CARGO OF PULP WOOD.

Bathurst, Northern Light.—The Norwegian steamer Times cleared from the port of Caraquez on July 31, with a cargo of pulpwood consigned to a big paper mill at Richmond, Va. The sight of such a large vessel at the Caraquez wharf, and the unwonted activity at that place consequent on the loading operations being carried on night and day, once more roused the people of Caraquez to the possibilities of their port and re-awakened their desire for development. The Times was loaded by F. T. B. Young, who shipped nearly 1,500 cords of pulpwood on the vessel.

HAPPY TIME IN SCOUTS' CAMP

A Visit to Y. M. C. I. Boys in Little Tented City at Torryburn.

All reports from the Y. M. C. I. Boy Scouts in camp on the Bishop's grounds at Torryburn indicate that they are having the time of their lives. Outside a few cases of sunburn and mosquito bites as well as the odd scratch or two there have been no complaints. Dr. J. R. Nugent, the medical officer in charge of the camp, has made daily inspections and overlooked no detail looking to the health of the boys.

The arrangement of the camp is attracting much favorable attention from visitors. Ten circular tents are grouped in the shape of a horseshoe around a central knoll, in which are located the camp fire and the camp flag. There are also a large marquee for a mess tent, conks' shelter and some store tents. The cuisine is in the capable hands of James McAndrew.

The daily routine is as follows:—Rise, 6:45 a. m. Dips at seven and eleven a. m. and at four p. m. Life-saving practice. Breakfast, 7:30; dinner, 12:20, and supper, six. Daily flag raising takes place at 8:15 a. m., followed by daily orders, presentation of flags. Scout practice, as well as games and tests, occupy morning and afternoon. In the evening there is a camp fire, with a sing-song, entertainment and group games. At 4:40 comes last post, then prayers, and lights are out at 8:45. About thirty boys have been in camp this week, and their numbers will be augmented by several more to-day.

There have been quite a number of visitors to the camp during the week, and all have been delighted with the arrangements, with the ruddy glow of health on the faces of the lads, with the proficiency they are showing in acquiring the Scout knowledge, and the readiness with which they are living up to the high principles of the Scout. Some good entertainers are among the group and they help much in the general enjoyment.

Visitors on Thursday afternoon and evening were His Lordship Bishop LeBlanc, Rev. W. M. Duke, Rev. William McCullough, C. S. R., Rev. John Gunn of Cambridge, Messrs. J. H. Coburn, Y. M. C. I. general secretary, and Messrs. C. A. Owens, Charles O. Morris and Y. C. Timberley, secretary of the St. John council, spent the week in camp. In charge of the troops are Messrs. Stirling and Frank X. Jennings, scoutmasters, and Thomas Killen and Frank Kiley, assistant scoutmasters, and they are enjoying the camping days as much as are the boys. The presence of the Scouts will be a new attraction this year at the Cathedral Sunday school picnic at Torryburn on next Tuesday.

TO GET OUT MORE COAL AT MINTO

Nashwaak Mine Output to be More Than Doubled Because of Situation.

(Special to Times.)

Fredericton, Aug. 5.—The coal situation has resulted in the decision considerably to expand the mining of at least one of the operating mines in the Minto area. That is the Avon Coal Company, which is controlled by The Nashwaak Pulp and Paper Company. The output of the mine of this company goes to the pulp mill at Fairville.

George McKnight of this city, outside manager for the Nashwaak Pulp and Paper Company, will take steps at once to increase the output from forty tons a day to 110 tons. Horses have been used heretofore in removing the coal from the mine but a steam hoist is to be installed as soon as possible. There also is to be a large increase in the number of men employed at the mine.

REPORT ON THE N. B. CROPS

The semi-monthly crop report for the period ending today is issued by the Provincial Department of Agriculture, Fredericton, as follows:—

Haying on the uplands is finished and the gathering of island and marsh hay is progressing satisfactorily. Showery weather has retarded rapid progress in gathering hay in the southern part of the province. The crop is even better than was at first predicted, and will be twice as much as last year. The acreage of clover being raised for seed is small, most of the area of last year's seeding down to clover having produced only slightly this year.

The barley crop is ripening, though oats are yet green. Indications point to a good yield of oats in all parts of the province with the exception of the Carleton and Bathurst districts. Root crops are exceptionally promising in appearance and the acreage is considerably greater than last year.

Potatoes are making rapid growth, though the number of misses in many fields is as high as fifteen per cent. Pastures are falling and the milk supply in consequence is not too abundant. Soiling crops are being fed quite generally. Creamery butter is thirty-six to thirty-eight cents a pound.

Moncton Times.—Mr. and Mrs. Douglas Gould, of River Glade, N. B., announce the engagement of their eldest daughter, Cora Dell, to Harley H. Hicks of the Dorchester Penitentiary staff, the wedding to take place in the near future.
