OTTAWA LETTER.

OTTAWA, June 24.—The most exciting debate of the session was started yesterday over the Dundonald episode, to crowded galleries, the larg- of militia to deny that it was Hon. est crowd this year, and more than Sydney Fisher who, for political reausually full benches. Mr. Borden of the regiment—a challenge that Sir Halifax moved a resolution consuring Frederick with all his bluster failed Hon. Sydney Fisher for interposing to successfully answer. In closing, party political influence in the selection of officers of the new cavalry regiment, the Scottish Light Draoens, in the Eastern Townships of Quebec, and Fisher defended his conduct with more than his usual vigor. Sir Frederick Borden, in his zeal to make party capital out of the incident, spoiled what would have otherbeen a fairly effective speech from the Quebec liberal point of view. When Sir Wilfrid dubbed the British general a fereigner and a stranger he gave his followers a clue that they have closely followed. Every insulting reference to Lord Dundonald yesterday was loudly applauded by ministers of the crown as well as by the occupants of the back benches, and these demonstrations led Sir Frederick to use language that might be telerated on the stump, but was not creditable to the head of the great militia force of Canada. When the minister charged the Toronto News with having no respect for his (Borlen's) office, he evidently overlooked tice mariner in which he created Lord Dundonald in debate. Sir Frederick has pretty much enjoyed the reputation of being a candid talker, and courtesy, but yesterday's exhibition has drawn a large black mark across his record. It does not always pay a minister to play to the galleries.

Hon. Mr. Fisher was likewise venomeus, but there was some excuse for to the galleries. He plays to Quebec. him. When a man has a hopeless and it goes without saying that Quecase, has no legitimate defence to put, he takes refuge in swatting his Outside of Mr. Sifton, who represents opponent.

The leader of the opposition, who opened the debate, was in good form, earnest, frank and calm in his utter-He knew his ground and treated his theme with candor. It was not a partizan appeal. It was an address to the best thought of "The incident to which I refer," said Mr. Borden, "touches vitally the question whether we are to have in Canada a non-partizan militia force, or whether we are to have in this country partizan politics introduced into the appointment of officers and the recommendation of men for commissions in that force. I would not suppose that there could be any two opinions on what should be the correct course. Up to the present we have not heard a great deal of politics being introduced, at least into the administration of this portion of the force. I do not remember in my own prevince of ever hearing a man's political opinions discussed in connec tion with an appointment to the militia. (Cheers.) It would be eqtremely regrettable if partizan political considerations should be allowed to interpose between the general officer commanding and these who are subordinate to him, To permit that to be done is to permit the interferengaged in the performance of their duty, and to interfere with an officer in that regard is, it seems to me, likely to result in the most disastrous effects upon the military force of this

Mr. Borden showed that not one word in the correspondence brought down respecting the 13th Scottish Light Dragoons, nor in the statements made by Hon. Mr. Fisher, pointed to political influences having governed Col. Smart or Col. Whitley, who were endeavoring to find the best qualified men, or failing these, the most efficient men for commissioners. He did not know if Col. Smart had any politics, but he had been advised that Col. Whitley was a liberal. What reason, then, was there for supposing that these two men would combine to have only conservative officers in the regiment? When Hon. Mr. Fisher said his only object in interfering in the B. C. case was to get qualified officers possessing local knowledge, he stood on good ground. His interference might regarded as meddlesone, but it could not be called vicious. But only a few minutes after making this statement, the hon, gentleman added: "I found in this list of proposed names for the staff for the neighborhood of Levell of Leeds and Grenville, Ont.; a nephew of Senator Baker, and talked of as a possible conservative candidate, to be third in command of that regiment." If Mr. Fisher were concerning himself only with the military qualifications of the men proposed for that regiment, asked Mr. Borden, why was it necessary for him to inquire in- Jacques Cartier, Que.; Roddick of St. this gentleman. Do we find there, Sherbrooke, Que.; Seagram of North asked Mr. Borden, any reference to the Waterloo; Tarte of St. Mary, Montreal No. There is simply a reference N. B. to his relationship to Senator Baker, who seemed to be the bete noir of the minister of agriculture. What is Mr. Fisher's next remark? "Mr. G. H. Baker, son of Senator Baker, to be senior captain of said squadron." There was not one word in this as to the gentleman's military qualification Unfortunately according to Hon. Mr. Fisher, the young man was the son of his father and was therefore offen sive to the cabinet as represented by the minister of agriclture. The next item of Mr. Fisher's complaint read : 'Mr. Thomas R. Pickel, son-in-law of Senator Baker, to be the junior captain of the said squadron." The hon. minister was unable to get Senator Baker out of his mind in connection with the organization of the Scottish squadron. He even went so far as to object to the appointment of Mr. Thomas F. Cotton because he was a grand nephew of Senator Baker. And wet Mr. Fisher had earnestly assured the house that he only objected to the Mr. T. donald came to an end much sooner than the government expected, although the result thereof was to their satisfaction. There are some things the administration do not relish discussing at length. Sir Wilfrid Laurier first put up a strong defence, but but did so under difficulties. He was not by any means at his best and at times labored hard. Two loads had been put on his shoulders-one by himself in what some opponents say was a moment of weakness, when he possessing quite a stock of called Dundonald a foreigner and a St. George, to sneer at the British arstranger. Ontario is not in it. Sir William Mulock is a good man in his own eyes. So is Sir Frederick Borden. Hon. Mr. Emmerson says little and is biding his time. Hon. Sydney Fisher is an agricultural minister without influence, and his recent interference with militia matters has made his position a precarious one. Mr. Casgrain said he could see no better campaign literature for the conservative party to distribute all through Canada than the speech made on Thursday night by the minister of militia. It came with very bad grace for this member who wears upon his breast the star of the Order of St. Michael and istocracy. The minister must have known that while Dundonald was born a nobleman, he has carved with his sword a great name upon the anthe word. Sir Wilfrid does not play tinued the eloquent member for Montmorency, "I am an admirer of the British aristocracy. While in other countries the scions of great louses seem to have forgotten the role they are called upon to play in the different avocations in which they should be engaged, in Great Britain, on the contrary, the heirs of the great names have remained faithful to the traditions of their race, and whether it be in peace or in war, we find these great men taking their share either in defending the country in time of war or conducting its councils in time of peace." Mr. Casgrain vigorously scored the ministers for importing into this discussion an appeal to race prejudice keeps a stout lock and key on his by asserting without a tittle of eviinward thoughts. BRITISH VICTORY.

GYANG TSE, Thibet, June 27 .- General MacDonald, with reinforcements, entered Gyang Tse June 26, after a somewhat severe fight with the Thibetans at the Naini Monastry, six miles distant.

The monastery was strongly held by the Thibetans, who were only driven out after four hours of artillery, infantry and hand-to-hand fighting. The British force lost five men killed and six wounded. The Thibetan loss was considerable, but the estimated numbers were not given out.

Included in the corps is the 13th Scottish Light Dragoons, and with it is Dr. Piokel, the gentleman whom Fisher refused to accept, and in consequence of which the Dundonald trouble arose. Pickel is serving as sergeant in the squadron he was to have commanded. Fisher's political friends are conspicuous by their absence in the regiment.

SUSSEX ALDERMEN ECONOMIZE.

SUSSEX, June 28.—The new town council held its first meeting yesterday. The meeting was informal, and was held principally to fix upon plans for the economic administering of the town's affairs for the next year. Economy is the new council's watchword. In order to cut down expenses it was deemed best that the offices of the town clerk and town treasurer be amalgamated. The council felt too, that legal assistance would be necessary in the work of organizing, drafting and constructing the incorporation act, and J. Arthur Freeze was unanimously given the appointment. George Whiteneck was appointed special policeman during drill. Others will be appointed later.
