ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Water from the Source of St. Leon, and find it to be strongly saline, it contains chloride of sodium in large quantity, with carbonate and lime, partly as carbonate, dissolved by the excess of carbonic acid, and partly as chloride. Like most of the other saline waters of the country, it contains bromine and iodine; in addition to which, I have detected, in small quantities, salts of baryta and strontia which had hitherto been met with only in the Waters of Varennes. In its general characters, it is allied to the Sources of Caxton, Pontispoint, and the Intermittent of Chateauguay.

The contents of one pound of 7000 grains, as calculated from my analyses, are as follows to—

Chloride of Sodium.....	20.477609	grains.
Chlorid of Potassium.....	1.293490	do.
Chlorid of Barium.....	013800	do
Chlorid of Strontium.....	017370	do
Chlorid of Calcium.....	2.030000	do
Chlorid of Magnesium.....	4.649946	do
Iodid of Magnesium.....	004600	do

Plantagenet Water.

The following testimonials have been handed to us for publication:—

MONTREAL, February 12, 1850.

SIR,—It is now nearly one months since I commenced using the Plantagenet Water in my practice, and I have now to state, that the high expectations I had formed of them, from the publication of Mons. Arnoux, have been fully confirmed by my experience of their beneficial effects.

I have found them a most agreeable and efficacious mineral tonic, and they continued to themselves answer the purpose of a tonic, by improving the digestive powers and increasing the appetite.

I remain, Sir, your obedient servant,

GEORGE W. CAMPBELL, M. D.,
Lecturer of Surgery, McGill College, Montreal.

To Mr. LAFRANCE.

MONTREAL, March 20, 1850.

I have recommended the Plantagenet Water in a great number of my patients, and have found it to act as a gentle aperient—a small quantity producing that effect in many constitutions, and this I consider a very great advantage.

R. L. MACDONNELL, M. D.,
Lecturer on Clinical Medicine, McGill College.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.
