LATEST IRISH NEWS.

Dublin, Sept. 28.—A meeting of the Land League was held to-day, Mr. Parnell presiding. He said he was disappointed of the action of several of the recent meetings. He excluded the Government reports. He thought reports should be given every facility, even to the subscribing to the funds. Mr. Parnell said that he approved of the suggestion of O'Shaughnessy for the compulsory expropriation of the landlords at a fair price for their lands.

London, Oct. 4.—A powerful party in the Cabinet are opposed to any coercive legislation; but should the Land Leaguers continue their wild speeches and the peasantry commit more outrages, the cry for coercion throughout England and the north of Ireland will overcome all the opposition of the Gladstone Government. Rev. Mr. Kane's counter-argument has caused good-humored curiosity. The last heard from the reverend minister of peace was a proposition to arm 200,000 Protestants and march on Dublin.

Dublin, Oct. 4.—The Parnell demonstration at Cork yesterday, was the largest ever seen in the vicinity since O'Connell's days. Parnell left the train six miles distant, and was received by tenant farmers on horseback with hands and banners and addresses of welcome were presented. At Wellington Bridge the Mayor and Corporation. Rev. Mr. Kane's counter-argument has caused good-humored curiosity. The last heard from the reverend minister of peace was a proposition to arm 200,000 Protestants and march on Dublin.

The glowing account of the harvest which appears in the land organs will, we fear, turn out to be grossly exaggerated so far as many parts of the country are concerned. There is very good evidence to hand this week in the daily papers that the potato crop has in parts failed, and that oats is a very light crop in, for instance, a wide district of Mayo, and we have ourselves had information that in Queen's County the staple crop of barley is very light. It will not, however, much matter to many tenants whether the crops are good or bad. The rack-rents, if they are paid, will devour all.

DISASTROUS FIRE.

About 2 o'clock on Friday morning a very disastrous fire occurred a short distance to the east of this city, an entire family having a narrow escape from being burned to death. The scene of the fire was the residence of Mr. John Scanlon, lying between the G. W. R. and G. T. R. tracks, just southwest of the Asylum. At the hour mentioned the hired man in the house imagined he smelled fire. Getting up, he discovered the entire front part of the house in flames. He immediately roused Mr. and Mrs. Scanlon and their daughter, and all rushed to the staircase to descend to a place of safety; but this mode of exit was cut off, the devouring element having gained the ascendancy. No time was to be lost, or they would perish. The hired man, without ado, smashed out the window, and the ladies were assisted to the roof of a back shed. From this to the ground the descent was tolerably easy, with the assistance of the men. Once down, an attempt was made to save a portion of the furniture, but only a few small articles of not much value could be rescued. The valuable and comfortable furniture and a splendid piano were all lost. Besides the household contents there was nearly \$2000 in cash in a bureau drawer, which was burned. The entire loss is not much short of \$5,000. But had the stable to the rear, which at one time caught fire, been destroyed, about \$2,000 extra would have been added to this amount. The house was insured in the Lancashire for \$1,200 and the contents in another company for about \$800. No cause can be assigned for the disaster. The glare from the fire lighted up the city and the London Fire Department got ready to proceed to the scene of the conflagration. From the watch tower, however, it was discovered that the fire was beyond the city limits, and the men did not go out.

BURROCK BLOOD BITTERS cures stoma- ch, erysipelas, salt rheum, piles, and all humors of the blood. Cures dyspepsia, liver complaint, biliousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness, and general debility. The base burner stove, the telephone and other improvements of a like kind have worked a domestic and social revolution within the last few years. Among these improvements it is not unfair to include the "Myrtle Navy" tobacco. The great majority of men smoke tobacco; have done so for centuries past and will continue to do so. It is important, therefore, that they should smoke the best quality of the article. That is what they are supplied with in the "Myrtle Navy." All smokers who have used it know that it

flavor cannot be surpassed, that its quality is always uniform and that the only care they have to exercise in its purchase is to see that the trade mark T. & B. is stamped on the plug. Honesty is the best of policy in medicine as well as in other things. Ayer's Sarsaparilla is a genuine preparation, an unequalled spring medicine and blood purifier, decidedly superior to all others in the market. Trial proves it.

BUSINESS ITEMS

REGAN'S stock of boots and shoes for spring and summer wear has arrived. The quality of the goods surpasses anything of the kind ever imported into London before, while the prices are as low as any other house in the country.

NEW BOOT AND SHOES STORE IN ST. THOMAS.—Pocock Bros. have opened out a new boot and shoe store in St. Thomas. They intend to carry as large a stock as any store in Ontario. This will enable all to get what they want, as every known style and variety will be kept on hand in large quantities, a new feature for St. Thomas. Prices will be very low to suit the present competition. Give them a call.

A MONTAGNY, importer and wholesale dealer in foreign and domestic fruits, smoked fish, game, oysters, etc., City Hall buildings, Richmond street, London, Ont. If you have a cold, get a bottle of Harkness' Bronchial Syrup. If you want pure drugs, chemicals, perfumery, dye stuffs, patent medicines, and everything which kept in a first class drug store, go to Harkness, corner of Dundas and Wellington streets.

FITZPATRICK'S PREMIUM STAINED GLASS FOR CHURCHES.—Costs less than inferior Works. Received Prizes at London, England, 1871, and Centennial, Philadelphia, 1876. Sent everywhere. Address—Box 324, Stapleton, Richmond County, N. Y.

SPECIAL NOTICE.—J. McKenzie is removed to A. J. Webster's old stand. This is the Sewing Machine repair part and stock ever. Raymond's celebrated machines on sale. It will pay you to buy Boots and Shoes at Pocock Bros. They keep a full line of ladies' and gentlemen's fine goods. No trouble to show goods. Written orders promptly attended to.

BATHS.

ELECTROPATHIC INSTITUTE,
241 Queen's Avenue, London, Ont.
MOLLIERE ELECTRIC VAPOR BATHS.
The first physiological effect of the Molliere Electric-Vapor Baths is to perfect the peripartory functions of the skin, to give a living, healthy cuticle, instead of the sick, diseased covering which the majority of people possess. The which is caused by depriving the oxygen of the atmosphere, and giving off the carbon from the bio-oxidation process. To a person liable to take cold from exposure to slight drafts, the feeling of coldness, the colds, the coughs, the rheumatism, the neuralgia, the striking results. In no diseases are the effects more magical than in Rheumatism and gout. In northern climates the functions of the skin are to a great extent dormant, and its purpose as an outlet for refuse matters of the system almost nullified by inaction. The use of these Baths remedies this state of things, giving, at the same time, beauty to the skin and health to the body. Its utility in chronic rheumatism, the liver and spleen, and in constipation associated with chronic indigestion, gout, inveterate depression of spirits, cutaneous diseases, affections of the kidneys and dropsy thereon dependent, is without doubt. It is common to associate perspiration with debility, and to imagine it to be weakening to the system. This is a mistake. The perspiration which emanates from the skin is not a passive means cannot weaken. Travellers for refreshment and invigoration. Electric Vapor Baths are highly tonic, and the rule is to put weak people in often, as it is conducive to flesh and strength. Perspiration drains away no living tissue, but merely effects matter which excretes instead of strengthens. If you perceive you are out of the bath stronger than when you went out upon those debilitated, disease, on those exhausted by fatigue, and on those long exposed to it. After long and severe fatigue, the bath affords the most astonishing relief, whether it be the fatigue of mental work or of long continued physical labor.
