

*The Telegraph to the News Room.***THE GOVERNOR'S SPEECH.**

LEGISLATIVE COUNCIL, CHAMBER,

Tuesday, April 12.

This day at One o'clock, His Excellency the Lieutenant Governor, came down the main staircase to the Council Chamber, and being seated on the Throne, commanded the attendance of the House of Assembly, who, being gone, His Excellency was pleased to close the Session with the following Speech:

*Mr. President and Hon. Gentlemen of the Legislative Council:**Mr. Speaker and Gentlemen of the House of Assembly:*

You have been engaged during the present Session in the consideration of many subjects of great importance. I acknowledge, with thanks, the assiduity with which you have applied yourselves to the discharge of your public duties.

The laws which regulate the election of members to serve in the General Assembly—the disputed question by which the prosecution of Military operations has hitherto been impeded, and the system of management of the Roads and Bridges of the Province have successively occupied your attention.

I trust that the measures which you have passed will give satisfaction and promote the public interest.

Mr. Speaker and Gentlemen of the House of Assembly:

I thank you for the supplies which you have voted for the public service. You may be assured that I shall exercise care and economy in the outlay of the sum which you have placed at my disposal.

The establishment of a responsible department for the management of the Roads and Bridges of the Province, will I confidently expect afford a new security for the judicious expenditure of the money appropriated for the maintenance of these works.

The act for raising a Revenue will I think be found sufficient to promote the necessary funds, and I hope that the recent revision of the Import Duties may prove advantageous to commerce.

Mr. President and Honourable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

I congratulate you on the termination of the labours of the Session. In releasing you from further attendance I desire to express to you the satisfaction which I have received from your attention to the public business of the Session. I assure you of my cordial good wishes for the success of the private pursuits to the prosecution of which you will now return, and I sincerely pray that Providence may bless the industry of this Province, and continue to vouchsafe to us his guidance and protection.

Mr. Speaker and Gentlemen of the City of Saint John:

The steamer *America* arrived last night at Halifax from Liverpool, and up to a time of our going to press very little of the intelligence had been transcribed. The substance of that received was that affairs before Sebastianopol remained unchanged. The army was in excellent condition, and no bombardment had taken place. Every effort was being made of Vienna to restore peace.

DISTRESSING CASE.

A respectable individual, who with his family, strived here last summer, where he lost his health, is anxious to return home again; but his means fail short of the amount required for their passage. An appeal is being made on their behalf, with the hope of making up the deficiency. A few pounds have already been subscribed. The amount required falls short of £120, and this among a charitable community, is a mere trifle, and would render him and those dependent on him happy. That he has better days he can produce most honorable testimonials.
