

stripped. Every living thing in the house is de-

When on their march the insect world flies before them, and I have often

The negroes relate that criminals were in former times exposed in the path of the bushy man,

Each ticket, too, bears upon it an appropriate quotation from the word of God.

Provincial Wesleyan.

WEDNESDAY, OCTOBER 2, 1861.

In consequence of the official relation which this paper sustains to the Conference of Eastern British

The name of the recipient, further, is inscribed upon the ticket, which likewise bears either the signature or the initials of the Minister

It is an advantage in Methodism, that provision is made for bringing all the members of the Church into direct intercourse with their Pastors.

The motive which prompts some zealous Methodists to treasure up their Society tickets is much to be respected, and their example worthy

The French journals have at length taken up the cause of the Protestants in the department of the Haute Vienne, who for 15 years have suffered

The Edinburgh Witness publishes some important information from Utah. It indicates great close-whether for the better or the worse

An accident, which is almost miraculous did not result fatally, occurred at Hardwood Hill in this county on Tuesday

A lad who had been gunning, armed with a musket, passing the school house in that settlement, either designed to shoot the building

NAVY.—H. M. S. St. George was anchored in Bead and eleven o'clock, three or four broadsides

THE BAZAR in aid of the Bethel at N. Sydney, came off last Wednesday, and proved highly successful

WE regret to learn that a very distressing accident occurred at the East River on Thursday

During a debate in the Spanish Legislature, M. Ojeda, a deputy, opposed the revolutionary policy of the old governments in Italy

While, therefore, this time-extended practice of the Minister with an unbroken opportunity of making the acquaintance of his flock

Where Divine revelation is unknown, idolatry universally prevails. But alas! it also abounds in the Christian world.

Such beings can scarcely with propriety be designated "religious men."

property occupied by Mr. Allan was also covered by insurance.

The advantage of such a company as that now formed by the old Engine Company, was shown at the late fire; they were present in large numbers, and aided very materially in carrying removing the property from the dwelling house in danger.—Sun.

The Band of Hope gave a musical and recitation-entertainment lately at the Provincial Hospital for the Insane. The praise-worthiness of this juvenile Temperance band is deserving of notice and encouragement. Their singing, recitations, and dialogues delighted a large and enthusiastic audience at the assembly place. The performers acquitted themselves most creditably, and had reason to be pleased with the evident satisfaction and enjoyment of the assembled party. Further notice is deferred.—Chron.

Mr. John Patch, who claimed the honor of being the original inventor of the steam screw propeller, died at the Poor House in Yarmouth, N. S., on the 27th ult. He was a Nova Scotian, and died, like many others who have given valuable inventions to the world, poor and in want of Windsor, to be a Bonded Warehouse.

Mr. Benjamin, who owned several claims at the Green Diggins, sold out recently for \$2,000, after securing "pile" from them.—Jour.

SMALL POX.—But one case remains in hospital. No deaths during the week. It is believed that there are at present no cases in the city.—Jour.

Pedestrians on the Spring Garden Road yesterday morning, had presented to their gaze one of the most heart-rending sights it is possible to witness. A dead male infant, was lying on the sidewalk, being scarcely covered with a rag, and the inhuman brute who carried it there had evidently first thrown it in an ash-pit, where it was left for a considerable time, and then, for fear of discovery, removed to where it was found yesterday morning.—Chronicle.

DELEGATION TO CANADA.—The Hon. Messrs. Howe, Archibald and McCully left Halifax yesterday, for Quebec, to present to the Board of Delegates from Canada and New Brunswick, on the subject of the Halifax and Quebec Railway. The Hon. Messrs. Tilley, Smith and Mitchell, were the delegates from New Brunswick, and they, together with the delegates from this Province, will arrive at Quebec on Saturday evening. Mr. Nelson and Mr. Postes have preceded them in Canada, and will also probably be present at the meeting in Quebec. The meeting will be one of great moment to the people of these provinces, and we do hope that wise counsel will prevail at it, and thus good measures for the mature measures for the commencing of this great work.—Sun.

NEW BRUNSWICK.—Railway extension will soon in all likelihood occupy the public attention. There are indications that the subject will be agitated before long. Like swallows before the advent of spring, or robbers before the coming of winter, so are the event trains out—the precursors of the agitation have turned their appearance. For the last week several well known gentlemen in the railway interest, and representing the various sections of the Province, have been staying in Fredericton, and have had direct communication with the Executive Council, who were then in session. They were not only on the same mission. Arthur J. Easton, J. Nelson, Esquires, and Mr. McCully, of Halifax, being interested in the subject of the Halifax and Quebec Railway, while F. H. Glen, Esq., and Mr. Stanley, of the Province, were interested in the matter of negotiating on matters connected with the St. Andrews line. We know nothing of what has been done at the deliberations of Council, but we have it on good authority, that Mr. Easton and Nelson, before starting for Canada, (which they did yesterday by the way of Woodville and the Grand Falls)—to put themselves in communication with the Government there—expressed themselves highly satisfied with the way the Government had met their advances towards negotiation on the subject of an intercolonial railway. Nothing definite of course can be said, but there is little doubt that the Government have expressed themselves willing to renew the offer formerly made. Altogether matters look seriously towards action, and certainly the time is ripe for putting the long-talked of project into execution.—Herald Quarterly.

OUTRAGE.—We are informed, that upon the arrival of the steamer New Brunswick at Eastport yesterday, on her passage from Boston to this city, a gentleman belonging to, and destined for Miramichi, in this Province, was seized by a crew of men, who were acting under the authority of the Federal authorities; the steamer having been purposely detained at Eastport, in order that this heroic act could be the more successfully performed. The serious crime, which the prisoner stands charged in, that of speaking his mind too freely of the present disastrous position of affairs in the United States, and this too, while the New Brunswick was on her passage between Portland and Eastport.

We sincerely hope, first, that our information in reference to this cowardly transaction is not in any way incorrect; and secondly, that if it can be substantiated, the Government will send some other officer of the boat is implicated by giving information of the offence, so trivial in itself, but which has resulted in the arrest of a British subject in a country where the citizen enjoys the privilege of liberty of speech or at least freedom from arrest, for giving utterance to it. In any phase of the revolution of France, the case is stated to us, can find no parallel.—Omnia to Courier.

GOLD IN KINGSTON, KENT.—It is said that Queen's County Gold has been discovered in the vicinity of the Catholic Chapel, Kingston. Large pieces can be gathered without much trouble. One of those we saw at Mr. Britt's store; it had been broken in two, and the yellow metal was glistening through all its veins. The Kingston paper did not appear to be much excited on the subject—no rush was making to the locality.—Col. Times.

ONE NEW GOVERNOR GENERAL.—We have authority for stating that Lord Monk leaves England on the 27th next morning, and that the Duke of Devonshire will leave the country shortly after the new Governor-General's arrival.—Ottawa Citizen.

On Saturday we had a strong north-easterly gale, accompanied with rain, which continued throughout the day. The only accident occasioned by this storm, was that we have heard of the swamping of a barge engaged in landing military stores from the ship *Eliza Mary*, from London, lying off the mouth of the St. Charles. She is said to have had a small amount of ballast on board, which was nearly a total loss.—Quebec Gazette 23rd.

THE BELLE ISLE ROUTE FOR STEAMSHIPS.—Captain Ballantyne, of the Canadian Steamship Line, has written to the Nautical Magazine on the subject of the passage by the Straits of Belle Isle. He contends that passage to the Straits is the safest and the best, because free from gales, except very early in the season, and much more free from fogs, as well as shorter. Its comparative freedom from fogs he regards as its principal advantage, since the fogs in the Bay of Fundy are so much more frequent, and are so much more oppressive, that they are often so dense as to be almost impassable. He says that to speak of the loss of four vessels belonging to the Canadian line, from the want of the safety of Belle Isle routes is absurd, since only one was lost there, and that one might have encountered the same disaster on the Southern route off Cape Race, where several vessels were caught in the ice about the same time. He says that the Canadian line had the same success in the route off Cape Race, where several vessels were caught in the ice about the same time. He says that the Canadian line had the same success in the route off Cape Race, where several vessels were caught in the ice about the same time.

THE BAZAR in aid of the Bethel at N. Sydney, came off last Wednesday, and proved highly successful. The Bazaar was a free trip to Town that morning and left Sydney with a respectable number of passengers, and returned here afternoon on the same "ticket." The sale at the Bazaar is said to have been well patronized. The fancy articles, refreshments, &c. were something like the sum of \$465 was realized. This is a most conclusive proof of the liberality of both contributors and purchasers.—News.

We regret to learn that a very distressing accident occurred at the East River on Thursday morning and left Sydney with a respectable number of passengers, and returned here afternoon on the same "ticket." The sale at the Bazaar is said to have been well patronized. The fancy articles, refreshments, &c. were something like the sum of \$465 was realized. This is a most conclusive proof of the liberality of both contributors and purchasers.—News.

During a debate in the Spanish Legislature, M. Ojeda, a deputy, opposed the revolutionary policy of the old governments in Italy, declaring as his opinion that the temporal power of the papacy is doomed to fall, and maintaining that the Italians are right in seeking national unity, and that the Spanish government has no reasonable pretext for opposing them.

While, therefore, this time-extended practice of the Minister with an unbroken opportunity of making the acquaintance of his flock

Where Divine revelation is unknown, idolatry universally prevails. But alas! it also abounds in the Christian world.

Such beings can scarcely with propriety be designated "religious men."
