Did this rather slap-dash thing, in a great hurry, for a C.C.F. publication, "News-Comment". Thought it might interest you.

Hope soon to do something along the same lines, but better phrased, on the Senate vacancies; may have to enlist your kind offices to get the exact dates of the various vacancies, and the provinces concerned. Shall be writing shortly on a number of points in your recent letters.

You will recognize some of your own phrases, rather marred in the borrowing, in the enclosed.
