Thousands trudging along roads with few household effects present pitiable sight—German attacking force in surrounding territory 125,000.

London, Oct. 8.—The Amsterdam correspondent of the Chronicle, under Wednesday's date, says the Germans have crossed the Neche and are advancing on Antwerp from that source. Another source, he says, is making an attack in an eastern direction from the village of West Malle. "Early this morning," the correspondent continues, "the first long stream of refugees arrived at Putte on the Belgian-Dutch frontier. They came from the villages inside the inner fort line and they were allowed to travel only in a northerly direction. By noon the roads presented a pitiable sight. Thousands were trudging with their household belongings in carts drawn by horses and dogs." Under Tuesday's date the Times' Antwerp correspondent says: "The precise strength of the German attacking force is unknown. The most authoritative estimate is that they number 125,000 men, and are well provided with artillery, including some heavy 26-centimetre, and apparently some 42-centimetre guns. The last named gun, however, is rarely used. The weight of the German attack during the night was thrown on that part of the river near Lierre. "I have just returned from head quarters, where the chief of staff frankly described the situation to me as being serious."

Just Apply This Paste and the Hairs Will Vanish

(Bouloir Secrets.)

The judicious use of a delicate paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delatone with some water, then apply to the objectionable hairs for 2 or 3 minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delatone and it will not mar the most sensitive skin, but to insure results, see that you get real delatone.

For the luscious, ruby-ripe and mellow-sweet Canadian apple, we should truly give thanks. Of all the harvest it is the most beautiful, the most healthful and nourishing fruit. Within its carmine-tinted skin is all the goodness and bounty of Mother Earth.

How many Canadians realize that there is no fruit in the world so luscious, so beautiful, so economical and so healthful? The Canadian Apple—envied of all nations to such an extent that heretofore, until the war prevented their getting them, the wealthy foreigners have bid so high that the cream of our crop has gone to Europe! Which means that heretofore Canada—the home of the apple—has known only "seconds" and inferior imported fruit.

# KIU CHU MUST FALL SOON BY GERMAN

Supplies Running Short and Japanese Guns Have Inflicted Heavy Losses—Austrian Battalion Wiped Out.

Tokio, Oct. 7.—The war office declares that the general situation at Kiu Chau shows material improvement. The German artillery fire has appreciably lessened, indicating that ammunition is getting short. The Germans have also lost two of their aeroplanes, which have been shot down by the Japanese reconnoitering over the land forces. In addition the Germans dived their fire was put out of business when a shell cut the rope, sending it to the ground.

Heavy Siege Guns of Enemy Hammering Defences and Occupation of Town Must Come Soon. The Hague, Oct. 8.—Communication with Antwerp is interrupted. The city is known to be under a terrific bombardment from all sides. Following the refusal to acquiesce in the demand for the surrender of the city by the military authorities, the Germans, who previously had confined their fire to the encircling chain of forts, turned their guns on the city itself. They had given two hours' notice to the inhabitants to leave, and thousands fled out in utter panic. The roads to the Dutch frontier are littered with household goods, clothing and personal belongings of every character, abandoned by the terrified Belgians in their mad rush to safety. The procession started orderly enough, but followed to the crowd still near the city and they rushed madly ahead. Horses, wagons and automobiles were utilized for the flight, but there were many hundreds who had to walk many miles over roads ankle deep in mud and mire.

Reports from the city itself say that great shells are dropping everywhere and that many houses have been destroyed already. The Germans claim that they have beaten the Belgians from both the outer and the inner line of forts. They claim that they have taken four heavy batteries, 52 field guns and many machine guns, after crossing the Neche River. Fort Broeckem, the Germans claim, was taken by direct assault after having been bombarded for two days. The Germans burned Lierre before they crossed the Neche. It is stated that King Albert still remains in the city and is directing the defence.

The crossing of the Neche by the Germans was one of the most spectacular episodes of the present war. The Germans first tried to build pontoons, but failed under the pressure of their heavy artillery. The Belgians pushed their guns forward and frustrated six separate attempts, in which they lost heavily. Finally the Germans clustered their heavy field artillery at one point and simply built a wall of steel projectiles around the pontoons. The latter hurriedly threw four sets of pontoons into place and then two German divisions were rushed across and carried the Belgian positions at the point of the bayonet. The Belgians have made determined efforts to strengthen their inner line and have mounted heavy cannon. The fighting is reported to be continuous, with heavy losses on both sides.

STREET RAILWAY MEN OUT ON STRIKE IN MEXICO CITY. Fifteen hundred men quit on four hours' notice—"Cabbies" may join them.

Mexico City, Oct. 8.—Twelve hundred motormen, conductors and inspectors struck today, tying up street car lines of the capital. The men had given the management four hours in which to grant their demands for an increase in wages of one hundred per cent, an eight-hour day, and recognition of the union. When the time limit expired, and no reply had been received, the men walked out. The cab drivers of the city threaten a sympathetic strike. The street car system is owned by a Canadian corporation. No disorders occurred during the early hours of the strike.

NOVA SCOTIA HAS SHIPLOAD OF SUPPLIES TO SEND TO BELGIUM. Halifax, Oct. 8.—As a result of the appeal made by Hon. G. H. Murray, the people of Nova Scotia have donated a shipload of clothing and provisions for the relief of the distressed Belgians. The British admiralty has placed a ship at the disposal of the committee to transport the gifts to Belgium direct. The ship will sail from Halifax during the week beginning October 19th.

A number of the localities outside the province are taking advantage of the opportunity to send their contributions in the Nova Scotia ship. If one ship is not big enough to carry all the goods offered, the admiralty will give another, provided the cargo offering is sufficient.

All railroads in Nova Scotia have offered to carry goods addressed "The Belgian Relief Committee, Halifax," free of charge.

Any committee or locality collecting supplies for the Belgians and wishing to ship them by the Nova Scotia ship can ascertain whether space is available by telegraphing A. S. The railway freight will be free and there are no charges to pay for steamer hire.
