LAMENESS IN HORSES, HARD AND SOFT LUMPS RELIEVED BY LEEMING'S SPRAIN LINIMENT.

For curing lameness from whatever cause, sprain, curb, splint, singbone and for removing obstinate lumps and all similar injuries or diseases. Cures when everything else fails. Do not confound this preparation with sprain cures and other preparations. Leeeming's Spavin Liniment is different from any of them, the effects produced by the applications of Leeeming's Spavin Liniment are certain yet comparatively mild. Prepared by the Baird Company Limited.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

Pa, said the little mosquito, what does "perseverance" mean, anyway? Perseverance, my child, replied the wise old insect, means finding a hole in a wire screen.

HAMILTON'S PILLS ARE GOOD PILLS.

Cholly—Miss Pepprey, how do you pronounce g-o-l-f? Miss Pepprey—I pronounce it perfectly idiotic.

FEAR OF THE FUTURE

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Oultrons St., Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

It was a quiet wedding, I presume?

Oh, yes. The groom acted as if he had been hypnotized.

20 YEARS OF ITCHING PILES

Mr. Alex. McLaughlin, Bowmanville, Ont., writes that for twenty years he suffered terrible from itching piles. Seven years ago he asked a druggist for the best cure for piles and was told to use Dr. Chase's Ointment. He continued this treatment until entirely cured, and as he has never had any return of his old trouble considers his cure permanent and remarkable on account of the length of time he suffered.

CHANGE OF LIFE. A TIME OF INTEREST AND GREAT IMPORTANCE TO WOMEN.

Wrecked health is produced by neglect during this trying period, and small wonder that women look forward with dread to its coming, for if not properly passed, it is but the beginning of an endless chain of troubles.

As soon as the unmistakable signs known to all women make their first appearance, Ferrozone should be used regularly, and if persistently taken will be a guarantee of happy, healthy, old age.

Nothing can bring more pleasure than to know that the days of sickness and suffering are over. This can best be accomplished by building up the system with Ferrozone, which produces blood, muscle, tissue, and strength to resist and ward off disease.

Ferrozone increases the appetite, strengthens and improves nerve tone, and digestive processes, thereby strengthening and invigorating the whole system. It gives tone to the heart, regulates its action, removes distressing palpitations, and it lays the sound foundation of perfect health.

Ferrozone is a sensible and efficient tonic; it brings back strength very quickly, and few people are so strong and healthy, that they would not be benefited by using it.

Be advised and try Ferrozone. It is very pleasant to take, one tablet after each meal. All reliable druggists sell it for 50c. per box, or three boxes for \$1.25. By mail from N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

That fire must have occurred in St. John harbor when the water was out.

NEW USE FOR REFINED PARAFFINE WAX.

A new and important use for Refined Paraffine Wax seems to have been discovered by a prominent resident of Ohio, living near Lancaster, who had two trees badly damaged by storm, one being maple and the other an apple. In each case a large limb was broken down from the trunk, but still attached to it. The limbs were propped up and fastened securely with straps, very much as a broken leg might be fastened with splints, and then melted refined wax poured into and over all the cracks. The "surgical operation" was entirely successful. The paraffine prevented the escape of the sap, kept out the rain and moisture which would have rotted the wood, prevented the depredations of insects, and the limbs seem thus far to be perfectly re-attached to the trees.

In Guatemala the Indian population tries to double its chances for the efficacy of prayer by worshipping at a Christian altar with images of its heathen deities hidden behind it.

COMPLETELY FAGGED OUT.

The world is full of sickly, despondent, tired, overworked people, all hoping to be well some day. The surest road to health is along the way of taking Ferrozone after meals. Ferrozone is a great appetizer and enables one to eat plenty of wholesome food without fear of indigestion or dyspepsia. This results in the rapid formation of an abundance of red, vitalizing blood, which will restore the nerves, improve flesh and vigor, and nourish and feed every organ of the body. Ferrozone is an ideal restorative and invigorant. It is a tonic of unequalled merit that anyone can use with benefit. Price 50c. per box, or six boxes for \$2.50. At Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by A. E. Shaw.

The difference between a cop and a stock broker is, that the latter sells the stocks and the former stocks the cells.

CRAMPS ARE LIKE BUGGLARS.

They come unexpected and when least welcome. Be armed with a one-minute cure in a bottle of Nerviline, which relieves cramp and stomach pains in five minutes. In Colic, Summer Complaint, Diarrhoea, Indigestion and Nausea, Nerviline is a remedy of remarkable potency, and acts promptly and satisfactorily at all times. The composition of Polson's Nerviline expresses the highest medical progress of the age, which accounts for its superior merit. Price 25c.

Cheer up, you fellows who dropped your good money on stocks. Don't be discouraged, for the winter's coming.

The ragged creature with the battered hat and tangled beard came stumbling on the stage from the wings, looking as if somebody had ejected him therefrom with a swift kick.

You want cold victuals, I suppose, said the stage housemaid preparing to throw some of the remains of the feast on the table at him.

No! he said hoarsely, I'm tired of chewin plaster o paris biscuit an' papiermache roast chicken six times a day fur \$9 a week, I want work ma'am—real work.

I have here a little poem, said the caller timidly, which I would like to offer for your acceptance, if you think it worthy.

The editor looked up. Is it one you have just dashed off? he asked.

The editor read it.

There was a wastebasket at his side—not a yawning wastebasket—just one of the ordinary kind, without a yawn.

But he did not toss the poem into it.

Miss, he said with emotion, this is the best thing of the kind I have ever read. It's worth \$25. Here is your money.

But she didn't faint.

SIR OLIVER MOWAT.

Lieutenant-Governor of Ontario Passed His 82nd Birthday on July 22, 1902—A Very Popular Gentleman.

No citizen of Toronto is more widely known or respected throughout the Dominion than his Honor, the Lieutenant-Governor Sir Oliver Mowat, K.C.M.G., who was 82 years of age on Tuesday, July 22, 1902. Sir Oliver was born in Kingston on July 22, 1820, his father, John Mowat of Canisbay, Caithness-shire, Scotland, having settled in that city in 1816. At the age of seventeen, having picked up as much of an education as the best schools then afforded, he entered the law office of the late Sir John Macdonald, who was a few years his senior, where he diligently studied the profession he had taken up, and in 1842 he was called to the bar, commencing his practice in the city of his birth. Before long, he realized that Toronto offered a wider field, and removed to that city, where he has since made his home. He became a prominent member of the Chancery Bar, and in 1856 was made a Queen's Counsel, and appointed commissioner for the consolidation of the statutes of Upper and Lower Canada. In 1877 he was elected to represent South Oxford in Parliament, and held the seat until 1884. He was Provincial Secretary in the Brown-Dorion Administration from August 2 to 6, 1888. In 1861 he contested Kingston, but without success. He held the portfolio of Postmaster-General in the Macdonald-Dorion Administration from May 1865, till March, 1866, and occupied the same position in the coalition Government. After the fall of that Government, he was raised to the bench as Vice-Chancellor of Upper Canada, having previously been a member of the Union Conference which met in Quebec in 1866 for the framing of the confederation scheme. In 1872, in consequence of the retirement of Messrs. Edward Blake and Alexander Macdougall from the Ontario House, owing to the provisions of the dual representation act, he was called on by the Lieutenant-Governor to form an Administration, and resigned his Vice-Chancellorship to do so. He became member for North Oxford, being elected to that constituency by acclamation, and assumed the office of Attorney-General of the Province. Afterwards he was six times returned for the constituency, thrice by acclamation, and thrice after a battle at the polls. He was Premier for 24 years, the longest continuous term of office as Premier ever accorded to any man in Canada. He resigned in 1896 to join Sir Wilfrid Laurier's Cabinet, and left it to become Lieutenant-Governor. For two years Sir Oliver was a member of the Toronto City Council, where he rendered great service, representing St. Lawrence Ward in 1857 and St. James' Ward in 1858. Sir Oliver is a member of the Presbyterian Church, and for many years was president of the Evangelical Alliance. He has always taken a deep interest in social and religious matters, and has contributed on several occasions to religious literature. In recognition of his public services Queen's University in 1892 conferred upon him the degree of LL.D., and Toronto University paid him the same honor in 1899.

An Indefinite Day's Story.

Mr. E. F. Clarke, M.P., Toronto, has been up on the Muskoka River fishing. "I had some good fishing, and intend to go up again for a few days. I hooked one big fellow. I do not want to exaggerate, and so I'll not tell you how big he was, but he was too big for myself and another man to handle. We got him alongside the boat, and then he just threw himself aside and went off with the hook and part of the line. But I'm going back, and will try him another time if he is willing."

A man of 70 has eaten in his lifetime about 58½ tons of food.

BROTHERHOOD.

That plenty but reproaches me Which leaves my brother bare, Not wholly glad my heart can be While he is bowed with care. If I go free, and sound and stout, While his poor fetters clank, Unrested still, I'll cry out, And plead with Whom I thank.

Almighty, Then who Father be Of him and of all, Draw us together, him and me, That whichever falls The other's hand may fall him not—The other's strength decline No task or sorrow that his lot May claim for son of Thine.

I would be fed, I would be clad, I would be housed and dry, But if so be my heart be sad—What benefit have I? Rest he whose shoulders best endure The load that brings me rest, And least shall be his joy secure Who shares that joy with grief.
