EAST TORONTO COUNCIL

Don't Want the Morley Street Sewage Plant-Annexation in the Northeast-Suburban News.

EAST TORONTO, Nov. 17 .- (Special.) -It was a vigorous protest that the town council to-night formulated against the action of the board of control in the selection of Morley-street site as the proposed location for the sewage disposal plant.

The prime cause of the objection at

the particular juncture was the re-ceipt of a letter from ex-Mayor John McP. Ross, in which the latter urged upon the council the imperative need of registering some forcible objection to what in the residential portion of East Toronto is regarded as an element of danger to the health and depreciatory to the value of the pro-

Objects to Site. Councillor Phelan made a vigorous attack on both the location and theory of septic disposal in general. "For the simple reason that the houses at the beach are not so elaborate or the owners so influential as those of Parkdale every undesirable institution is located in the east," said he. "Let us show the city in the very outset that we propose to fight for our rights, and resist this wrong," he said, and council unanimously endorsed the eentiment. This concrete resolution was then submitted embodying the will of council "That the clerk be instructed to communicate with the board of

FIGHTS TO REGAIN SON

Boy Taught to Believe That He Came to New Life After Change of Ownership.

MONTREAL, Nov. 17 .- (Special) .-There is a very strange case now before the Montreal courts and one that is being followed not only by the public at large but by the colony of spiritualists in the city.

It appears that one Madame Dickson, when she thought she was going to die, gave her little son Joseph over to a woman named Madame Cleophas Mercier, a well-known Frerch spirit medium. Madame Dickson recovered, however, and has applied for a writ of habeas corpus to recover the child. She alleges that her boy is being brought up in the religion of the spirits and she objects to all this. Madame Dickson claims that her son is being taught that he is the child of Madame Mercier, the head of the spirit band in her locality.

It appears that the boy is told that he died and that his soul entered Mrs. Mercier, and she transmitted it to life again, all of which is scaffacous to the real mother and to the people generally of the Catholic faith. It appears that one Madame Dick-
