

HASZARD'S GAZETTE, JANUARY 27.

WORMS ! WORMS !

(C) There is no disease more common among children, and yet none which so frequently baffles the skill of the physician, as worms. They are highly detrimental to the constitution; and their presence should be carefully guarded against by parents. On the first manifestation of symptoms, every means should be used to expel them promptly and thoroughly. Mr. McLane's Vermifuge is well established in the most certain, safe and ready remedy ever contrived for this troublesome and dangerous malady. It will all who have the management of children should keep this invaluable medicine at hand. In addition to its perfect safety, it never fails to produce the desired effect.

(C) Purchasers will be careful to ask for Dr. McLane's CELEBRATED VERMIFUGE, and take none else. All other Vermifuges, in comparison, are worthless. Dr. McLane's genuine Vermifuge, also his Celebrated Liver Pills, can now be had at all respectable Drug Stores, in the United States and Canada.

Patent Patent of Artifices.

THIS article is intended to be a bottle into the place of the usual glass bottle, into which there are several small chambers or compartments, so well divided as to prevent any communication between them, usually great care is taken to make these compartments of equal size, and they are made in such a form as to be practicable. The last thing that I desire to say, is that the whole is made for the purpose of containing the oil of the lamp, so that it may be easily applied to form a convenient application, it will be found the utility of this device can be easily seen, and the merit of the invention will be evident to those who will take the trouble to consider it.

Hudson's new improved oil lamp, with its Patent Bottle, made by W. H. WATSON, January 22, 1855.

The present critical state of Europe affords us many opportunities of interesting during the forthcoming year. They will occupy a middle ground, between the daily written news items, crude speculations and flying rumours of the daily Journal, and the ponderous Tomes of the future historian, written with a view to posterity. Persons who must look for the only really intelligible and reliable history of events, and assesses, in addition to their well-established literary, scientific, and theological character, we urge upon them the consideration of the reading public.

Arrangements are now permanently made for the receipt of early sheets from the British Publishers, by whom we are enabled to place all our Re-prints in the hands of subscribers, about as soon as they can be furnished with the original copies. Although this involves a very large outlay on our part, we shall continue to furnish the Periodicals at the same low rates as heretofore.
