Tuesday Evening, July 26.

To-day was marked by a decided slump in American wheat. At Chicago July led the way with a straight decline of 4c per bushel, and the September and December options followed suit with losses or 2%c and 1%c per bushel respectively. The opening was weak, and the close was near the lowest points of the day. Large receipts and a poor foreign demand were responsible for the weakness.

On the bissencel board the decline for the day amounted to %d in the July delivery, 1/d in the September and %d in the December option. In Paris July wheat declined 20 centimes, but later deliveries rose 10 centines per 100 kilograms.

There was a slump in new Ontario red wheat to day, owing to underseiling by the American article. Toronto dealers reported offers of new wheat at Toledo and Decroit at prices equal to 65c north and west. This, therefore, is the quotation for such points. Old red wheat is quoted at 70c north and west, and No. 1 hard Manitoba at about 64c afloat at Fort William.

Future Foreign Policy.

Chicago, July 26.—The Civic Federation of Chicago to-night gave out a call for a national conference, to be held at Saratoga Springs, N.Y., August 19 and 20 to Discussion of the Anoat at Fort William. On the Chicago board corn fell off about a cent a busbel, on reports of rain in the corn belt. July malze was unchanged at the Liverpool close, but the September and December options were off 1/2d to 1/2d

Decrease in World's Visible. According to Bradstreet's the decrease in the world's visible supply of wheat hast week was 4,493,000 bushels. The decrease east of the Rockles was 993.000 bushels, and the decrease in Europe and affoat 3,500,000 bushels. The same authority makes the decrease 'n the world's visible supply of corn 1,919,000 bushels; oats 1,540,000 bushels.

Reserve Wheat Is Scarce.

The present supply of available reserve wheat is said to be the lowest known for many years past, and probably by Aug. I not a single bushel of this reserve will be obtainable, in this country at least. On the other hand, the production of wheat this year throughout the world may be the largest on record. Here, at least, it promises to eclipse that of previous years.

"On July 1 of this year," said Frank Greens, managing editor of Bradstreet's, "the amount of available reserve wheat in this country and Canada was within 2900 bushels of being the lowest on record since 1885. The amount held east of the Rocky Mountains was the smallest since 1889, although the stock on the Pacific Coast was heavier than in any of the preceding 14 years.

New lork:
Shorts covered extensively to-day, but the taking of profits was large and failed to check the upward tendency. Advices of welcome rains du the corn belt, and calling of a meeting of anthracite cont presidents, were favorable to buil sentimeat. The campaign against the shorts in Sugar uncovered numerous stop-loss orders, and the price rose further 2%c. Tobacco rose over 1 per cent., and the Industrials generally were firmer. In the railway list, the most notable advances were in C. & N. W., the Pacific Railway shares, Jersey, D. & H., Illinois Central, B. & O., C.G.W. issues and L. & N. The market closed strong at about best prices.

The general tone of Americans was good, but investment stocks were lower on indications of possible dearer money. The markets were quiet, but the close was decidedly firm on New York support.

The discount market is rising on the fail of American exchange. The question of gold exports to New York is freely discussed by people affirming that gold may go next month. Such talk, however, is premature. Stock Market.

Wheat—Large receipts and practically no home or export demand. This is the brief explanation of to-day's extreme easiness is wheat. The decline at seaboard has been fully as great, July in that market losing id-during the day, and both the Southwest and Northwest were affected in almost the same degree. Foreign mackets were also flower, Paris 25c on July, with Liverpool of 3rd on that month, the greatest decline in Inversool being 13rd for September, compared to our decline of about 4c for the former and 23rc for the latter, with no recovery recorded at the close. While clear and expected this year. St. Louis is also said to have sold quite freely to-day. From the latter section are very sanguine reports regarding large spring wheat yields. Receipts there, however, are small, compared with last year. Bulk of sentimen there was considerable luguidation by local longs on reports of rain in several corn States.
