Latest Issue Will Provide

The Huge Sum of \$250,000,000 New York, Jan. 18 .- The third loan to be placed by the British government, arranged along the general lines followed in the two preceding

operations, will provide \$250,000,000, making a total of \$800,000,000 porrowed in the United States on nobilized securities. With her share the \$500,000,000 Anglo-French an, the total Government borrowng by Great Britain here now mounts to \$1,050,000,000. J. P. Morgan and Co., fiscal agents

the British government for the Inited States, made a formal statenent to-day of the newest offering As was expected the yield to investors was raised another notch to neet the changed conditions. The first collateral loan for \$250,000, 000 was sold last August on a basis to yield the investor 5 1-2 per cent. second loan for \$300,000,000 sold in October, netted 5 % per cent o buyers of the three-year notes and 5.85 per cent. to buyers of the five-year maturity. The present loan will yield 6 per cent.

Moreover, as an additional attraction for investors, the new notes contain a conversion privilege considerably better than that which was provided in the Anglo-French They may be exchanged at the option of the holder for 20 year 5½ per cent bonds or at any time prior o maturity.

A 6 Per Cent. Return It was said that the price had not been definitely decided upon, but that it would be on a basis to return approximately 6 per cent., but not more than that. The offering will made next week. The inquiries hat have been received by bonded uses led the bankers to believe nat an issue of this size would be

uickly absorbed. The new issue will be secured by e deposit with a trust company o 300,000,000 of collateral, half of tocks and bonds of American corrations, including the Canadian acific Railway, and bonds or other obligations of the Dominion of Can-ada, Newfoundland, or Canadian municipalities or Provinces, and the other half of obligations of Australia, South Africa, New Zealand, Argentina, Chile, Cuba, Japan, Egyot dent paying British railroads.

It is expected that the new notes prove desirable for investment by banks owing to the fact that they can buy the shorter maturity with

r reinvest it for another year the latter maturity. The usual large selling syndicate mbracing between 500 and 600 firms and banks will take the issue.

their money out at the end of a year

Madame Albani and Other Their Opinions

It is interesting to note that the singer of to-day realizes that to ef-fect best development she must have a sufficiently comprehensive grasp of the piano to enable her to fathor the depths of the harmony upon which her vocal productions are based. In consequence of mong music-lovers there has been

of late a curiosity as to just of what value artists consider the piano to e in their careers. May Cleland Hamilton has appeased this curiosity considerably, under the caption, "How the Piano Helps the Singer." She has interviewed prominent artists, and has brought to notice the already-voiced

opinions of others on the question. For instance, she relates that Madame Albani has brought out the fact, in reference to her early training, that by the time she was eight she had made sufficient progress to be able to read at sight almost all Leave Brantford 6.50 a.m.—For the works of the old Masters as well as those of more modern composers. "To this early training," Madame

Albani writes, "I attribute the facilalt, Guelph and Palmerston.

ity I have always possessed for studying and comprehending the Palt, Guelph, Palmerston and all music I have had to sing. I learne. the harp and the piano, and the latter of which has; of course, been of greatest assistance to me and of the ments. She says:

> tralto, that artist said: "The average professional singer ual grasp at should not limit knowledge to vecalization only. A voice is a gift from God. The student should embellish it with a profound and practical study of music in all its bran-

"Kreisler is great at the piano as well as with the violin. Sembrich was a violinist before she sang, and was unable to read. The day of Brantford, later often surprised and delighted her hearers by pulling off her gloves Brantford, and accompanying her songs on the in the career of the successful voc
