FRIDAY MORNING, AUG. 29.

Welcome to Sir Arthur.

Toronto has a full heart these days. and her welcome to Sir Arthur Currie one is now more welcome in Canada. will be no less cordial, the of a different order, than that given to the prince, whose empire he has fought so brilliantly to maintain. The very wealthy combination same spirit as employers have shown in the inauguration of all previous movements. Admittedly theatrical management is a most risky business. It is all the more risky on account of the traditional conservatism of managers. But it is not more precarious than the occupation of the actor. That there should be some fairer apportionment of the spoils in the event of a hig success naturally anpeals to the actors as a good point, but the manager is also fully aware of the limitless demands made by the successful star in a piece whose production would have been impossible but for the manager's money.

Organized labor has come into the fight in the shape of the Bill Posters' Union, which refuses to stick bills as a measure of assistance for the striking actors. This would not be #s effective as the co-operation of the printers' trades which might refuse to permit non-union notices to appear in the press. The sympathy of the bill-posters with the striking actors is not to be laughed at. The organ blower is not more important to the organist than the publicity man to the theatre manager, and now that the actors have appealed to Caesar anything may happen.

Then there is the author. But nobody bothers about the author.

The Legacy to Mr. Taft.

Everyone will be glad that the generous Mr. Carnegie has provided by his will a suitable income for ex-President Taft. Possibly some such provimade by the nation. Several ex-presidents, less fortunate than Taft, have retired to private life almost penniless, and no provision has ever been made for them by the government. In the case of James Monroe, author of the Monroe doctrine, a substantial grant was proposed for his benefit by Emperor Nicholas of Russia. This Mr. fic for some time on Richmond street Monroe did not accept, because he felt yesterday, was a "mechanical man" it would be a reflection upon his own country, but his own country did not take the hint. In recent years it has none seemed to have it over the been the custom to vote a pension to "mechanical man" as he posed, walkthe widow of the ex-president, but no ed and moved his hands apparently such provision is made by statute, at the will of an electrical arrangement. France to Pay Four Hundred Millions for A.E.F. Property.

Washington, Aug. 28.—Sale to France for \$400,000,000 of all American expeditionary force property in that country, except that withheld for return to the United States and for the use of troops remaining, is provided for in a contract signed with the French government, the war department was advised today by its special liquidation commission. Payment will be made in ten year gold bonds, bearing interest at the rate of 5 per cent. from Aug. 11, 1920.

THE TIMAGAMI FOREST RE-SERVE.

Every angler who knows the real thrill of landing a "big fellow" desires t.) enjoy the sport that the wonderful Timagami region of Ontario affords. Sportsmen who have fished all the important waters of the continent declare that the fishing in Timagami cannot be excelled. Lake Timagami with its sixteen hundred islands and three thousand miles of shore line is the home of the black bass, the brook trout and other game fish, while the innumerable smaller lakes are also well stocked. There are no hardships to be encountered in reaching Tima-gami. A few minutes after leaving the Grand Trunk through train from Toronto the sportsman finds himself in the bosom of the forest, and in a labyrinth of islands, inlets and channels his will a suitable income for ex-President Taft.
