

TRAVELERS' AID WORK REVIEWED

Reports are Presented at the
Monthly Meeting of
Y. W. C. A.

The report of the Travelers' Aid work of the Y. W. C. A. presented at the regular meeting of the board of directors of the association on Tuesday afternoon was a record of helpfulness and a chapter of human records that touched the members deeply.

The Travelers' Aid work had been at the depot to meet 223 trains and had also been on hand for the arrival of 23 boats during the month of October. She had taken 128 travelers to the Transient Home and assisted 116 at the station and during the month she had found employment for four persons.

An American woman who was traveling to meet her husband in the United States and had her children with her was detained in St. John by the immigration authorities, although her children were allowed to proceed to their destination. While she remained in the city the Travelers' Aid worker was her guide and friend and gave her all assistance and also arranged for the safe journey of the children.

Through the British emigration authorities the local Travelers' Aid committee received word of an English family of husband and wife staying near St. John. The British authorities asked that the wife receive some help and attention from the local workers. She had been head housemaid in influential families in England and was well qualified to assume a position of responsibility. The local committee members called on her and were able to accomplish some real Canadianization work in making her lot less lonely and they were at present endeavoring to find a position for her.

A family of six children was another case which came under the care of the Travelers' Aid worker and she was able to have four of the children placed in institutions in St. John, while two others were sent to relatives after having been cared for locally for two days.

A mother with two children who was unable to obtain work in St. John was helped to return to her home and while she was in the city the Transient Home was a place of shelter and comfort.

Those that are befriended by the Travelers' Aid are not lacking in gratitude. That is one of the very pleasant things about the work. In one of the cases referred to in the report was that of a young girl who had been stranded in St. John without funds. The Travelers' Aid worker had loaned her sufficient money to get to her destination and promptly on her arrival she returned the money, expressing her deep appreciation of the kindness she had received in St. John.

FRECKLE-FACE

How to Remove Freckles

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable cosmetic that will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any drug store and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine, as this strength is sold under guarantee of money back if it fails to remove freckles.

Gov. McCray Accused Of Forgery of Note

\$3,000 Judgment Is Asked In
Suit Over Validity of
Paper.

Indianapolis, Oct. 17.—Forgery by Gov. McCray of a note signed by "A. Messman and Company" is charged in a suit filed in circuit court here by the Brownstown Loan and Trust Company against the Meyer-Kiser Bank of Indianapolis as the result of a sale by the Indianapolis Bank of a note of Gov. McCray to the Brownstown Bank last June.

The suit attacks the validity of a \$2,000 note payable to Warren T. McCray and bearing the signature of the Messman Company of Joliet, Ill. Following the filing of the suit Sol Meyer, president of the Meyer-Kiser bank, issued a statement saying the bank had an affidavit from the Messman Company stating that Gov. McCray, who was a partner in the firm had authority to sign the firm's name to "any and all transactions."

The Brownstown Bank alleges that the Messman note was given as collateral security for another \$2,000 note signed by McCray, made payable to the Brownstown institution.

It is also alleged that the Indianapolis bank, while representing that the Governor was solvent, knew that he was "unable to meet his obligations then due; that he was insolvent and in sound financial condition." A judgment of \$3,000 is asked.

PLACING POLES FOR LIGHT IN APOHAQUI

Apoahqui, Oct. 17.—The installation of poles in this village and environment is becoming more real each day.

The placing of poles from Sussex to Norton and have now moved their equipment to this village, where the poles are now being placed. The majority of the residences have been wired and four electricians are still at work. Jones Brothers' private plant which has furnished lights to their residences and two churches, for several years will be discarded when the New Brunswick Hydro Commission's power is turned on. The installation and maintenance of street lights are being considered.

The beauty of this hamlet and surroundings are often remarked by the strangers who pass this way, and during this season many improvements and repairs have been made which have added much to the appearance of the village on the banks of the Kennebec. Several residents have altered and improved their houses, which, with attractive styles of painting has added a lot to their appearance.

This village in general, has contributed quite liberally to the Japanese Relief Fund, which placed the work of soliciting in the hands of the Women's Institute, which society contributed \$25.10 from the institute treasury and the remainder given independently by the members. Two members of the institute collected upwards of \$25 from other residents of the village and vicinity making in all more than \$50, which has been forwarded to headquarters.

ELABORATE PLANS FOR DOCK OPENING

Committee Preparing to
Handle Crowds—Sub-
Committees Report.

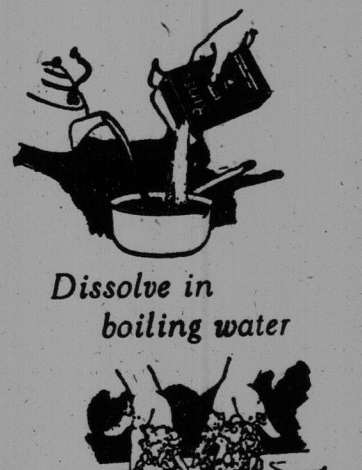

Preparations are being made by the citizens' committee organized to co-operate at the opening of the St. John drydock on Monday, Oct. 29, to handle one of the biggest crowds that has attended an event locally in recent years. The intense interest that has been caused locally and throughout the Maritime Provinces and Canada over the definite setting of the time for the opening ceremony and also the announcement that His Excellency, the Governor-General, and many of the most prominent leaders in the Canadian political and business world, will attend, has led the committee in charge, to make elaborate plans for handling the crowds. Of course, should the weather be disagreeable, such precautions will not be necessary. No matter what kind of weather prevails, the drydock will be opened. The committee, however, is leaving nothing to chance.

Sub-committees reports yesterday indicate that the final details were now being arranged. Financial requirements for the various sub-committees were discussed quite thoroughly at the last meeting of the committee and it is expected that at Friday night's meeting the exact amounts needed for each committee will be decided on and the Common Council then will be asked to vote the necessary sum.

As Friday night's meeting will be one of the final conferences to be held of the various sub-committees, it is expected that a complete representation will be present. It was announced yesterday that slides had been prepared for use in the various local theatres, giving information regarding the event, and having claims to be present on that day and bring their friends.
