Harris-Maxwell Larder Lake Gold Mining Co., Limited

Capital = = = \$500,000

In 500,000 Shares of \$1 each, fully paid and non-assessable

The talk of the whole country, and the best property so far discovered in the Larder Lake District, for the following reasons: FIRST—The capitalization of the Company is a very low one, being only 500,000 shares of the par value of \$1.00 each.

SECOND—We are the only Company in existence to-day who have made a mill run. THIRD—Absolutely all moneys received by the Company for the sale of stock are going into the mine itself for development, and not into the pockets of individuals, as I, regret to say, is the case in the majority of our companies being floated at the present time.

A great many Engineers of considerable prominence, who have been inspecting the Larder Lake District on behalf of their several clients, have examined the property of the HARRIS-MAXWELL LARDER LAKE GOLD MINING CO., and have given their unanimous opinion that it, at the present time, makes the best showing of any property in that district.

The Company have now reached the position where they are assured by the best expert talent in the country that they are now ready to begin mining operations on a very large scale and at handsome profit.

THIS IS POSITIVELY THE LAST OPPORTUNITY of procuring this stock at \$1.50 per share, for within the next 30 days the stock is going to be advanced to \$2.00.

DO NOT FAIL TO GRASP THIS OPPORTUNITY of buying stock in THE BEST LARDER LAKE COMPANY.
