Put City Conveniences In Your Home

RUNNING hot and cold water is a necessity on the farm—in the house hot and cold water is needed every hour of the day for cooking, drinking, washing dishes, clothes or bathing the kiddies. It is required for the stock in the barns and for washing the buggy or automobile.

Empire WATER SUPPLY Systems

provide hot and cold water under pressure for every need around the farm home. Simply contrast your present slavish method of carrying water into the house for every need and the dirty water out again—carrying it for the horses, cattle and pigs to turning a convenient tap and drawing it rapidly under pressure, hot or cold, and always fresh.

Empire Water Systems are designed in many sizes. There is one that will fit your farm needs—and you need it.
