ABOUT OUR CITY

Notwithstanding the prominence that politics have been demanding during the past few weeks, it is very satisfactory to note that the municipal interests of our city—which certainly have a more direct bearing on the welfare of the community—are

Interested in the Cause to be not being altogether neglected. The article on the second page of this issue, relating to the intentions of the present members of our City splendid recruits at the January polling, will be read with much inter-

The year 1905 promises to be an im portant one to the City of Chatham. Our people have entered an era o civic development and progress-and good men are wanted at the helm. The decision of many of the present aldermen to offer themselves for reelection will meet with favor. What-ever the individual shortcomings, it has been felt that the general policy of the present Council has been along the right lines, and, in so far as the actions of each alderman have commended themselves to the judgment of the people, he is entitled to their consideration.

Such new names as are being urged by the electors are meeting, too, with distinct favor. Men like Wm. M. Drader, Fred. Stone, John McCorvie, Arthur J. Dunn, J. T. O'Keefe Harry J. Stevens, and many others, are safe and progressive men, men of character calculated to best promote the city's interests and men who would receive a hearty endorsation from their fellow citizens.

The record of our retiring mayor Mr. W. E. McKeough, who has wellded the civic sceptre for the past two years, has been a satisfactory one Under his worship's regime the city has prospered and developed and it should be the aim of his successor to continue this advanced policy. And we feel sure that this will be done.

Ald. Arch. B. McCoig is practically announced as a candidate for the mayor's chair. So far there is no intimation of any opposition. Fortunately, in our splendid young city, politics do not enter actively into our municipal life-and politics are Mr. McCoig's one weakness. For five years and over this young man has served the city capably and honestly at the Council Board. He has filled in turn all the responsible chairmanships-and filled them well, and the impression rightly prevails that he has earned his spurs. His work during the present year as chairman of the Board of Works, has been particularly creditable, and the results have been highly beneficial to the city. The election of Ald. McCoig to mayor's chair would be a fitting tribute to worthy work well done.

The future of Chatham is, to large extent, in our own hands. Let us build faithfully and well a solid foundation. The good work has already been started and it is the duty of us all to do our part year by year. We look for big things in the coming enough to carry it out.

-GOOD MEN HONORED

The unanimous tribute of gratitude and esteem tendered to the officers by the Convention on Saturday in their enthusiastic re-election and by the many cordial words spoken was well deserved. Particularly applicable were they to the zealous and energetic President and Secretary. Few know the amount of earnest, arduous effort that fell to the lot of Dr. A. W. Thornton and Mr. S. B. Arnold in the recent campaign. They did not know what the word Rest meant. They were at it—always at it. The myriad matters of detail, the perfection of organization, the conduct of the campaign, all and more fell to the lot of these two workers, and results speak for thembelves.

The Association is fortunate in again securing their services—it The unanimous tribute of gratitude

The Association is fortunate in gain securing their services—it means further triumphs. And both gentlemen may rest assured that their splendid services are sincerely and gratefully appreciated.
