the mountain natives are still in the stone age, and had never seen any European. They live miserably or wild plants, insects and grubs, with an occasional wild pig as a delicacy. "In the distance they sighted the standing problem of New Guinea-the Snowy Mountains. Certain scientists have scoffed at the title, maintaining that in that latitude there are no snow mountains and what has been seen is the reflection of light from the white recks on the mountain tops. Mr. Pratt is convinced, however, that they are veritable snow caps.

SHOCKING DEATH OF SACKVILLE MAN

Abe Carter Struck by Train and Instantly Killed-Circumstances Mysterious

SACKVILLE, N. B. Sept. 7—Abel Carter, aged about 23, was killed on the I. C. R. track here last night by being struck by an east bound train. It is not known just how the accident occurred as Carter was alone at the time. The deceased returned from Mon-cton on a special train which reached here about one o'clock, and then left the station with a companion to walk to the home of his parents, Mr. and Mrs. Bradford Carter, at Frosty Hollow, a couplel of milels from Sackville. His companion left him about one hundred yards from vhere the body was found and just what happened subsequently is not clear. This morning a boy named Sherman Hicks found the body near the track and notified others. The remains were identified as those of Carter and brought to the stafion here. Apparently Carter had stepped from the track at the approach of the train but had not stepped far enough off and had been struck by the steam chest of the engine . The side of his face was smashed in and probably his skull was fractured. The body had been pitched from the track and was somewhat bruised. Death was probably instantaneous.

The deceased was employed as shipper in Emerson and Fisher's Enterprise foundry. In addition to his parents he is survived by two brothers and two sisters, all at home. Coroner J. M. Baird is empanelling a jury for
