Jonh Newton, chief of police of the city of Belleville, past district deputy grand master of the A.F. & A.M. and for twenty years secretary of Moira Lodge No. 11 of the same order, was last night made the recipient of a remarkable tribute from his brethren of Moira Lodge.

After twenty years faithful discharge of the exacting duties of the secretaryship, Bro. Newton has resigned and the occasion was made the excuse for one of the finest testimonials ever given in Belleville to any citizen.

Notwithstanding the rain, which fell heavily during the evening about one hundred of the members of Moira and the sister lodges assembled at the Masonic temple last night to attend a regular meeting of the lodge, but more particularly to be present at a function in which all took a deep and personal interest. The most prominent masons in the city and district were present, among them were Rt. Wor. Bro. Rev. E. M. Brthren of Moira Lodge, A.F. & A. The Kaiser As I Knew Him For Fourteen Years

By DR. ARTHUR N. DAVIS Dentist to the German Ruler From 1904 to 1918

R. DAVIS, a young American, born at Piqua, O., and graduate of a Chicago dental college, went to Berlin in 1904 to work with a famous dental surgeon who for years had been practitioner to the kaiser and other members of the German court. Within a short time Dr. Davis' associate committed suicide and the young American was established as the court dentist. In that capacity he became intimately acquainted with the kaiser, and the latter, in the course of dozens of friendly talks, revealed himself and his ambitions as he probably did to no other person outside his immediate circle.

Dr. Davis has written the story of his relations and interviews with the kaiser and we have arranged to print his remarkable narrative in serial form. The first installment will appear in an early issue.

This true narrative lays bare the mind of the despot who has deluged the world with blood. It shows by the emperor's own words how he has approved every act of cruelty and barbarity that the German armies have perpetrated during the war. It shows how the kamer grew to hate and despise Americans and how he gave warning that the United States should be punished, where the MORE!
