

THE KEY TAKEN BY SURPRISE BY RUSSIA'S MOVE, FORCED TO ASSUME THE DEFENSIVE

THE GERMAN RIGHT WING SMASHED AND ROUTED LEAVE WOUNDED ON FIELD

Ready to give up when flood came as climax - Wirballen only, obstacle to general advance of Russians in East Prussia, cannot hold out much longer - German soldier says officers drive men to very mouth of enemy's cannon, at point of the pistol.

London, Nov. 6.—The correspondent of the Daily Mail in the North of France, under date of November 5, describes the relief felt in Dunkirk, Calais, and the neighboring towns and villages, at the retreat of the Germans, which, he declares, amounts to nothing less than a rout. He says: "The German right is smashed like a fallen wine glass. Guns, stores, rifles and even the wounded, were abandoned in the rush from this fatal battlefield. The chance of the Germans was well on the wane, when the flooding of their positions came as a climax of the disaster. There is now left no more than a handful of the German force which met its fate at the Yser. Thirty thousand Germans, say the Belgians, have been put out of the fight on this side of the river and the unburied dead, the drowned and the wounded, with the memory of all the traitors who fled, led one to think that there is no over-telling of the enemy's loss. There must be many thousands of prisoners."

Petrograd, Nov. 6.—According to Russian information, Wirballen is the only obstacle to a general advance of the whole Russian front into East Prussia. The Germans, it is declared, soon will be forced to evacuate the positions they are occupying. The backward movement of the remainder of the German line left this point without sufficient support.

Paris, Nov. 6.—The French have again resorted to a series of bayonet charges to check the German advance in the Artois region. As a result they have been able to press the enemy still farther back, according to this afternoon's official statement.

The general situation in the north is unchanged. The fighting continues with extreme violence between Dixmude, the Yser and the Somme. The Germans continue their efforts to blast and hack a line through to the coast, but, although there have been gains and losses at several points, the general battle line remains about the same.

The Germans have brought up additional guns and are subjecting Arras to violent bombardment, but so far without dislodging the Anglo-French force there.

London, Nov. 6.—According to a statement issued by the Official Press Bureau today the penalty for failure to win through the allied line on the part of the German troops is bullets from the pistols of their own officers. Quoting a wounded German soldier, an eye witness's story supplementing that made public last night, says: "The prisoner told the British surgeon who attended him, 'Our officers warned us that if we faltered we would be shot from behind. I knew that this threat was carried out when our terrible losses compelled us to retire. I myself was wounded by a German bullet.'"

The report declares that the Germans had set their hearts on taking Ypres before October 1, but that despite a prodigious sacrifice of men they had been unable to win through to the allied lines, which are still holding.

The Germans, it is stated, have won the admiration of the allies by their steady pressing toward almost certain death and by their refusal to retreat even after their ranks have been greatly decimated. The French and Belgians are declared to be displaying wonderful dash and spirit, and to be giving splendid support to the English.

TURKEY'S PLANS UPSET BY SUDDENNESS OF THE RUSSIANS' ATTACK

Sultan's Army Strategists expected to catch Russia with shortage of troops in Caucasia - Czar sends four Flying Columns across border into Armenia and throws Turkish Army into state of demoralization.

Athens, Nov. 6.—Constantinople advices declare that the Turkish army is partly demoralized by the suddenness of the Russian attack, which disarranged all of the council's strategical plans.

The Turks had expected that the Russians would be caught short of troops in Caucasia and had prepared several columns with which to strike. Instead, however, the Russians without waiting for any formal exchange of declarations of war, threw four flying columns across the border into Armenia. Today the strongest of these, after decisively defeating the Turkish border guards, is pushing rapidly forward toward Erzerum. A second column, which took Fort Bayazet after three hours of fighting, is also moving into the interior.

The Turkish army concentrated at Karaklische, Gladin and Arsaba, has moved back from these positions to others, the location of which is not revealed.

London, Nov. 6.—A despatch to Reuters' Telegram Company from Petrograd says: "The newspapers here proudly com-

ment on the wonderful thirty hours' march in the Caucasus by a Russian column of all three arms over mountain passes covered with snow. The Russian front extends over a hundred miles.

"The first important fighting is expected to take place near Erzerum, Turkish Armenia, where the Turks are concentrating."

"Military experts estimate the total strength of the Turks at 90,000 men, with from 55 to 60 batteries, or 230 guns, 35 to 40 squadrons of regular cavalry and 20,000 Kudsish irregulars. A part of this army probably will be detached to defend the Black Sea littoral, leaving from two to two and one-half army corps in Erzerum. It is stated that General Liman von Sanders, of the Prussian cavalry, is in command.

The Turks, reduced to the necessity of fighting a defensive campaign, are now reorganizing their line and are diverting troops originally intended for operations against the British in Egypt toward Armenia.

BRITISH SUBJECTS IN GERMANY WILL BE DETAINED

All those between ages of 17 and 55 now in country must remain there.

Berlin, Nov. 6, via London, 2 p. m.—The following announcement is given to the press from official sources: "Germany's warning of retaliation in case German subjects between the ages of 17 and 55, who are now detained in England, were not treated differently before November 5, has been unanswerably by the British government. Therefore, the German government has ordered the detention of all British of similar ages who are residing in Germany."

"This measure is not only for English subjects, but soon will be extended to British colonials unless orders the detention of inactive officers who are more than 55 years of age. The detained will live quietly in a detention camp, ten kilometers from Berlin, near Spandau."

"All other Britishers who are left free after this measure has been enforced are required to register twice daily at the nearest police station, and will not be permitted to leave that immediate police supervision."

ONLY SMALL PERCENTAGE OF HONEY SOLD IN CANADA NOT PURE

Special to The Standard
Ottawa, Ont., Nov. 6.—A report of the inland revenue department on the purity of the honey sold in Canada states that out of 194 samples examined ten were not honey at all and the vendors were liable to prosecution. One vendor said he sold it not as honey but as honeymoon syrup. In another case the manufacturer admitted that it was imitation honey. In twenty-two other cases the honey contained a slight excess of mineral waters.

AN EASY WAY TO STOP HEAD NOISES

Good Advice For Those Who Fear Deafness.

Men and women who are growing hard of hearing and who experience a stuffy feeling of pressure against their ear drums, accompanied by buzzing, rumbling sounds in their ears, like water falling or steam escaping should take prompt and effective measures to stop this trouble. Head noises are almost invariably the forerunners of complete or partial deafness and most deaf people suffer from them constantly. Sometimes these head noises become so distracting and nerve racking, with their never ceasing "hum" they drive the sufferer almost frantic and complete nervous breakdown and even violent insanity have been known to result.

Thanks to a remarkable scientific discovery made recently in England it is now possible to almost instantly lessen the severity of these head noises and in a very short time to completely and permanently overcome them. With the disappearing of the head noises, the hearing also greatly improves and very frequently can be restored to normal. This English treatment is known as Parmit and can be easily and safely self administered at home. Leading druggists in St. John and vicinity now have it in stock. Get from your druggist 1 oz. Parmit (Double Strength) and mix it at home with 1-4 pint of hot water and 4 oz. of granulated sugar. Stir until dissolved and then take one teaspoonful four times a day until the noises disappear and hearing improves. Parmit is used double strength in this way not only to reduce, by tonic action, the inflammation and swelling in the Eustachian tube and thus to equalize the air pressure on the drum but to correct any excess of secretions in the middle ear and the result it gives are both remarkably quick and effective.

Important in ordering Parmit always specify that you want double strength; your druggist has it or he can get it for you. If not, send 75 cents to the International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a specialty of it.

ON WAY HOME FROM HUDSON BAY

Special to The Standard.
Ottawa, Nov. 6.—The naval service department today received a wireless message from the steamer Acadia which was just off Belle Isle on its way down to Halifax. Capt. Fred Anderson reported the party all well. The Acadia has just completed its fourth season on hydrographic survey work in Hudson Bay and Straights. This year the party worked at Port Nelson east along the south coast of the bay and then in Hudson straits. A large part of these northern waters has now been charted. Another party was north last summer to select sites in Hudson Straits for the wireless stations that will be erected there to aid navigation.

Faces As Fair As A Summer's Day

Are Possible if Stuart's Calcium Wafers are Used for a Short Time After Each Meal.

Many people have been heard to say that they used creams and lotions for years without effect, yet after five or six days of Stuart's Calcium Wafers their complexions were perfectly clear.

"I Got Rid of Blackheads in a Jiffy by Using Stuart's Calcium Wafers."

It's easy to understand why. Creams and lotions only get at the surface, while Stuart's Calcium Wafers go right into the blood and instead of a slushy deposit in the skin the impurities that cause skin diseases are destroyed in the perspiration that is exhaled through the pores in the form of invisible vapor. You'll never have a good complexion without pure blood, but you positively will have a fine, beautiful complexion if you use Stuart's Calcium Wafers.

They contain no poisonous drug of any kind, are perfectly harmless and can be taken with absolute freedom, and they work almost like magic. Calcium Sulphide, their principal ingredient, is the greatest blood-cleanser known to science.

No matter how bad your skin may be, Stuart's Calcium Wafers will quickly work wonders with it. It's goodby to blackheads, pimples, acne, boils, rash, eczema and a dirty "filthy" complexion. You can get a box of Stuart's Calcium Wafers at any drug store at 50 cents a box, and you will be positively delighted with their wonderful effect. A small sample package mailed free by addressing P. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.
