HOLOCAUST IN NEW YORK BLAZE

THIRTEEN ITALIANS MET FIERY DEATH

Seven of Victims Were Children--
The Whole Building Was
a Furnace.

New York, Nov. 25.—Thirteen persons lost their lives and several were injured today in a tenement house fire at the corner of 109th street and Second avenue. All the dead are Italians, seven of whom are children.

The bodies were found huddled together in rooms on the top floor of the fourth story building where the fire broke out. People had been driven by flames which rushed up from the lower floors. They had been caught and burned to death before reaching windows which led to the fire escape and safety.

That the fatal fire was the work of incendiaries who sought revenge is the opinion of the police and firemen who made the fire a mystery. Three weeks ago three Italians were caught in an attempt to rob a safe in the saloon of Giuseppe Cudano on the ground floor. The safe contained over \$200 which the saloon keeper's friends had withdrawn from banks during the money panic. The would-be robbers were arrested and are now awaiting trial. The fire started in the saloon and the police believe it may have been the work of friends of the prisoners who took this means of squaring the account with the saloon-keeper.
