

## Cured His Piles

New 88 Years Old But Works As Trade of Blacksmith and Piles Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still enjoying his well in the town of Homer—thanks to my internal method for treating piles.

Mr. Jacob Egan, Homer, Mich.

I wish that you could hear him tell of his many experiences with piles. I had suffered with piles for many years and had tried every method, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try the wonderful remedy.

Yours truly,  
J. L. LYON.

There are thousands of afflicted people suffering with piles who have never yet tried the one sensible way of treating them.

Don't be cut. Don't waste money on foolish pills, ointments, dila-tors, etc., but send today for a Free Trial of my internal method for the healing of Piles.

No matter whether your case is of long standing or recent develop-ment, you are afflicted with piles, my method will relieve you promptly. This liberal offer of a Free Trial is sent to you to show that my method is too important for you to neglect a single day. Write me, send no money. Simply mail the coupon—but do this—TODAY.

## WAR TRADE BOARD OF CANADA PERFORMED SUCCESSFUL WORK

The Winding up of Its Affairs Discloses the Fact That in Supervising, Controlling and Aiding Canadian Industrial Effort the Board Was Able to Do Service of International Importance.

Ottawa, Nov. 26.—Now that the time has come for the dissolution of the War Trade Board of Canada, the winding up of its affairs discloses the fact that its supervising, controlling and aiding Canadian industrial effort from the time of its appointment in February, 1914, the Board was able to do service of international importance and magnitude at a cost to the country. The Dominion Government advanced \$100,000 to the Board to enable it to carry on, but its balance sheet shows the expenditure for all purposes to have been less than \$144,000, and its receipts to be more than \$260,000. Already the Board has paid back to the Dominion Government \$250,000 and the remaining forty thousand dollars will go back soon.

The Canadian War Trade Board was born of a crisis. The United States entered the war Canada had been able to obtain raw materials and half-finished products necessary in the munitions industry without difficulty from her Southern neighbor. Afterwards the situation changed by reason of the fact that the United States immediately began to conserve every raw material and product which could be used in the war. To present her case effectively Canada had to organize on national lines. The two countries were interdependent, and by means of a Canadian War Mission established in Washington, the two countries were able to present one industrial front to the enemy, and still preserve the national interests intact.

Drastic elimination of non-essential trade had to be the first step. It was so that the railroads of the continent and the shipping of the world would be able to devote all their power and space to carrying necessities and to keeping the Allied war effort up to one hundred per cent. The Canadian Board had to see that no company imported any material when stock in Canada could be utilized for its needs. This was not only to fulfill its obligations to the United States War Trade Board but to keep down imports to the lowest possible figure so that Canada's trade balance with respect to the United States should be as little adverse as possible. For the same reason a number of imports were placed on the restricted list.

Every day from all over Canada there came anxious men and constant streams of letters and telegrams informing the Board as to stocks of raw materials on hand, and explaining the needs. The War Trade Board's duty was to see that the materials were forthcoming, if possible, and to take whatever measures were necessary to secure the raw materials whether from Canada or the United States, or elsewhere. In following out its duties it had to purchase and distribute in plate in Canada, it had to negotiate for the reopening of dormant blast furnaces and the construction of new undertakings for the production of pig iron in Canada as well as getting the huge supplies required from the United States. It had to control the sale, purchase and use of platinum. It had to finance the purchase and allotment through the Wool Commission of 44,200 bales of Australian wool weighing 15,773,542 pounds and valued at ten and a half million dollars as well as a half million dollars worth of tops and nails from the United Kingdom. It was given power to pay bounties on the production of linen yarn in Canada. It was given control of production and distribution of iron and steel and their products in Canada, and it was empowered to take over and carry on the management of Chrome ore producing properties for a period of five years. Besides this, the Board had to be a clearing-house for industrial information to manufacturers, and it had to carry on its duties by means of constant communication with the various industries, either individually or through such bodies as the Imperial Munitions Board, the Canadian Wool Commission, the Canadian Tanners' Council, the Canadian Pulp and Paper Association, and the Canadian Wool Growers' Association. But for the existence of such a body, there would have been no way of securing all the raw materials and products which Canada could not have secured at all as the British, United States and Australian Governments would not have permitted their shipment but for assurances as to the use to which they would be put or of a substantial cash advance. The shortage of shipping made it necessary in some cases to secure a vessel to go to South America or some other country to get materials urgently needed in Canada, and only a Government body could have induced the Admiralty to permit it.

The securing of steel plates for Canadian shipbuilding industries was one of the Board's most arduous and continuous tasks. Profiteering in steel plate and boiler tube stocks was sternly checked in the cases where complaints were well founded. Canadian steel companies were induced to make all the car plates necessary for the Government's car program. The pyrites exports were increased to meet the needs of the sulphuric acid makers in the United States. Nitroglycerine was conserved by restricting the content in commercial explosives. The commandeering powers of the Board were not often exercised, the possession of the powers being simply sufficient to obtain the ends for which it was created without going to the limit of its authority. Most of the money made by the Board was in connection with its wool purchases. The money obtained for the tops and wools from the United Kingdom it sent to the British Treasury. At the time of its appointment, the War Trade Board consisted of the chairman, Sir George E. Foster, Minister of Trade and Commerce, though he was replaced during a long vacation and when absent in Europe by the Hon. A. K. MacLean, the vice-chairman, Mr. F. F. Jones, and the fol-

lowing members: Mr. C. B. McNaught, Toronto; Mr. J. W. McDonnell, Montreal; Mr. J. H. Gundy, and Mr. Joseph Gibbons, Toronto; Sir Horne- das Laporte, Montreal; and Mr. C. A. Magrath, Fuel Controller, Ottawa. The secretary was Mr. Wm. K. Trower, and the assistant secretary, Mr. J. H. Wilde. There was no change in the membership though Mr. Wilde later became secretary. With the signing of the Armistice on November 11th, it was no longer necessary to control exports except to enemy countries, Northern European neutrals and to parties on the Statutory black list. On January 30th, 1919, all restrictions were removed, but on March 1st they were re-imposed as far as neutral countries were concerned in order to co-ordinate Canadian export policy with that of Great Britain and the United States. The proclamation of peace imminent the Board was laid away in an honored grave while its personnel is relieved to go back to business interests neglected at the country's call or to further service on the Canadian Trade Commission.

### WEDDINGS.

Buchanan-Estabrook.

A very interesting event took place in the Main street Baptist church at 6 o'clock yesterday morning, when the Rev. Dr. Hutchinson united in marriage Miss Gladys I. Estabrook, only daughter of Captain and Mrs. Abraham Estabrook, and William W. Buchanan, eldest son of Mr. and Mrs. G. T. Buchanan. The bride, who was given away by her father, looked very lovely in a navy blue serge tailored suit, with seal fur and a taupe hat. The young couple who are prominent members of the church were the recipients of many handsome and costly presents. Among the many gifts received was a chest of silver a gift of the C. P. R. staff, King street, where the bride was formerly employed and a beautiful upholstered chair and a smoking set from the C. P. R. staff. Mill street where the groom is employed. After a brief honeymoon trip, Mr. and Mrs. Buchanan will reside in St. John.

Brittain-Hodgson.

Robert Lee Brittain, member of the C. P. R. local headquarters staff was united in marriage to Miss Rita Hodgson, daughter of the late Archibald and Mrs. Elizabeth Hodgson, at the residence of the bride's mother, Broadway, Woodstock, at three o'clock yesterday afternoon. The ceremony was performed by Rev. L. E. Ackland, pastor of the Woodstock Baptist church. The bride wore a taupe suit, with black velvet picture hat and carried a bouquet of carnations. The young pair were unattended. They will spend their wedding trip in Montreal, Ottawa, Toronto and Niagara, and on their return here will reside in the West End. Mr. and Mrs. Brittain were suitably remembered by the

## DOMINION SEED PURCHASING BOARD

The Balance Sheet Covering the Operations for the Past Three Years Has Been Audited and Found Correct.

The consolidated balance sheet, covering the operations of the Canadian Government Seed Purchasing Commission for the past three years, has been audited and found correct. The total sums advanced by the Department of Finance for the purchase of seed, on regulation from the Dominion Seed Commission, amounted to \$13,895,640.96; and the total of refunds to the Receiver-General from the proceeds of sales, was \$11,803,427.76. Net assets including seed grain in storage are valued at \$27,885,287. The salaries and expenses of the experienced Seed Branch officers comprising the staff of the Commission were not charged against the seed, but were included in the order-in-council which established the Seed Purchasing Commission directed that the seed supplies should be purchased, stored, cleaned, sacked where necessary, and sold at the net cost as nearly as might be determined.

The business of the Commission covers the period beginning October 1916 and ending September 1919. It includes the purchase and sale of seed wheat, oats, barley, rye, corn, peas and beans, subject always to inspection as to the established grades for seed grain which were provided under the Seed Control Act. Inspection was administered by the Seed Inspection Division of the Seed Branch. Every car lot of seed purchased or sold was examined by seed inspectors, and samples were submitted for tests to purity and germination by the Dominion Seed Laboratories at Ottawa, Winnipeg or Calgary. Delivery consisted of bill of lading, licensed weighman's certificate, seed certificate and sight draft.

This system of meeting emergency seed situations was adopted on the recommendation of the Seed Commission. It is based on the establishment of official seed grades for grain, and on the principle that municipalities governing bodies supported by their Provincial Government are in the best position to deal with the extension of credits to needy farmers.

groom's associates at C. P. R. headquarters.

### ITCH! ITCH! ITCH!

It Seems Sometimes As If You Would Fly Out of Your Skin.

Becoming so itchy, not only itches, but it also burns, oozes, dries and scales over and over again. Sometimes it covers the whole body and causes intense suffering. You have found that local applications have no lasting effect, and you want permanent relief. Take Hood's Sarsaparilla, give it a good fair trial, because you must thoroughly purify your blood or the eruption will continue to annoy, perhaps agonize you. This great medicine has been successfully used in thousands of cases. To make and keep the bowels normally active, take Hood's Pills, they are gentle and thorough.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nine years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monocrocinolide of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, the white tablets against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

ALWAYS FRESH! ALWAYS CRISP!

**Kellogg's TOASTED CORN FLAKES**

Our **WAXTITE** Moisture-Proof Package insures this and more.

You don't know how delicious

**Kellogg's TOASTED CORN FLAKES**

really are until you get them in the "WAXTITE" package, which insures the same goodness, even-freshness as when these crispy flakes of toasted corn have our toasting ovens at TORONTO. Every Grocer, everywhere, sells Kellogg's "WAXTITE" corn flakes every day.

Be sure to get them in the **WAXTITE** Package

Cuticura kills the hair, Cuticura kills dandruff. Try this treatment. Before cutting rub Cuticura Ointment into pores all over the scalp. Next morning shampoo with Cuticura Soap and hot water. Rinse with cold water. Dandruff usually disappears, hair stops falling and becomes thick, live and healthy. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Grooms, Limited, St. Paul St., Montreal. Cuticura Soap shares without mass.

### FUNERALS.

The funeral of Samuel B. Evans took place yesterday afternoon from 219 Duke street. Service was conducted by Rev. G. A. Kuhring, and interment took place in Cedar Hill.

The funeral of Miss Emily Armstrong took place yesterday afternoon from the residence of William Madill, Golden Grove. Service was conducted by Rev. Canon A. W. Daniel, and interment took place in Fernhill.

### WEDDINGS

Hatch-White.

Special to The Standard.  
Grand Falls, Nov. 26.—A wedding of much social importance took place here this morning at the All Souls' church, when Miss Leitha White, eldest daughter of Mr. and Mrs. J. L. White, was united in marriage to Walter Page Hatch. The ceremony was performed by Rev. Reginald Brittain. The bride, who was given away by her father, a former M. L. A., looked charming in a gown of white satin and Georgette, carrying a bridal bouquet of carnations. She was attended by Miss Gladys Hatch, sister of the groom, while Max White was the groom's support. Four little flower girls were in attendance. After the ceremony a reception was held in honor of the bride and groom at the residence of the bride's parents, Mr. and Mrs. Hatch. Mrs. Hatch's sister, Mrs. H. H. Hatch, also attended the wedding of the bride's parents, Mr. and Mrs. Hatch left on the C. P. R. for Boston where they will reside in the future.

### TRANSCONTINENTAL FLIGHT.

The Pacific Aerial Services, of Vancouver, advise the Board of Trade that they are undertaking the organization of a transcontinental flight, and have sent a representative to England to pick out a British war-time machine for that purpose. The flight will be started at Halifax, calling at St. John, Quebec, Montreal, Ottawa, Toronto, Sudbury, Port Arthur, Winnipeg, Regina and Calgary, ending in either Vancouver or Victoria. The civic authorities will be asked to provide aerodrome facilities. The assistance of the Board of Trade is requested to make the experiment a success.

## FREE THIS WEEK ONLY At the Store Named Below A 10-Day Tube of Pepsodent

## They Don't Clean Teeth In Your Way Now—Not the Men Who Know

All Statements Approved by High Dental Authorities

### They Now Combat the Film

Dental science has found a new way to clean teeth—a way that combats the film.

Able authorities have proved it for years in clinical and laboratory tests. The facts are beyond any question. Leading dentists all over America now urge people to adopt it, and a million or more have done so.

This method, for home use, is embodied in a dentifrice called Pepsodent. And this week we offer, to every home in this city, enough for a ten-day test. For your own sake you should make that test.

### Why Teeth Discolor and Decay

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to the teeth, gets between the teeth, enters crevices and stays.

The tooth brush does not end it. The ordinary dentifrice does not dissolve it. So, night and day, that film may do ceaseless damage. And most tooth troubles are now traced to it.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food material which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

### You Must End It

Millions of people find that brushed teeth discolor and decay. Tartar forms and pyorrhea starts. Statistics show that, despite the tooth brush, tooth troubles have been constantly increasing.

The reason lies in that film. To prevent the troubles you must end the film. Let this ten-day test show you the way to do it.

### Now Millions of Teeth Are Kept Whiter

Pepsodent is now applied to millions of teeth every day. The result is seen everywhere in gleaming teeth. Some of your friends can show them.

Those teeth gleam because they are clean. The film is kept removed. Now we ask you to see how your own teeth look after a ten-day use.

### Based on Pepsin

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed forbidden. It must be activated, and the usual method is an acid harmful to the teeth. What science has now found is a harmless activating method. Now pepsin can be applied twice daily—can be left between the teeth. And five years have proved that this discovery opens a new dental era.

### Look at Your Teeth in Ten Days

The results are easily shown and we urge you to see them. Read how they come about. Then decide for yourself what is best for your teeth and for your children's teeth.

Present the coupon for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare the results with your present methods. Remember that those whiter teeth mean cleaner teeth—teeth kept freer from film. Then decide for yourself about going back to former cleaning methods.

Make the test this week, while the 10-Day Tube is free. The result will be of lifetime importance to you. Cut out the coupon so you won't forget.

They Keep Teeth White by keeping them free from film. The old ways failed to do that.

They Teach Children how to really clean teeth, and how to combat the film which is the source of most tooth troubles.

The Store Named Below Will Supply the Free Tube on This Coupon

**THE ROSS DRUG CO., LTD.**  
The Rexall Store
