THE LATEST LYMPH.

IT CURES THE DRINK AND OPIUM HABITS AND VICTIMS ARE FLOCKING IN LARGE NUMBERS TO RECEIVE THE TREATMENT.

CHICAGO, Mar. 25.—A lymph to cure drunkenness! The announcement of the discovery of such a remedy has been made by Dr. Leslie Keeley, of Dwight, Ill., after having performed 5000 successful experiments upon confirmed drunkards.

Dr. Keeley says that he is absolutely sure that by a single injection of bichloride of gold any man can be transformed from a disciple of the demon into a first class prohibitionist. The treatment is only required for a few days, or at most two weeks. Out of the thousands of the worst specimens of drunkards in Illinois and Iowa, who the doctor has treated at his institute in Dwight there has not been one who went away uncured.

"I give them all the whiskey they want when they come to me," said Dr. Keeley "and excellent whisky, too. My, how some of the old topers do guzzle it for about two days. In the meanwhile I'm getting in the lymph."

The third day after leaving "shots," as it is called, of the bichloride of gold, there is little whisky asked for. The patients do not abhor it, but they feel first rate without it, and don't have a bit more craving for liquor than a child has. An appetite for food increases, and the ex-drunkards brace up in spirits and manliness.

The chemical action of the lymph upon the system of a person who has used a great deal of alcohol apparently counteracts the effects of the poison and drives away any appetite for strong beverages. The lymph is a cure for the opium craze, and the most confirmed users of the deadly drug are healed of their malady in a fortnight. Cocaine is another prey of this gilt-edged liquid and a modification of the injection is expected to banish an appetite for tobacco, although but few experiments of the "weed" have yet been made.

Dr. Keeley's institute is the Mecca of a constant stream of sodden drunkards who are pouring in from all directions.

AGAIN DESTROYED BY FIRE.

ROBB'S FOUNDRY AT AMHERST BURNED.

AMHERST, March 27.—Fire again broke out this morning at 3 o'clock in Robb's foundry which was destroyed last fall. The boiler shop was the only building saved from the first fire. The moulding shop, lately built, with its valuable contents including hundreds of patterns, were all destroyed in twenty minutes after the alarm. The fire burned rapidly, the building was a seething mass of flames and beyond hope saving, before the alarm was given. A panic was caused by a slight fire in another part of the town from sparks, but no damage was done. The foundry fire is supposed to have caught from the forge in the blacksmith shop. The watchman was there half an hour before the alarm was given, and all was safe then. It is a mystery how it got such headway between that and the time of the alarm, as when the firemen got there the building with its contents were a mass of fire to the ground. The offices and machine and pattern shops were not touched. At the time of the fire both members of the firm were in Moncton. They have much sympathy, as they were just recovering from the last fire and showing great enterprise in rebuilding and furnishing machinery for working and promptly filling orders. The loss is supposed to be from $7,000 to $10,000. Insurance on the building and stock destroyed was $1,300 in the Eastern insurance company. Messrs. Robb returned this forenoon and gave orders to clear away at once and rebuild and refurnish for business. The conduct of the firemen is commended for the rapid manner in which the water was procured.

A CHIP OFF THE OLD BLOCK.

Hugh John Macdonald, the new member of parliament for the city of Winnipeg, bears a striking likeness to his distinguished father, Sir John A. Macdonald. "Hugh John" as he is popularly known throughout Manitoba and the Northwest, is a general favorite in Winnipeg, having much of his father's personal magnetism, and being also possessed of Sir John's happy knack of telling a good story. Mr. Macdonald is a lawyer and has, in the practice of his profession, made some capital speeches. Mr. Macdonald took part in the Northwest rebellion as a lieutenant in the 90th Winnipeg Rifles, and was present at the engagements at Fish Creek and Batoche. Upon the latter occasion he was on the steamer Northcotte, when she ran the gauntlet of the rebel rifle pits on the banks of the Saskatchewan. Mr. Macdonald throughout the compaign was regarded as an indispensible guest at all the mess entertainments in camp. He is married to Miss Van Koughnot, daughter of the superintendent of Indian affairs.—*Exchange.*

NEWS FROM EVERYWHERE.

There will be sixty-eight Catholic members in the new house, Nova Scotia has elected five, New Brunswick four, Prince Edward Island two, Quebec fifty-three, Ontario three and Manitoba one.

The average wages of 150,000 ill-fated working girls of New York, is 60 cts. a day, and that includes the income of stylish cashiers who get $2 a day as well as the unfortunate girls who get 30 cts. a day in east side factories and shops.

PITTSBURG, Pa., March 26.—There are over 10,000 cases of grip in Pittsburg and Alleghany. In the public schools 25 out of every 100 pupils are on the sick list; also many teachers. In almost every line of business the effects of the epidemic is more or less felt.

The delay of an ocean steamer for three days off Halifax harbor on account of fog is mentioned here as proof that St. John should be the winter port of Canada. St. John men say that had the Carthagenian come here, passengers would have reached Montreal by railway before the date on which they got into Halifax harbor.

St. John N. B., March 25.—The Ship Laborers' Union to-day ratified the arrangements entered into by the committee with shippers in respect to the rate of pay this year. The pay is to be $3 and $4 for the nine-hour day on sailing ships and steamers respectively.

A Liverpool gentleman, writing to an Ottawa friend, says Canadians can hardly realize the great interest which was taken in England in the result of the recent Dominion elections, and the satisfaction which was expressed when the news reached them that the government of Sir John Macdonald had secured a new lease of power. Flags floated at the Conservative Club in honor of the victory.

OTTAWA, March 25.—Advices just received here indicate that the people of Dakota are becoming seriously alarmed at the Canadian repatriation movement now in progress, and the government of North Dakota is holding meetings and imploring the settlers to remain in the State.

SOLD HIS GUM.—A. Perrigo, of Stanley, has returned from Boston where he has been disposing of a large consignment of gum, gathered in York county. The article found a ready sale, about 2000 lbs. were disposed of and the price fetched was 90 cents per lb. There is no duty to pay on the article.—*Fred. Herald.*

While Frank T. Hagadorn stood waiting for a car in Chicago, on Friday morning, he began to talk of the New Orleans lynching and said that every member of the Mafia should be hanged. The words had hardly been uttered when three Italians, who were standing by, attacked him with knives. He was severely cut about the body, and would have been killed outright had not his cries brought several men to his assistance. The Italians escaped.

CHICAGO, March 26.—Up to 3 o'clock yesterday afternoon 600 deaths for the week as the result of grip, and the total promises to reach 1000 by Saturday night. One peculiar feature of the situation is the fact that scores of physicians are too ill to attend to their duties. All classes are attacked and the death rate among those well fed, well clothed and well cared for in every way is alarming. The undertakers are being rushed and the stock of coffins is being rapidly depleted. The health commissioners say if the people do not take better care of themselves the death rate will continue to increase, the weather at present being a great breeder of pneumonia.

The grit organs have recently insinuated that in connection with the gazetting of the return of members of parliament liberal-conservative members are being favored, while the returns of grit members are being held back. The clerk of the crown in chancery was asked about the matter, and he stated that, as regards the names which appear in last Saturday's Canada Gazette, every return which he had received up to 3.30 on Friday afternoon, or half an hour before the Gazette went to press, was included in that issue. This explanation ought to dispose of the mare's nest which these papers have discovered.—*Halifax Herald.*

GRASSE, March 25.—Queen Victoria has arrived here. She was met at the depot by the mayor and prefect, who presented her with a basket of flowers. The town was decorated with flags. The band of the 12th regiment played the British national anthem. The streets along the route to the hotel were crowded with people, who saluted the Queen enthusiastically. The royal visitor appeared to be in excellent health. She repeatedly bowed her acknowledgments to the people.

KANSAS CITY, Mo.; March 26.—Advices received to-day from many points throughout Kansas indicate the most severe storm ever known there raged over the greater portion of the state yesterday. Railroad traffic is at a standstill. Several trains were caught between stations, among them the Missouri Pacific pay train. The company manages to keep passengers and trainmen supplied with food. If the storm prevails much longer they will be in a serious predicament. Reports from all directions indicate great suffering to live stock from lack of food and shelter. Despatches received at Santa Fe head quarters are to the effect that all trainsare blocked west of Newton. At Council Grove it rained continually 48 hours. The Neosho river in many places is higher than for many years. On the central branch of the Missouri Pacific a great many poor people are reported suffering for lack of food and fuel.

EDINBURGH, March 25.—The 100 rebellious Lewis Island crofters who have entrenched themselves in the Orissay park forest from which they were evicted by the owner of the land in order to enable him to convert the forest into a hunting reserve, were to-day engaged in rebuilding their demolished homes and strengthening their entrenchments. Several of the party have been out hunting and the crofters are feasting upon an abundance of game, fat deer forming the principle part of the bill of fare. Orissay park forest is a fine, densely wooded tract, covering 96 square miles. Previous to the eviction of the crofters the land was covered with numerous well cultivated farms. A large force of police is already en route to the forest, with instructions to drive the crofters out of their entrenched camp at any and all costs. If the crofters resist, as they have announced they will, there is a possibility of bloody work within a day or so. The sympathy of the people in general is with the crofters.

Now, when the Canadian campaign is just over, and Sir John A. Macdonald is so prominently before the world, I am inclined to tell of the only interview I ever had with that most remarkable man. He was "booked" to speak in a prosperous Canadian town, but, being somewhat ill, send his colleagues to attend to the political duty, and remained in his private car. It was after the sentence of Riel, and I entered the car, sending in my card, and being summoned, with the least formality, full of the subject and confident of results. Sir John sat, wrapped in a heavy fur cloak, but arose as I entered, and greeted me cordially. We talked of the weather, the crops and the campaign. Finally I asked him as to Riel. "Riel," he repeated, "oh, certainly. But first let me ask you a question concerning a man whom I most sincerely admire. Tell me what you think of Blaine, his policy and his prospects." The amount of the matter was that I spent a delightful hour with the Premier, produced an acceptable sketch, but I discovered before I reached home that he had clearly avoided telling

THE DANGERS OF SPRING.

Poe's and novelists go into ecstasies over what they romantically call "beautiful spring," and "gentle spring," and while, no doubt, every one is glad to see winter release its icy grasp, "beautiful spring" is, after all, one of the most deadly seasons of the year. Sudden transitions from warmth to extreme cold, with piercing, chilling winds; from dry to sloppy, "muggy" weather, all combine to make the season a most trying one, even to the hardiest constitutions the season is one of positive danger. Undoubtedly the greatest danger at this season of the year is from cold in the head, which very few escape, and which if not promptly and thoroughly treated, developes into catarrh, with all its disagreeable and loathsome effects. Catarrh, neglected, almost as certainly developes into consumption, annually destroying thousands of lives. At this trying season no household should be without a bottle of Nasal Balm. In cases of cold in the head it gives almost instant relief and effects a speedy cure, thus preventing the development of catarrh. Where the latter disease has already secured a hold it is equally efficacious, and with persistent use will cure the worst case. From the outlet it sweetens the breath, stops the nauseous dropping into the throat and lungs, dispels those dull headaches that afflict the sufferer from catarrh. Nasal Balm is not advertised as a cure-all—it is an honest remedy which never fails to cure cold in the head or catarrh when the directions are faithfully followed, and thousands throughout the country have reason to bless its discovery. Nasal Balm may be had from all dealers or will be sent post-paid on receipts of price (50 cents, small, $1, large size bottle) by addressing Fulford & Co., Brockville, Ont.—4w.
