GARVE NEWS RECEIVED. omplications Imminent in Dahomy-

Tuberculosis on the Experimenta Farm Found to Exist to a Considerable Extent

An Important Test Case To Come Before the Exchequer Court To-Morrow.

Ottawa, Oct. 26.-Hon. Sydney Fishe was interviewed to-day in regard to the report that tubercolosis had broken out on the experimental farm some days ago. Said the minister of agriculture: One of the animals was sick and by mistake wrong medicine was given to it The result was that the animal died. On examination it was discovered that the animal was suffering from tubercolosis. Prof. Saunders had the whole nerd tested and has found that tubercolosis exists to a considerable extent. He immediately took steps to have the animals that were afflicted with the disseparated from those that were

not. In a very short time," concluded the minister, "a full statement will be prepared and given to the public. An important test case comes before the exchequer court to-morrow by which Balderson, late secretary of the department of railways and canals, claims \$500 further allowance per year under the superannuation act. He is one of the parties laid off by the present govern-ment. Should his claim turn out good there will be similar cases brought by Hayter Reed for \$700 a year for the remainder of his lifetime; Wm. McGirr, for \$500; J. M. Gordon, for \$500, and others in exactly the same position. The natters hangs altogether upon the inter-

pretation of the statute. A large deputation from Windsor, Chatham, Leamington, Sarnia and surrounding country saw Premier Laurier and Minister Davies to-day to protest against further export of natural gas from Ontario wells. They claim that 5,000,000 feet are pumped across to Detroit daily. It is understood on reliable authority

that Premier Turner of British Golumbia will subsidize a railway via the Telegraph Creek and Teslin Lake route to the Yukon, this being an all-Canadian Regret Expressed that Insurgents The new issue of postage stamps will

Efforts Have Proved Abortive. Montreal, Oct. 27 .- The Herald deals editorially this afternoon with the illegal wheat combine in Manitoba and quotes Mr. Ogilvie, the big miller, who recently returned from a western trip. After reviewing the situation and referring to the fact that the Manitoba farmers have received higher prices for their grain this fall than the American wheat producers in the neighboring states, the paper arrives at the conclusion that a combine may have been organized early in the season, but any efforts to depress prices have proven entirely non-effective. Leading millers on the grain exchange when seen this morning emphatically declare there was no combine, and there was it could not be in working order because the prices at the present time are two or three cents above the

A HITCH IN ARRANGEMENTS In the Proposed Extension of Intercolonial Railroad to Montreal.

Montreal, Oct. 26.-There is a hitch in the proposed extension of the Intercolonial to Montreal, and trains on the government road will not be entering the city under the new arrangement made with the Grand Trunk and Drummond County rallways on the date intended, November 1. The reason for the delay is the unfinished con-dition of the Drummond County line, which will not permit the running of trains fast, enough to make an opening possible. directors of the Drummond County the roads impassable. Although the sea have gone ahead on the assumption that is high to-day it is not nearly so rough as during the past few days and travel gain ratified by parliament in spite of the Senate rejection.

THE QUEEN IN GRIEF

The Duchess of Teck Dies Suddenly

as the Result of a Critical

Operation. Closely Related to the Queen and Others Members of the Royal Family.

Richmond, Eng., Oct. 27.-The Duchs of Teck, cousin of Queen Victoria, sister of the Duke of Cambridge and mother-in-law of the Duke of York, died here at 3 o'clock this morning from car-

liac failure, the result of an operation. The death of the Duchess of Teck caused a sensation throughout England, as it was supposed she had entirely recovered from her previous complaint, which caused considerable suffering. the conference, has not yet reached During several days past active preparatious had been on foot for the opening of the charity bazaar at Richmond, the Duchess having promised to be present at the ceremony. The streets had been in process of decoration and the bazaar itself was approaching completion. Everything possible was being done to make the bazaar a memorable event and to do honor in every way possible to Her Royal Highness.

Inquiries made to-day at the residence of the Duke and Duchess of Teck show that only when the Duchess returned from the north a few days ago were there slight symptoms of a recurrence of the hernia for which she was operated on last July, and it was not expected that any serious consequences would ensue. On Monday, however, the Duchess became really ill though even then no serions symptoms were observed. On Tuesday she became worse. London specialists who had previously operated upon her were summoned to Richmond. They held a consultation and decided that the life of Her Highness could not be sustained without another operation. This was successfuly performed, but the Duchess gradually sank and died at 3 'clock this morning.

The Duke of Teck is prostrated with grief at the death of his wife. The Duchess of York was the only member present at the death of the Duchess. Until fate last night fatal consequences were not expected.

Later in the day an official bulletin was ssued to the effect that the Duchess of Terk died of cardiac failure two hours after the operation had been performed. The Dake and Duchess of Teck had 1893' to Prince George of England. Duke of York; Prince Adolphus, born August 13th, 1868, married December 12th, 1896, to Lady Margaret Grosvenor: Prince Francis Joseph, born January 9th, 1870, and Prince Alexander, born

April 14th, 1874. The Duke of Teck, husband of the deceased Duchess, served in the Austrian army, was captain during the Austro-Italian campaign of 1859, was ere appeared in the police court this mentioned in dispatches for gallant conduct, and resigned after the campaign of '66. Subsequently the Duke of Teck served the British forces in Egypt in 1882, for which he received the Egyptian medal and the Khedive star. He was mentioned in dispatches, and promoted to the rank of colonel, unattached. The funeral will probably take place

from Windsor. London, Oct. 27 .- Flags are at half mast over all public buildings throughout Great Britain to-day as a mark of sympathy with the royal family's loss as sustained by the death of the death of the Duchess of Teck.

The distress of Queen Victoria when she heard the news of the death of is expected that McIntyre will make a the Duchess was very great. The Princess of Wales was at Newmarket when project has been urged for the past informed of the death of the Duchess

SETTLEMENT IN SIGHT.

Light Breaks Through the Clouds for the Striking Engineers.

Giasgow, Oct. 27.-It is now undertood that the Employers' Federation and delegates of the Amalgamated Society of Engineers at the meeting vesterday communicated with each other through the board of trade that the conference between the representatives of the employers and delegates from the striking engineers had been practically arranged, the latter having agreed to withdraw the demand for eight hours per day, which had been a great stumbling block in the way of arriving at a settlement of the

of St. Lawrence bay. We found the palm of the bill plated with gold. We dragged some and the gold worked into There was trouble during the voyage of the Charles W. Morgan. The cap-

ain of the vessel was taken sick and left at Hakodate. Then some of the men refused to do duty and were put in irons until the vessel got out to sea. The Morgan spoke the whalers California and Horatio in Okhotsk sea. Both had fair catches.

A MICROBE'S WORK.

A microbe is about the smallest thing ne meets in a day's journey, but it can do more harm for its size than anything known. Boils, pimples, etc, are simply microbes in the skin which cause irritating blood discrders, if not stopped at once; and it is they that prevent wounds healing also. "Crickcure" kills the mi-crobe immediately after application, and any sore heals rapidly where "Quickcure" is used.

BATTLE WITH STRIKERS.

Several Men Killed in an Attack on a Mob.

Yuma, Ariz., Oct. 26.-A pitched battle at Mammoth tank, 45 miles west of Yuma, between Yuma county officers and 260 Mexican railroad laborers resulted in the death of from three to seven Mexicans, wounding several more and dangerously wounding of Deputy Sheriff Wilder, of Yuma.

Sheriff Greenleaf, of Yuma county, was called upon to arrest the ringleaders of a gang of striking Mexican laborers. With his deputies, George Wilmer and James Jones, he advanced on the strikers, when the latter attacked them with rocks and revolvers.

With the first volley from the Mexicans' revolvers Wilder fell. The mob then started on a run for the section foreman, who had accompanied the officers. Jones in the meantime had secured a shotgun, which he discharged at the advancing strikers.

Three men fell and were picked up by their comrades who continued to advance. Another shot brought more to the ground and a stampede followed. Sheriff Greenleaf, who had in the meantime conveyed the deputy to a waiting train. called upon the men to board the train, which immediately pulled into Yuma. A posse of 25 men is being formed in Yuma and will soon leave for the scene of the trouble. More and sensational developments may be expected.

CROUP QUICKLY CURED. Mountain Glen. Ark.-Our children were suffering with croup when we received a bottle of Chamberlain's Cough Remedy. It afforded almost instant relief,-F. A. Thornton. This celebrated remedy is for sale by Langley & Henderson Bros., wholesale druggists, Vic-
