

PROVINCIAL LEGISLATURE.—The Representatives of this City and County in General Assembly, reached on Saturday last, after having finished the labours of the Session.

THE COURT OF QUARTER SESSIONS was opened this morning, when the newly appointed Recorder, Mr. B. KINNEAR, Esquire, made his first address from the Bench, in which he pointed out to the Jury their duties and responsibilities in very appropriate and impressive terms.

WE understand that His Honor the President has been pleased to appoint HENRY SWYMER, Esquire, Surrogate and Judge of Probates, for the City and County of Saint John, vice Mr. B. KINNEAR, Esquire, appointed Recorder.

PENITENTIARY.—As to the vast importance and utility of a Penitentiary in this Province, there is, we are disposed to believe, but one opinion. The only difference of sentiment has arisen out of the question of ways and means, and this, we think, may be set at rest by the following statement of a practical experience in the case of the Connecticut State Prison, from which it appears that the expense of such an establishment if properly managed is less than nothing, for 134 criminals not only supported themselves, but yielded a clear Revenue to the State of \$3229, besides freeing the State from a desperate evil, and probably, after a time, turning out, as white, those who went in as black as vice could make them.

N. JERSEY STATE PRISON.—We have verified the report of a Committee presented to the Legislature of N. Jersey, which is an interesting and startling. It is entirely in favour of the institution of the Prison at Lambertown, its instruction, its discipline, the expenses, the maintenance, the re-education, the expenses, resulting in a proposal to abandon the building altogether, and to erect a new one on the general plan of that at Auburn and Westfield. The Committee compare the expense of this Prison with that of the Connecticut during the last year. The N. J. Prison had 90 prisoners; the expenses were \$0,199, 00, and the amount \$2,238. The Connecticut had 134 prisoners; the expenses were \$578, 18, the savings \$1,055 54. With about two thirds as many prisoners, the N. J. prison cost \$322, 87 more than the Conn. and the amount \$2,238. The Connecticut had \$2,000 45.—Massachusetts paper.

DISEASE IN HORSES.—A disorder at present prevails among horses both in town and country, which, in many instances, has proved fatal. Its indications are swellings in the throat, of an inflammatory nature, generally thought to be the distemper, known by the name of the glanders. We are sorry to say that it is quite an alarming epidemic, and that its progress has not as yet been successfully arrested.

ROBERTY.—The premises of Messrs. CHOCOSUNK & WALKER, at York Point, were forcibly entered on Thursday night last, and a quantity of Crocker's, a Barrel of Sugar, &c, stolen therefrom.—A reward of Five Pounds has been offered for the apprehension and conviction of the offender or offenders.

THE NARRAGANSETT of Wednesday last, states that 120 Slaves in the Quebec and Halifax Steam Boat Stock, have been taken up in that town, and it was thought more would be forthcoming, for Messrs. W. FAYOR & Co. have taken ten shares.—The Legislature are discussing what aid they shall grant.

THE LEGISLATURE of Prince Edward Island was to meet on the 4th inst.

On Thursday last, His Majesty's Revenue Officers made seizure of thirteen barrels of Gin, which were concealed on Mahogany Island, near the entrance of the harbour.—Courier.

The joint Address to the King of the Council and House of Assembly of New-Brunswick, against opening the West India ports to the United States, has reached us. It is a document couched in strong language, and beseeches all the loyalty to His Majesty and attachment to the parent state, which usually distinguish the public acts of that Province.—N. York Advertiser.

Sir John Colborne has informed the Upper Canada Legislature, that the number of Scholars, on the opening of the New College, amounted to ninety. This is a remarkable number, where the Classics are taught efficiently, and the students grounded in all the precise sciences which distinguish the English Schools.—One would have rather expected that such a school not professedly commercial, and in which the course of education might be supposed to be rather above the immediate wants of a young Colony, would not have met at first with so extensive patronage. We are most happy, however, to find it is otherwise.—Quebec Official Gazette.

The subscription for building a new Catholic Church to accommodate the Irish population of the city, now amounts to upwards of £1700. It is intended not to commence the building, we understand, until £2500 are subscribed, and to erect such a place of worship as shall be an ornament to the city. The site is not yet fixed upon. The Irish Catholic inhabitants of Quebec exceed one-fifth, and are probably fully one-fourth of its whole population.—Quebec Gazette.

FROM PAPERS BY THE BETHIAIR. LONDON, JAN. 18.—Four Canadian Chiefs, who have recently arrived in this country for the purpose of arranging the disputed right to certain lands in Canada which they are endeavoring to recover, were introduced yesterday to an audience of Sir George Murray, at the Colonial Office. They wore their customary dress of the interior, and were occupied with Sir George for a considerable time. The Pelham Packet had arrived at Falmouth, from Montreal, bringing remittances to the amount of £110,000 an account of merchants, but nothing on account of Government.

East India.—We learn from a letter in the Liverpool Times of the day last, from one of the missionaries now in India, that Lord William Bentinck, the Governor-General, has issued a proclamation, prohibiting the inhuman sacrifice of widows on the funeral pyres of their deceased husbands.

GRABER.—The Government and the Russian Ambassador have just received despatches from St. Petersburg. Without the propositions made in common by the Ministers of England and France in favor of Prince Leopold, the Russian Cabinet intimates that the object most urgent of the present moment is not to regulate the form of the Greek Government, but to collect and unite the remnant of a scattered population, and form it into a social body. The efforts of Count Capp d'Istria, to accomplish this end, his address to the Greek nation, and his declaration, that he would gradually be attended with more happy results, Russia would not be ready to concur in any measures that contributed to the welfare of the Greek nation, but does not think that the immediate establishment of a monarchy is for the present the most desirable mode of attaining the end desired. However, we are assured that the Russian Cabinet may, they will be comprehended both here & at London.—Courier.

PORTUGAL.—Letters from Lisbon of the 22d and 26th ult., communicate a great variety of occurrences stamped with the usual character of a country which has hitherto distinguished the acts of Don Miguel and his ministers. The prisons are still crowded, and there is no talk of relieving them by an amnesty. The only goal delivery that is known is effected by the death of the unhappy King, who has been executed, or his transportation to the penal colony of Africa. It is said that fifty political prisoners, of good families and respectable connections, were recently despatched for Angola, in a small transport, conveying provisions and stores for the colony, for the purpose of the day of Africa, or their transportation to the penal colony of Africa. FRANCE AND ALGERIA.—The Constitutional Assembly set on foot through the medium of England and Turkey, to bring about peace between the King of France and the Day of Algiers, or their transportation to the penal colony of Africa. It is said that fifty political prisoners, of good families and respectable connections, were recently despatched for Angola, in a small transport, conveying provisions and stores for the colony, for the purpose of the day of Africa, or their transportation to the penal colony of Africa.

SEA FISHERY.—Four vessels have proceeded within the week to this Fishery. The number of hands which they employ at a full season of the year, makes this enterprise, independent of other considerations, one of considerable interest. We hope similar losses to those of last year may not be experienced; but that the crews and owners, will be satisfactorily remunerated.—Halifax Recorder.

TRADE OF PRINCE EDWARD ISLAND.—From the Charlotte Town paper, of February 20th, we learn that the official value of the imports during the past year, amounts to £46,013 9s. 7d. and the exports to £36,345 8s. 9d.—Balance in favor of the former £9,667 11s. 5d. Taken in connection with the part of the subject, it is to be observed, that the vessel built in the course of the year are not included in the amount of exports, although they are included in the shipping list for an inconvertible portion of the imports. The aggregate tonnage of the shipping built in 1829, amounts to 4318 tons, nearly every ton of which has been shipped in Britain or in some of the adjacent Colonies, with the exception of the amount of exports which exceeds that of the imports considerably, and a balance will thus accrue in favor of the general trade of the island.

WEST INDIES.—The particulars of an interview between His Majesty's Ministers and West India Planters have been published in the City. The latter are stated to have complained of the duty on sugar and other West India products, and the dearness of the West India market, and to have added, that they were led to believe, from the discussions in Parliament last session, that the duty on sugar would be reduced. The Duke of Wellington is reported to have said, that they were not the slightest intention of reducing the duty, nor were any measures in contemplation that would relieve the West India interests, which were only suffering in common with every other in the country.—London Globe.

IMPORTS AND EXPORTS. The following is a Copy of an Abstract of the Imports and Exports of the Province, for the year 1829, laid before the Legislature by the Principal Officers of the Customs.—Halifax Novationist.

Table with columns: Year, Tons, Mers., est. val. It lists imports and exports for 1829, including items like G. Britain & Ireland, Java, Sicily, Trieste, Figueras, St. Petersburg & Cronstadt, Bourdeaux, Gibraltar, Aves, Madeira, Cauton, Br. N. Am. Colonies, Canada, &c., U. States of America, Brazil, and Voyages.

On Thursday morning, at 8 o'clock, in the 37th year of his age, Mr. JAMES ROBERTSON, Jun. formerly a respectable Merchant in this City, and for some time Editor of the Courier. Mr. R. was a native of Lundy, Aberdeenshire, Scotland, and came to this Country in the year 1815. He had enjoyed the advantages of a good education in early life, upon which he improved himself by subsequent study and application.—His habits were uncommonly active, and for a number of years he took a prominent part in the management of many useful institutions in this place. As Secretary to the Chamber of Commerce for upwards of eight years, and lately as Secretary to the Agricultural and Emigration Society, his services were peculiarly valuable, while his private life was such as endeared him to a large circle of acquaintances and friends. He has left three children to succeed the loss of a kind and indulgent parent.—His remains were deposited in the "new row house" on Sunday afternoon, very numerous and respectfully attended.

On Wednesday morning, after a long and painful illness, Mrs. Mary, wife of Mr. John Hargrave, aged 41 years. Yester day, Mrs. Jane McCaffrey, wife of Mr. Francis McCaffrey, in the 25th year of her age. Funeral to-morrow afternoon at 8 o'clock, from her late residence, corner of Prince Wm. & Duke-streets.—Friends are invited to attend.

At Dorchester, in the County of Westmorland, on the 25th ult., Mrs. Ann Carter, wife of Mr. William Carter, in the 38th year of her age. In Cincinnati, Ohio, the Rev. Father Hill, Vicar General of the Bishoprick of Cincinnati, a Catholic Clergyman of the order of St. Dominic, and is believed brother of Lord Hill, and nephew of the celebrated Rowland Hill.
