness of The Globe. The Globe belongs to a past generation and is still fighting Sir John A. Macdonald and upholding antediluvian Liberal platitudes, the wreckage of which bestrewn the shores where the late flood is subsiding.

A new generation has arisen and whether they know Joseph or not they are evidently on the march out of the old conditions. It is a young men's movement, and The Globe greybeards would display their profoundness by taking snuff in the twentieth century and wailing the game.

If The Globe does not take this national view, papers like The Free Press will do it and live up to it.

TACTICAL DEATH.

The Toronto Star makes some comparisons in Canadian history touching the defeats of Conservative and Liberal governments respectively. The Liberals have been defeated twice on questions of policy. The Star states, but the two defeats of the Conservatives it attributes to scandals and moral collapse.

The average reader will gather from The Star article that Sir Wilfrid Laurier in the election just ended was riding for a fall. He foresaw defeat and discredit on scandal issues such as the records of his cabinet ministers furnished. Reciprocity afforded him the opportunity of retiring as The Star puts it, "beaten, but respected."

THE COST OF LIVING.

Before The Globe can succeed in establishing that the high cost of living is the result of a protective system, it must show that free trade prevents increases in food prices. This, of course, it cannot do, unless it is prepared to deny that Britain is to-day faced with the same problems. The World recently quoted from The London Daily News, a Liberal and free trade newspaper, an editorial comment on the movement in wages and prices in that country. That period has been predominantly observed The News, one of falling wages and rising prices. Free trade, therefore, is no panacea that can magically improve the condition of the mass of the people.

Britain enjoys a relatively lower cost of living than that current in Canada and the United States. The board of trade commissioners, who recently examined United States conditions in three of the leading skilled trades, found that rent and food cost about a half more there than in Britain. But the average wages paid in these trades were two and a half times as much as were received by British workers. The commissioners had no difficulty in reporting that in the highly protected United States, labor conditions were

The Great Feast of Methodism

By Dr. Quill

The Zion of Methodists from all the ends of the earth, will be for the next fortnight, the Metropolitan Church, Toronto. Each pilgrim will require to take more than his staff in his hand. For two hundred come from beyond the seas, and more than twice that number will find their way from all their altars on this continent. It will be the "salt" of that great, "Methodist" of the original mould. And they are coming together, not to strive with one another in debate, but to worship and to wait at their common altar.

PROGRESS OF PUBLIC OWNERSHIP.

The public ownership movement in Canada continues to make steady progress. Its advance has been very marked in Ontario and in the northwest, where the new communities that are everywhere springing into existence, are taking good care to avoid the mistake of placing their public services and utilities under the control of private companies. Winnipeg has now under consideration a proposal to take over its transportation, light and power undertakings at a price far above the capitalization or the cost of construction and equipment. Yet in view of the rapid expansion of the city and the further increases in value consequent on the increase of its population, it may well prove to the ultimate advantage of Winnipeg to resume these important franchises.

In an editorial the other day, The St. John, N.B. Telegraph referred to the approaching transfer of the business of the National Telephone Company to the British postoffice department and made the following observations on the general question:

Government ownership of public utilities is becoming a commonplace in English municipal and federal experience. The movement has been carried farther in New Zealand than in any other part of the empire, but in the old land it is fast becoming one of the commonplaces of political thinking. There are about eighteen classes of millionaires that flourish in other countries who are impossible in New Zealand. The wealth made in railways, telephones, telegraph, life insurance, coal mining, express companies, land speculation and other forms of private wealth, are there made commonwealth.

Public ownership of public utilities widens the sphere of civic activity and develops a higher type of citizenship. In Great Britain particularly this movement has formed a very important part of the causes that have abolished the corruption and inefficiency which formerly marked municipal government there. It transferred to the side of good government the financial interest of rich and influential men who, as stockholders in public service corporations, formerly aided in the election of men who could be controlled by the corporations.

It Was the Fact Canada Didn't Like

Ottawa, Free Press (Lib.), Sept. 27: It was not increased trade with the United States that a majority of the people of Canada voted down on Thursday last. What they objected to was the agreement, written and definite, between the two countries which they were asked to ratify. They regarded the agreement as something in the nature of a dangerous entanglement with the United States.

The Free Press believes that reciprocity in natural products between Canada and the United States should come, for as our turn-of-trade with the United States is increasing, it is a matter of mutual interest that the two countries should be brought into a closer relationship. But this reciprocity will be brought about, not by written agreement—that the people of Canada have objected to—but by natural evolution.

For the relief of the consuming population, the United States must sooner or later take the customs duties off the importation of food. The lowering of these barriers against Canada's products will cause our farm produce to flow into the United States. That will lead to an increase in the cost of living here. The Canadian Government will then be compelled to afford relief to our consuming population. We shall have to lower our tariffs against the United States to bring that relief.

In this way we shall have reciprocity, and in this way only.

IF THE TORONTO GLOBE IS TO BE INTERPRETED AS ADVOCATING THE MAINTENANCE OF THE RECIPROCITY PLANK IN THE LIBERAL PLATFORM, THE FREE PRESS ASSERTS THAT IT IS OUT OF TOUCH WITH CANADIAN AND LIBERAL OPINION.

The Montreal Herald speaks better for Liberalism when it says: "That this particular proposition for a trade bargain with the United States should be nailed to the masthead by the Liberals is unequalled for loyalty to any principle, and a grave political mistake will be made if the project is not dropped from the Liberal agenda."

RECIPROCITY WITH THE UNITED STATES BY AGREEMENT IS DEAD IN CANADA—AND DEAD, WE BELIEVE, FOR ALL TIME TO COME.

But the Liberal party still stands the champion of the people against the trusts and capitalistic plundering; it will stand for lower tariffs on the people's food, and for policies such as an increase in the British presence, that will alleviate the hardships caused by the increasing cost of living.

FOUND DRIVER TO BLAME

Cecil Booth's Wagon Was Speeding When It Hit Pedestrian.

Cecil Booth appeared before Judge Winchester in the court of general sessions yesterday, on a charge of driving recklessly and negligently, and causing bodily injury to James Hiding.

On June 5 last Booth, who works for W. H. Fenwick, 888 East Queen-street, was driving along King-street, near the corner of Parliament, at an excessive rate of speed, according to a plainclothes policeman. Holding had just alighted from a car at the corner and was stepping towards the sidewalk when the wagon hit him. The shaft struck him on the shoulder, throwing him to the pavement, and as a result of the shock, he was laid up for five weeks.

The jury was out for two hours and a quarter, but were unable to arrive at a verdict. Judge Winchester further explained the evidence and brought in a verdict of "guilty," with a strong recommendation for mercy.

SALVATION ARMY CONGRESS.

Mrs. Bramwell Booth of London, England, who is coming to Canada to conduct the annual congress of the Salvation Army in Toronto, from Oct. 12 to 14, is the head of the Women's Social Work, in all lands. Powerful and telling addresses by this distinguished leader are assured.

Mrs. Booth will receive her welcome to the Dominion in Massey Hall, on Wednesday, Oct. 11, at 8 p.m. A great spectacular demonstration will be conducted by Commissioner David M. Rees.

Sunday afternoon, Oct. 15, Mrs. Booth will give a stirring social address in Massey Hall. The chair will be occupied by His Honor Lieutenant-Governor Thomas.

WITHDRAWAL OF STEAMSHIP EXPRESSES.

Change in C. P. R. Great Lakes Service, Commencing Monday.

The steamship express leaving Toronto 1 p.m. daily, except Friday and Sunday, in connection with the mailings of the C.P.R. Great Lakes steamships from Owen Sound, will make its last trip from Toronto Saturday, Sept. 30, at 1 p.m. Commencing Monday steamships will leave Owen Sound at 1 p.m. instead of 5 p.m., and passengers for steamers will require to leave Toronto on morning train at 7:50 o'clock.

C. P. R. EARNINGS.

MONTREAL, Sept. 28.—(Special.)—C.P.R. gross earnings for August were \$10,421,904; working expenses, \$4,626,221; net profit, \$5,795,683. In August, 1910, net profits were \$5,081,472 and for two months ended August 31, 1911, figures are as follows: Gross earnings, \$20,963,723; working expenses, \$12,595,123; net profit, \$7,768,600.

For two months ended August 31, 1911, there was a net profit of \$7,768,600. The increase in net profit over the same period last year is therefore for August \$283,890 and for two months ended August 31, there was an increase of \$602,207.

Disputed Plumber's Bill.

"The sink had been in use for three feet six inches from the floor instead of the usual two feet six inches, and the drain pipe was connected with the vent pipe, so that the fumes from another plumber in the house were prevented from escaping," was the reason advanced in the division court by Mr. Harris, 117 West Queen-street, for refusing to pay a bill for \$11.50 for plumbing, presented by A. Takefman.

The plumber, who put things in proper shape, supported Mr. Harris' statement. He also informed the court that there is a city bylaw which imposes a fine of \$50 on such a job.

NEED OF NORTH RIVERDALE.

Editor World: There are no letter or parcel boxes east of Broadview-ave. and north of Balm except on Danforth-ave. A number of residents have written to the postmaster, and a petition of names from the Hampton and Woolsey districts was forwarded to him. Here is a quotation from a letter received from the postmaster:

"In answer to your communication of the 8th inst., with which you enclose a petition asking that a letter box be erected at the corner of Woolsey and Hampton-aves, or near there, I beg to say that we are at present preparing for a new contract for the erection of letter boxes, and when it is placed into use is the intention to have a letter box at the corner of Hampton and Hogarth-aves, also another at the corner of Danforth and Woolsey-aves, either of which will only be a block from the suggested point."

This letter is dated April 17, over five months ago, and also further requests have been sent in, not a letter box has been placed, and no sign of improvement when it will be done. We think a little publicity might wake up the postoffice department.
