In New York wheat was quiet, but firm, sales amounting to 10,000 bushels. This afternoon the West was unchanged. The ordinary telegrams from Liverpool this evening stated an advance of 3d on white wheat and 1d on red. In flour and wheat former prices were fully maintained Barley showed wide ranges, and sales included one car of No. 2 at 65c f. o. c., one car of No. 2 at 56c on the track, and three cars of choice No. 3 at 50c f. o. c. In peas one car sold at 75c f. o. c., and in oats one car of Canadian sold at 47c on the track.

A cable despatch states that the receipts of wheat at Liverpool for the past three days has been 10,000 quarters, of which 2,000 are American.

Toronto.

Produce of all kinds keeps firm, but the movement drags. The American markets have risen several cents within the week, and Liverpool has advanced in some particulars. The correspondent of the Financial Chronicle, writing from London under date of 10th inst., says:—

don under date of 10th inst., says:

The trade for wheat has been exceedingly quiet during the week. Millers have shown no desire to purchase in excess of actual requirements, and, though there is no prospect of what may be termed abundance, holders have in some instances submitted to a slight reduction in prices. The weather is more seasonable, but a protracted period of cold, dry weather is necessary in order to keep vegetation in check and enable the farmers to prepare a good, healthy bed for the seed about to be sown. In most parts of the country the effects of the late rains are very perceptible, and it will be some time, in several localities, before seed can be sown under favorable conditions. English farmers have recently been delivering somewhat larger supplies, the sales in the 150 principal markets of England and Wales during the week ended March 3rd having amounted to 46,268 quarters, against 38,920 quarters last year. In the who'e kingdom it is estimated that there were 185,000 quarters, against 156,000 quarters. It is estimated that, without reckoning the supplies furnished ex granary, the following quantities of wheat and flour have been placed upon the British markets since harvest:—

1876–7. cwt.	1875–6. cwt.	1874-5. cwt.
Imports of wheat 18,861,527 Imports of flour 3,039,916	31,109,767	19,443,346 3,862,602

Result44,546,20	56,973,494	52,462,091
Average price of English wheat 49s 0		44s 3d

The number of barrels in store on the 26th inst. was 8,705, against 8,755 last week and 21,548 on this date last year. The sales during the week were triffing, as there was little demand, and holders were generally firm. Superior extra has ruled quiet at \$6.80 f. o. c. There have been sales of extra at \$6.40 f. o. c., and fancy in 100 barrel lots have changed hands at \$6.20 f. o. c. Spring extra is worth \$5.90 to \$6; sales were made yesterday at the latter figure.

FLOUR.

GRAIN.

GRAIN.

The number of bushels of grain in store on the 26th inst. was as follows:—Fall wheat, 80,473 bush.; spring wheat, 162, 339 bush.; oats, 25,415 bush.; barley, 197,960 bush.; peas, 52, 360 bush.; rye, nil; corn, 3,000 bush. Wheat—Trade drags slowly. No. 2 fall has been nominal all week at \$1.48 f. o. c. There were sales of No. 1 spring during the week at \$1.39, and No. 2 at \$1.37 f. o. c., in car lots. The same prices rule to-day, with no reported transactions.

Oats—The market is steady; Canadian sold in car lots to-day t 47c on the track; American in a similar position are worth

40c.

Barley—Has been more active at about the same wide range of prices. Sales to-day included one car of No. 1 at 65c f. o. c., one car of No. 2 at 56c on the track, and three cars of choice No. 3 at 50c f. o. c.; No. 1 has sold during the week almost daily at 76c f. o. c.
