### Have Yov Seen The Very Latest in Mattresses?

THE "DIXIE NO TUFT" stands pre-eminent as the acme of comfort and cleanliness. It has all the good points of the ordinary felt mattress, but has distinctive qualities which place it head and shoulders above anything else on the market.

The above cut illustrates its construction, and a glance at it will convince you of the truth of our statement. It is made up of ten compartments and each compartment is practically a distinct and perfect miniature mattress. The absence of tufts does away with the hard spots which tufting inevitably produces, and with the depressions at every tuft which are gathering places for dust, dirt and germs. Our space is too limited to describe in detail why the Dixie has twenty-five per cent. more elasticity than the tufted type, why it presents a better appearance at first, and why it keeps that appearance after other mattresses have spread and sagged out of shape.

But if you will write or 'phone us for a circular which fully describes all these points, or, better still, call and let us show you samples, we feel sure that your next mattresspurchase, and all future ones, will bear the "Dixie" trade

#### SAYS THE DAY OF THE LECTURE HAS PASSED

Sir William Osler Says Medical Training Is Wrong

#### **WORK WHAT SHOULD COUNT**

Lectures Should Be Reduced and There Should Be No Written Papers at Final Examination—Study Made Intolerable Burden

London, Oct. 4-Sir William Osler. rofessor of medicine at Oxford University, in an address at the re-opening of the Medical School of St. George's Hospital, denounced the existing system of training medical students, especially the lecture and examination features. Sir William contended that the work of the students from the day they enter the school ought to count for more qualification and that the students ought not to be under the continual fear of examination. He said the Chinese system of education which is directed to a single end, the passing of examinations.

single end, the passing of examinations shows perfectly the blighting influence of examinations and how they sterilize the imagination.

the imagination.

"The great chasm between education and examination is," he continued, "shown by the statistics of aspirants to the Royal College of Surgeons. Half of the entrants fail, yet these are the very pick of the students. The lectures ought to be reduced. The day of the lecture is past. It ought to be an offence on the part of a senior student to attend a lecture.

"In the case of inefficient students parents ought to be told after a year or two they would never make decent doctors. There ought to be no written papers at the final examination. Watch the man handle a patient. Fifteen minutes at the bedside is worth three hours at the examination table. The student needs that the incubus of examination needs that the incubus of examination should be lifted from his soul. We make the study of our profession an intoler able burden by examinations and th

### EVE WAS FIRST ON EARTH, SAYS NOTED BIOLOGIST

Dr. Paul S. Hunter Asserts Ruled Universe Until Man Overthrew Her by Force-Tells of Adam-

Was Eve on earth in advance of Adam or any other man? Was Eve's appearance followed by another of her spearance followed by another of her sex, and she by a third, and so on without a break in the sex order, thus making the Garden at the beginning and for ages thereafter the exclusive and supposedly contented habitation of femininity? Something to talk about especially for women.

Dr. Paul S. Hunter, a physician with a mind keen for investigation and re-

Dr. Paul S. Hunter, a physician with a mind keen for investigation and research, whose faith in biology is unshaken by argument or controversy, publicly asserts that Eve not only antedated Adam but that women ruled the universe unhampered by man until, with the lapse of time, it was established in order suited to the time.

Thereafter came man — came man when the machine primary civilization was already in motion; came man with the assumption of superiority: came

was already in motion; came man with the assumption of superiority; came man as the advance agent of the great world drama. And the Adamless Eden was no more! Dr. Hunter, as a member of the Wis-consin State Board of Health, is well known, particularly in the west. He

"Eve's sex at first ruled the universe. Then man came and finally developed the stronger body and the brute force which enabled him to take control. Consequently it was easy for him to begin bossing and taking credit for what he had done. He claimed the creation of woman, and in this science disputes him."

Blames Adam for Human IIIs

Addressing the annual convention of the stronger and interpret Eve to Connecticut. This was some

Addressing the annual convention of Associated Fraternities of America not long ago, Dr. P. D. Quick said that at least some of the human ills which increase the sick benefits of the orders could no doubt be traced to Adam himself. Living in a time before sanitation, mosquito screens and pajamas, Adam was probably not over-robust, and then the removal of a rib could not have done lim any good.

Quite otherwise is the recently expressed opinion of Sir William Wilcox, British Adviser to the Turkish Minister of Public Works. After a study of the territory from the sea coast to the Universed to Adam himself. Living in a time before sanitation, mosquito screens and pajamas, Adam was probably not over-robust, and then the removal of a rib could not have done lim any good.

Quite otherwise is the recently expressed opinion of Sir William Wilcox, British Adviser to the Turkish Minister of Public Works. After a study of the territory from the sea coast to the Universed to Connecticut. This was some time ago—early in Mellen's time, to be specific. Just how far Weed progressed when once the farm had become as new Eden the chroniclers in and for that section have never told.

And from Jeddah on the Red Sea coast over a camel trail in the beaten sand pious pilgrims made their way to Mccea, as they have been doing for centuries. Back from the trail engineers are shaping the roadbed for a railway which will connect Mecca and the seaport. Something to talk about—at any rate, something to talk about—at any rate, something to think about.

the territory from the sea coast to the Holy Land Sir William gave it as his belief that the killing of Abel by his brother Cain was the outgrowth of a

Three Day Cure for the Liquor Habit.

# ALLOW THEM TO STRIKE

which he stated that if this organization declared a strike on the New Haven road that he would call for a special session of the legislature and ask for the passage of a law prohibiting strikes of railroad employes in Massachusetts.

The governor's statement of his attitude on the question of railroad strikes is most drastic.

In his letter he plainly sets himself up In his letter he plainly sets himself up in opposition to the contention of the big railroad organization that its men should be promoted in the order of their seniority, the governor holding "that seniority without regard to fitness lowers the efficiency of the labor force." He says that the real question at issue is the safety of the travelling public.

Mr. Foss takes a bold stand against one of the most powerful labor organone of the most powerful labor organizations in the country.

The letter is of great interest at this time because of the governor's announcement, made some time ago, that he would make as one of the principal is-

sues of his independent campaigns, a fight for government control of organ-Inspector—Any abnormal children in your class, Miss Pedagogue?
