District Inspector, Air Regulations,  
1 Montgomery Avenue,  
Postal Station "K",  
Toronto 12, Ontario.

1. With reference to your memorandum of the 24th ultimo, concerning the above subject, you are advised that in our previous letter requesting the certification by the District Inspector on the back of the application for Certificates of Registration and Airworthiness, it was not desired to intimate that each aircraft should be inspected, but rather that the District Inspector is satisfied that the statements on the application are correct and that he believes it to be airworthy from the evidence submitted.

  
(S. Graham),  
Superintendent, Air Regulations.
