Chicago, Jan. 3.—President Ban Johnson of the American Baseball League today branded as unfounded and untrue the story concerning the plans of his league which appeared locally and was telegraphed extensively over the country. The main points to the bad yarn were that he, Charley Comiskey, Jimmy Manning of Kansas City and Matt Kililien of Milwaukee held a secret conference, at which it was determined to defy the National agreement and fight the National League by placing clubs in the east as well as in Chicago. Both Manning and Kililiea were in Chicago, having arrived Sunday morning, and departed that same evening. Charley Comiskey, formerly of St. Panl, but now looking for an opening in Chicago, was present at an informal talk, in which nothing definite was decided upon in regard to the plans of the new league, according to Mr. Johnson. Of course it is a matter of common knowledge that the American League has certain schemes up its sleeve in regard to its circuit for this year, and the matter may have been discussed at Sunday's conference, but no such radical action as was credited to the magnates was determined upon, much less given out by President Johnson.

tions, later excesses, dissipation, etc., there is much to be considered. The subject is deeper than most physicians think it. One thing is certain, DRUGS ONLY STIMULATE.

They do not tone or strengthen. It is just like taking a glass of whisky to temporarily relieve the mental trouble. I soon saw drugs were not giving my patients satisfaction and went to work experimenting, just as a business man does if he wishes

affairs which are not proving profitable. The first thing I discovered was that the weakness was local. For proper results a remedy had to be found which would build up the whole organism. I knew that 'I should TREAT CAUSE, NOT EFFECT, and to meet this demand I invented a portable chain battery, which developed into my present
