His Warnings as to the British Fleet Unheeded.

Visit of First Division, Mediterranean a Mere Courtesy to Italy-Foreign Papers See in it an Off-Set to Franco-Russian Display at Toulon—Canadian Cattle Sales.

London, Sept. 27.—Count Tornielli Brusati di Vergano, Italian ambassador to Great Britain, has tendered his resignation. His reason is that despite his warnings the Italian government allowed exaggerated importance to be attached to the plan that a British fleet should visit the Italian ports next month. The announcement that the first division of the Mediterranean squadron would remain in Italian waters from October 11 to October 31 had hardly been made of Germany's semi-official press tried to construe the courtesy as an answer to the Franco-Russian demonstration at Toulon. Some even prophesied that Great Britain was about to join the triple alliance. When Count Tornielli learned that the reports were secretly encouraged, if not countenanced, by the Italian government, he repeated his original warning against this course, and when this failed of effect he decided to retire

Most of the conclaves since the war have been held at the national capital, which is the headquarters of the jurisdiction, and it is a notable fact that the convention meets to-day in the same hall as that occupied by the gathering of 25 years ago. The officers and delegates represent all sections of the south. The presiding officer is Lieut. Grand Commander Crosby Tucker of Galveston, Tex., who occupies this position as the result of the recent death of Grand Commander James E. Bachelor. San Francisco, Sept. 26.-Notwithstanding the police order that an interview between Dr. West, charged with the murder of the Colusa milliner, and Miss Sta ley, should not be allowed, the latter armed herself this morning with a certificate of marriage to the doctor and was allowed to see him. She had been married by contract yesterday. Detective Bowen remained with the couple during the interview. In his explanation of his action granting permission for an interview Chief Crowley admitted that he had been out-generalled, and that the woman greement with a negro named Pooles, had made good her boast to marry the doctor in spite of his precautions. Convinced that she had really been married to him, he did not want to be arbitrary, so he gave her permission. The police deny that the trunk found on Berkeley shore was Miss Gilmour's. Dr. West appeared in the police court this morning. The prosecution asked for a continuance on the ground of not being ready. The defense objected, but the case was put over for preliminary examination to-morrow at 2 o'clock. The doctor and his attorneys have stolen a march on the police for yesterday's marriage by contract. The age of Miss Staley is given as 22; she is a native of Rio Viza, Solona county, Cal. Dr. West's place of nativity is Linn county, Ohio; age 41.

Oakland, Cal., Sept. 26.-Detective. Cody, of San Francisco examined the trunk at West Berkeley this morning, and decided that it was not the one belonging to Dr. West. It was empty when found, but had on the bottom some thing like blood stains.

The Lapse of Leys.

Buffalo, Sept. 25.-John Leys of Toronto, Queen's Counsel and ex-member

of the Ontario legislature, who fled last week, was in Buffalo yesterday, and is now near this city. He is sixty years of age, and for many years occupied a prominent position at the Canadian bar. He was legal adviser to the Freehold & Loan association, which position carried a salary of \$6,500 a year, and this, with his fees from other corporations, gave him an income of over \$10,000. He managed several rich estates and dealt much in realty during the boom of 1887-89. He appears to have embezzled every cent of trust funds in his charge. The Harsley estate, which represented \$158,000, has entirely disappeared, and the Dick estate, representing \$20,000, is also completely depleted. These accounts are supplemented many others, bringing his defalcations with his debts to \$300,000 at least, and probably more. Mr. Leys stated to a reporter that every cent of his fortune had been lost through real estate speculation, and he had drawn upon the trust funds in his possession to recover him self, but they too were swallowed up in the same way. He was too old now, he said, to atone for his wrong-doings and restore his good name, and nothing was left for him but to get away from Canada and hide himself.

Chicago, Sept. 25.-In the United States court to-day the case of the Chase Piano Manufacturing Company of Michigan against John Boyd Thatcher and the World's Fair musical bureau for a permanent injunction restraining them from examining exhibits or making awards is on the docket for argument. The jury is composed of Hugh A. Clarke of Penusylvania, E. P. Carpenter of Illinois, Florence Ziegfeld of Illinois, George Steck of New York, V. J. Hlavac of St. Petersburg and Max Schiedmayer of Stuttgart. It is alleged that several members of the jury are so related to competitors as to be incapable of acting without prejudice. The act of the national commission in delegating the matter of awards to Mr. Thacher is also questioned.

Chicago, Sept. 25.-There should have been a great demonstration of Christian Endeavorers at Jackson Park to-day, but the event is off. This is due to the decision of John Willis Baer, general secretary of the society, and Secretary Holdredge, of the Illinois branch. They asked that the name of the society be taken from the calendar. New York, Sept. 27.-Thomas C. Platt, n reply to a reporter who interviewed him in regard to measures taken to protect the express company's property from train robbers, said: "We are ready for extra men on trains through to the west and on all trains wherever our interest may be. The men are thoroughly equipped and ready to look after our interests and their own.'

proposition to amend the inter-state commerce law so as to give federal courts jurisdiction in case of the robbery of an inter-stat train, he said it would have a salutary effect in checking the practice. General Manager Julian, of the American company, also said his express company was prepared for them. Supt.

Hoey, of the Adams Express Company, said that in common with other companies they were protecting their interests. General Manager Dudley Evans, Wells, Fargo & Company, said that it was not a good idea to let robbers know what the company was doing, but that special instructions had been sent to western agents. He thought that a federal law providing for hanging or imprisonment in cases where train robbing resulted in loss of life would have a salutary effect upon train robbers. He said

under a United States law men thus captured would be removed from the neighborhood and tried in some court where local prejudice would not act. Often in the west, he said, local feeling was with the poor train robbers as against the greedy eastern corporations. He was glad the railroads in the west were co-operating with the express companies by arming their conductors and brakemen.

With Imposing Ceremonies. Montreal, Sept. 27.-To-morrow is the day of the formal opening of the new board of trade building at St. Sacrament street. The exterior of the handsome edifice will be decorated with flags and banners and on the arrival of the governor-general and party, a guard of honor will be formed along both sides of the front entrance. A plaform is being put up in Exchange Hall, from which speeches will be made by the president of the board, Lord Aberdeen and others. Afternoon teg will be served in Restaurant Secretary of State John W. Foster, who Hall. Admission is by invitation. The banquet in the evening is advertised today. AMERICAN PAPER.

Brother Jonathan Underselling English Paper Makers in England. New York, Sept. 27.—Reports from London say that the English paper making trade is seriously alarmed over the successful competition of the American Say About It-Miscreants Who Derail product, and that several large manufactories which have hitherto controlled a large portion of the trade of the country may be compelled to close before Christmas. How serious is the situation with the English producer may be shown by an article which appears prominently in the current issue of the Weekly Times

and Echo. It says: "Eighteen months ago it was prophesied in this paper that if erican paper maker once got his foot fairthem and are taking extra precautions ly into England, the competition to which to protect ourselves. We are putting our English makers have been subjected at the hands of German and Scandinavian makers would be turn out to be mere child's play in comparison with the fight against the more enterprising and business-like Yankee. Brother Jonathan When asked what he thought of the has begun to compete now in real earnest. His paper is good and his prices are low-and no wonder. He has no coals to pay for, and he can send paper from New York to the Thames for little more than half the railway rate from Manchester to London. Any one who has seen the immense quantities of American paper of all sorts that have been unloaded of late in the Albert docks by steamships from the United States will probably wonder how much longer the English mills can hope to struggle with their obsolete machinery and high prices."

Adventures of a Ship. San Francisco, Sept. 16.—The story of the loss on the Mexican coast of the German bark Carl Burchard, is given by two seamen who arrived here. She sailed from Liverpool in January last, coal laden for Pera. After being out a few weeks she experienced a gale which threatened to capsize her. The sailors were unable to handle the sails. which, with the ropes, were encrusted with ice. About half the crew were in consequence laid up. Rounding the Horn terrific seas were encountered. On April 16th, in a dense fog, the bark had a narrow escape from collision with an iron ship They were close enough to tangle their rigging. The Burchard finally arrived at Port Angeles, where, owing to defective papers, she was taken for smuggling. While anchored in the roadstead, three miles from shore, in a fierce storm; with both anchors down, she began drifting, struck on the rocks four times and had the foremast split, taking the rigging overoard with it. A great wave litted her and carried her within a mile of the shore. The mizzenmast next fell, juring two of the crew. A second wave drove her up on the rocks and split the hull to pieces. She was abandoned by the crew and all were rescued but one.

consul at Port Angeles. A Horrible Discovery. Oakland, Cal., Sept. 27.-This morning a couple of boys discovered an old oil can, which was on the beach, containing the right and left arm of a woman, the right and left thighs, the left calf and also the intestines, Besides these portions of human flesh there were in the oil can a lady's small alligator pins, one small padlock, one castor for a chair or lounge, and three door hinges. The coroner has notified the San Francis-

Boston, Mass., Sept. 27.-Music Hall was filled to overflowing this morning, when the state convention of the Democracy was called to order. Joseph O'Neill was selected as chairman, and William B. Rice of Quincy as chairman of the committee on resolutions. The convention will nominate a full state ticket. The chairman's references in his address to the silver policy of the present administration and to the statesmanship of Grover Cleveland were heartily

Lincoln, Neb., Sept. 27.-In a case in which the State of Nebraska sues ex-Treasuer Hill and his bondsmen for the amount lost in the Capitol National Bank failure, the supreme court yesterday ordered the defendant to file briefs inside of 30 days. The Capitol National failed last spring and the state of Nebraska, through alleged carelessness of the state treasurer at that time, lost \$250,000

New York, Sept. 27.—Stocks in early trading were very irregular. Distilling and cattle feeding was notably firm, rising to 23 1-8 on Washington advices about a proposed increase in tax on distilled spirits; Reading, Burlington & Quincy and General Electric were weak. St. Paul was firm and other active stocks about steady.

Railway in Cherokee. St. Louis, Sept. 27.—The Sante Fe railway management has in mind the extension of the Oklahoma branch of the St Louis and San Francisco line from Lapulpa to Guthrie, about 70 miles. The road has had such an enormous increase of business on account of the opening of the Cherokee strip that it is said that President Reinhart has conceived the idea that there is a magnificent future for Oklahoma. The St. Louis has no direct line into that country, but a short extension of an easy grade and through a rich region will give a quick connection. It is the belief of leading managers that unless the tightness of money tinues as now, the road will be built at
