

HAD LAME BACK

Was Almost Unable To Move.

Two Boxes of Doan's Kidney Pills Cured Her.

Mrs. M. B. Cairns, Upham, N.B., writes: "I feel it my duty to drop you a few lines to let you know what Doan's Kidney Pills did for me. I had such a **Lame Back** that I was almost unable to move, and my kidneys were in an awful condition.

"After taking two boxes of Doan's Pills I was completely cured and feel as well as I ever did."

Doan's Kidney Pills are a specific for all Kidney Troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old.

Price 50c per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct, specify "Doan's."

Gossip

An interesting case of lameness in a cow is reported from Weston, Ont. The cow, owned by J. B. Hogate, was lame in the hind leg and was unable to move. After several treatments, the lameness was cured. The cow was found to have a piece of bone protruding from the leg, which was removed by a veterinarian. The cow is now perfectly sound.

J. B. HOGATE'S 1910 IMPORTATION

J. B. Hogate, of Weston, Ont., whose reputation as an importer of Scotland's best in Clydesdales, and France's best in Percherons, has lately arrived home with his 1910 importation of Clydesdale and Percheron stallions, which are comfortably housed in his new stables at the south end of the town of Weston, formerly known as the Eagle House stables, which have been thoroughly reconstructed into one of the most modern and up-to-date stud barns in Ontario. This year's importation is one of the best of the many good importations brought over by Mr. Hogate, the selection for intending purchasers is a large one, and this year Mr. Hogate is after Ontario trade. His horses combine big size with the best of breeding, faultless quality of underpinning, and ideal draft character. Fourteen of those now on hand will certainly weigh a ton each by spring. These horses will be priced as low as can be consistent with their quality, a few of which we enumerate below. All numbers given represent their registration numbers in the Canadian Official Studbooks. Baron Miller 9940, a brown six-year-old, has proven a most successful sire in Scotland, has held several leading premiums, and won many prizes. He is a big, up-standing horse of character, on a faultless bottom, and moves straight and true, sired by the renowned Baron of Buchyvie, dam by the £1,000 Montrave Mac. Dunmarle 11693 is a brown four-year-old, up to a ton in weight, and smooth to a turn, a horse of outstanding draft character, on a faultless set of underpinning, a right good horse, sired by the well-known champion, Hiawatha, dam by the good breeding horse, Fortune Still. Shapely's Best 11694 is a bay three-year-old, with size, character, symmetry and quality, beautifully blended, a horse that will make them all go some when put in show condition, sired by the Royal and Highland first-prize horse, Prince Shapely, dam by that big, good horse, Ruler, the son of Baron's Pride which did so much good in this country. Winsome Pride 11695 is a brown three-year-old, by the H. & A. S. first-prize horse, Baron Winsome, a son of Baron's Pride, whose dam was by Prince Romeo, by Prince of Wales, and great-granddam by Darnley. The dam of Winsome Pride was by the famous breeding horse, MacCaig. When conditioned, this colt will make a big horse, of superb character, with the very best of bone, ankles and feet. These are only a fair average of this splendid shipment of Clydesdales, and gives but a meagre idea of the high-class character and breeding of the entire lot.

The Percherons, in number considerably over a dozen, show a most careful selection, up to the ton in weight, with quality of bone, ankles and feet, and showing a draft character which, coupled with their nice, straight, trappy action, has only to be seen to be appreciated. There are nine two-year-olds, among them being such grand good ones as Inola 1607, a black, weighing 1,720 pounds, a colt of wonderful style and comeliness from end to end, one of the most perfect horses possible, and his ground work is faultless. Another wonderful colt is the gray two-year-old, Bas 1602, a colt of immense scale, weighing in this condition, 1,730 pounds. His movement is draft character, and he is underpinning perfectly. His dam 1612 is a black, not a very good one, but with 1,600 pounds of weight, and a fine character, and a fine pedigree. The dam of Bas 1602 is a black, weighing 1,600 pounds, and a fine character, and a fine pedigree. The dam of Bas 1602 is a black, weighing 1,600 pounds, and a fine character, and a fine pedigree.

THIS IS THE SHEET METAL AGE.

To make a factory, warehouse, barn, shed or outbuilding of any description, wind, water, snow, fire and lightning proof cover it with

Galt Corrugated Sheets

which are accurately pressed from the best and most durable British Steel it is possible to procure.

All corrugations are straight and true, assuring an accurate fit at both side and end laps without waste. Special hip and ridge covers make tight, neat joints at these points.

Where warmth is not important "Galt" Corrugated Sheets save three-fourths of the wood sheeting as well as considerable labor, and will give good service for a life time of at least fifty years.

It costs no more for a "Galt" Corrugated Sheet Steel Building than for a wood one. Which do you think is the better investment? Galvanized or painted material always in stock.

HUMID, HEALTHY HEAT

"CIRCLE WATER PAN" KEPT SUPPLIED THE HEALTH OF THE HOUSEHOLD DEPENDS ON IT

SCIENTISTS tell us man originally lived in the water. Be that as it may, health still demands a plentiful supply of moisture in the air we breathe as well as in the food we eat. The commonest cause of colds, sore throats, pneumonia and similar troubles in winter is the over-dry, over-heated atmosphere of so many furnace-heated houses.

Of course the average Furnace gives off heat—that's what it is for—but it's a dry, parching heat that cracks your skin and affects your lungs and throat and makes you feel "chilly" in spite of an overheated house.

It is moisture that is wanting in the air—real natural humidity of the outside atmosphere—and the ordinary Furnace is not built to provide this moisture.

The Solution is the "Circle Water Pan" OF THE "Good Cheer" Furnace

A good big water pan—not a mere makeshift—placed where the water can be best evaporated, evenly distributed, breathing refreshment and "Good Cheer" air over the whole house.

The "Good Cheer" Furnace gives a natural, humid heat atmosphere which is perfectly comfortable and as healthy as it is comfortable.
