tal muscle and scorbatic symptoms. Many of us come out of the theological seminaries so loaded up that we take the first ten years to show our people how much we know and the next ten years to get our people to know as much as we know, and at the end find that neither of us knows anything as we ought to know.

to church on Easter morning and say, "That doctrine of the resurrection confounded me." So it is to our history beyond unravelment, if we understand all the processes by which men get into the dark.

Such men are not to be scoffed at, but helped. Turn your back upon a drowning man when you have the rope with which to pull him ashore, and let that woman in the third story of a house perish in the flames when you have a ladder with which to help her out and help her down, rather than turn your back scornfully on a septic, whose soul is in more peril than the bodies of those other endangered ones can be.

Comparatively little effort as yet has been made to save that large class of persons in our midst called septic, and he who goes to work here will not be building upon another man's foundation.
