"Fruit-a-lives" Soon Relieved This Dangerous Condition

632 GERRARD ST. EAST, TORONTO.

"For two years, I was a victim of Acute Indigestion and Gas in the Stomach. It afterwards attacked my Heart and I had pains all over my body, so that I could hardly move around. I tried all kinds of medicine but none of them did me any good. At last, I decided to try 'Fruit-a-lives'. I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-lives' to anyone suffering from Indigestion."

FEWEST FAILURES IN MORE THAN A DECADE

R. G. DUN & CO. REPORT THE LIABILITIES THE SMALLEST SINCE 1913.

It is necessary to go back considerably more than a decade to find so few Canadian failures as were reported in 1917, and the liabilities were the smallest since 1913, thus there were only 1097 commercial defaults in the Dominion last year, for a liability of \$18,211,465, as against 1685 in 1916, for \$25,069,534, and 2,611 in 1915, when the indebtedness was \$41,162,321. In 1914, the number was 2295, and the amount involved \$35,045,095, while in the year before the outbreak of the war, or in 1913, there were 1719 insolvencies, aggregating \$16,679,406.

Business reverses were less numerous than in 1916, in all of the nine Provinces, with the improvement in this respect especially marked in Alberta, New Brunswick, Saskatchewan, British Columbia, Ontario and Manitoba.—Halifax Chronicle.

RECENT WAR NEWS

There seems little of importance to

report in the progress of the war, the armies on the Russian front are resting and Germany and Russia are now sparring over peace terms. What ever the conference may bring either peace or a disagreement there is little hope of Russia assisting in the war.

The food situation in Germany and Austria is very acute and riots are frequent. But even in Italy, France and England the stress of shortage of food is keenly felt. The loss of shipping is more and more felt with the Allies and it cannot be made good or even kept as at present until next summer when the United States will save an immense lot of shipping off the stocks.

On the western front the cold weather has stopped active and continual fighting and our soldiers are suffering the hardships of cold wet mud etc. Even with this the enemy is kept constantly on the watch for surprise attacks are frequent.

The first draft in Canada under the military service act is not likely to raise more than 50 to 60,000 men. The great shortage still comes from Quebec when they state there are few of the French people between the ages of 20 and 34 who are unmarried and available in the first draft.

FRENCH PENETRATE THE ENEMY'S LINE

PARIS, January 11.—The War Office communication issued this evening says:—

"In the region of St. Quentin the canonade assumed a certain intensity during the day. In Champagne one of our detachments penetrated the enemy lines in the region of the Butte du Mesnil and was able to cause much destruction."

HAY SHORTAGE IN P. E. I.

Summerside Journal: Hay shortage in Summerside is becoming serious. The price of the farmers is \$20 per ton, but users of hay are only buying what is absolutely necessary at this price. A shipment of pressed hay is expected from New Brunswick as soon as transportation conditions permit. It is said the price paid for New Brunswick hay is around \$15 per ton.

DONATION OF 13 AEROPLANES.

William Hamilton Merritt, honorary secretary of the Canadian aviation fund, Toronto, has been cabled by the war office that it would be advantageous and convenient, that gifts of aeroplanes from Canadians should be made through the Canadian aviation fund, with a view to uniformity in price and procedure. This fund has secured the donation of 13 aeroplanes, eight being training planes and five "fighters" for the western front.

A New York Times despatch from Amsterdam says that Germany is on the verge of a catastrophe worse than Russia, and declares that Russia is on the verge of utter collapse.

Lithuania, a big state north east of Poland and stretching west to East Prussia, with probably 5,000,000 people, has declared its independence of Russia. That's the stuff all over Russia that is wanted to bring that Empire to its senses.

WASTAGE CONTINUES HEAVIER THAN ENLISTMENT.

Ottawa, Jan 11.—A total wastage of the 4,804 men for the last two weeks of December, and a total enlistment in the artillery, infantry, railway construction and forestry units of the C. E. F. of 1,840, men during the same period, is shown by figures issued from the Militia Department today. This means that the wastage in the Canadian Expeditionary Force for the latter part of December exceeded the voluntary enlistments by 2,734 men.

Of the 1,840 recruits secured, 1,138 went to infantry units, 367 to the artillery, 254 to railway and forestry battalions, and 101 to miscellaneous units. Recruits secured in Canada numbered 980; in the United States 942, and in England 9.

During the half month period there were 1,929 casualties overseas, 460 men were discharged in Canada, 2,137 were returned to Canada for discharge, and 78 were discharged in England. It is estimated that 45 per cent of the total casualties will be fit for general service within six months.
