Demobilization.

In Near Future.

TUESDAY, FEB. 11TH, 1919.

CANADA's revenue last year was over forty million dollars ahead of the previous year's, the surplus being the largest during the war.

DAIRY butter is selling in Montreal at from 42c to 44c a pound, and in New York at from 44c to 45c. And yet in these backward places where it is made the price is 20 p.c. higher. Why ?

THE parish priests of .St. Hildrion, county of Charlevoix, have sent parliament a petition against compulsory education. Thirty parishioners signed this petition, but not with their names, as they could not write. They merely marked their cross on the petition. What stronger evidence could be given for the necessity of the law.

THE cancellation of the British pork orders came a bit unexpected for the packers, and has endangered their dividends. But rather than reduce the price to the consumer, they will close their plants until the surplus stocks are exhausted. The means of the consumer never seem to enter into their calculations at any stage of the game.-Guelph Mercury.

Some of that \$25,000,000 which the Dominion Government is to vote for highway improvement should be used to substitute subways or overhead bridges for the deadly level crossings. Scarcely a day elapses when the newspapers fail to report one or more serious or fatal accidents due to dangerous crossings .-Kingston Whig. Another argument for the subways in Carleton Place.

DEVELOP NATURAL RESOURCES

Largely as a result of the war Canada will have to pay interest on about \$2,000,000,000. Her hope of financial salvation lies in the development or her natural resources. In calling attention to these facts, Chairman H. B. Thomson of the Canada Food Board, urges that the greatest possible development of the sugar maple trees of Eastern Canada be underthen this suring. "Every dollar"

sugar maple trees of Eastern Canada be undertaken this spring. "Every dollar's worth of Canadian maple sugar and syrup produced is a dollar saved for Canada," said Mr. Thomson. Those who have made a business of maple sugar and maple syrup say that-only 52 per cent of the trees in the average sugar bush under operation are tapped, and that without additional coupment save extra nails it would be equipment save extra pails it would be possible to increase the production greatly if those already accustomed to tapping some of their trees would tap more. In addition to this possibility for expansion, is the opportunity presented by many farms which have sugar maple groves which are not tapped at all, or, if a few trees are tapped, the small quantity of sugar and syrup produced suffices only for the use of the family on the farm. A Montreal dealer recently sent out a questionnaire to a large number of producers asking questions as to the amount produced, number of answers varied very considerably, but one man, with 75 acres of bush realized \$1,500 last year for about three weeks

The average healthy maple tree wa supposed to produce 60 cents worth of sup in the season at prices pertaining before the war. It should be much more now. It will do no harm for farmers to experiment this season and see how many trees they could tap, for sugar and syrup will pay.

SUMMARY OF NEWS The Speakers' Patriotic League has lissolved Allies to Control the German "Flu " is decimating the Indians in northern Manitoba. Six trawlers are operating in Canada, four on the Atlantic and two on the Pacific. May Also Occupy Munition and Artil-

lery Plants as Teutons Are Too Slow In Carrying Out Their The proposed exclusion of European emigrants from the United States is giving alarm in Italy. Promises - Blockade Against Germany to Be Partially Raised

A Royal Commission to ascertain the extent of feeble-mindedness in Ontario has begun its sessions.

The British mine sweeper Erin's Isle struck a mine near the mouth of the River Thames and sank.

The Near Future. PARIS, Feb. 10.—The Suprema War Council is reported to have reached a decision that it was neces-sary to impose more severe condi-tions upon Germany for the renewal of the armistice because of Ger-many's attitude toward the fulfilment of her obligations. Decisions are also said to have been reached for the control of the German demobiliza-tion and of the production of plants formerly engaged in producing war material. It is expected that the means for An armistice between the Czecho-Slovaks and Poles on the Silesian front was signed on February 3.

Two divisions of Bolshevists have been virtually annihilated by Siberian troops under General Garda.

material. It is expected that the means for securing the execution of the condi-tions laid down will be reached at Monday's session of the Council One of the questions which the Council discussed was the gravity of the relations between Germany and Poland. The military danger with Canadiens beat Ottawa, leaders of the second half of the N.H.L. schedule, at Montreal Saturday by 4 to 3.

The Luxemburg Chamber of Deputies, has adopted a bill granting women the right to vote and to be elected to office. The Government of Great Britain i

\$1,200,000, has been saved in the con umption of coal during the mild winte in Toronto.

the relations between Germany and Poland. The military danger with which Germany menaces Poland, it is felt, may threaten France later on. So far, it is declared, the Germans have turned a deaf ear to the injunc-tions of Marshal Fosh in regard to the evacuation of territory claimed by the Poles. The Germans are hold-ing an army in readiness to march into \$Poland and are concentrating troops in the east. The War Council is resolved, ac-cording to an Exchange Telegraph The Turkish Government has 40 nembers of the Union of Progress party who are charged with profiteering and sacre of Armenian

The War Council is resolved, ac-cording to an Exchange Telegraph Company despatch, to compel Ger-many to carry out the clauses of the armistice and in the renewal of the armistice on February 17 will prob-ably impose such conditions that from the point of view of demobi-lization and disarmament all the dan-ger threatening Poland will be re-moved. Daniel Rodgers, a farmer living near Camden East, was held up by two high-waymen in an automobile and robbed of his gold watch, but a large sum of money secreted in the cushion escaped their notice.

A. E. Ames & Co., Toronto, bought a block of County of Lanark bonds, amounting to \$100,000. They bear $5\frac{1}{2}$ per cent., and are payable in twenty instalments. The money is to be spent-for good roads. It is declared in well-informed It is declared in well-informed French quarters that in view of the German attitude toward the Poles, the Associated Powers may think it advisable to consider the question of the occupation of the port of Danzig and the railroad from Danzig to Thorn with allied and Polish forces. The Supreme War Connell contin

The various interests engaged in the live stock business, including producers packers, transportation companies, and the Canadian bankers have realized that the Canadian live stock industry that the Canadian live stock industry must take a greater part in our national economies. Each of these varied interests have appointed representatives on a Committee to confer with the government officials and each other upon the problems in connection with the domestic and evenct trade in animal the domestic and export trade in animal products. The present situation inter-rupting our export meat business is regarded as a temporary one, and a policy looking forward to the next five years is what is in mind. The development looked for is not merely a matter for-producers to consider, but for those whose business it is to manufacture, find markets and distribute animal pro ducts for human consumption, and to finance these various stages of the industry. The Committee will meet as finance these various stages of the industry. The Committee will meet as occasion demands or suggests as advis-able, to consult with the Live Stock Commissioner at Ottawa upon any measures found necessary in the practical development of the trade. Decisions of the Committee after action is decided upon will be transmitted to the bankers, or the railway companies, or the Live Stock Council, or the packers as the case may require by the member of the Committee directly representing that interest and in this way co-ordin

of the Committee directly representing that interest and in this way co-ordin-ation and generally approved action may be obtained. The Canadian Live Stock Council will be represented by Mr. Robert Miller, of Stouffville, Ont. It is recognized that the live stock industry is not a sanarta scale of

industry is not a separate series of conflicting competitive interests, but a chain of links, each depending on the other and upon that principal the Com-mittee will proceed.

tuted Blockade Commission in con-junction with the Armistice Commis-sion sitting at Spa, for a supply of food not only to Germany but to Hol-land, and in the latter case the French will not only furnish-transport but escort, and America will furnish the food. The German attempt to lay, down obstructive conditions for the use of Danzig as a port of entry for Polish food has been quickly over-come at Spa, and the Inter-Allied Supreme War Council will frame ad-ditional armistice terms to prevent any further essays of the same kind. There has been much alarmist writings in the French press about the recrudescence of German mili-tarism. On this point, Gen, Maurice, late Director of Military Operations, one at Danzig, the other on the Siles-ian border. All their armies, else-where throughout Germany have fallen into complete disorganization and could not be reorganized again by anybody for years to come. France naturally feels nervous concerning her neighbor who atlack-ed her treacherously and whose fill-will is nervousness is at the root of French chariness in accepting a League of Nations as adequate pro-tection in all circumstances.

Discover Oilfield In England.

tection in all circumstance

LONDON, Feb. 10.—A number of irillers, working for the Government, have struck oil in a well near Birmington, Derbyshire. No announce-ment is made as to the extent of the flow. Six wells are being put down in Derbyshire, testing what is believ-ed to be an extensive oil field.

Black Plague Is Now Raging.

WARSAW, Feb. 10.—The black plague is raging in Kiev and Kovel, and is also prevalent among the Ruthenian soldiers. The danger from the Bolshevists is diminishing along the Polish frontiers. The Czechs con-tinue their advance in Galicia.
