## BONTO WHOLESALE MARKETS-WEEKLY REVIEW.

PRODUCE.

WEDNESDAY, Sept. 8.

The market has remained inactive since our last, as the new season's crop has not yet begun to offer to any considerable extent, and fear of a tendency in European markets has ppers to hold off. Prices here have en weak, but the weakness has manifested itself chiefly in flour. Offerings of everything, except oats, have been very small. Stocks have shown but a very slight increase, and stood on Monday morning as follows:-Flour 150 barrels ; fall wheat, 12,600 bush.; spring wheat, 2,263 bush.; oats, 3,300 bush.; barley, 4,611 bush.; peas, 578 bush; and rye 50 bush; against the corresponding date last year, flour, 749 barrels; fall wheat, 16,581 bush.; spring wheat, 53,263 bush.; oats, 3,700 bush.; barley, 39,784 bush.; pcas, 710 bush.; and rye, nil. English quotations show a fall of 6d. on flour; of 2d. on red and white, of 4d. on red winter, and 3d. on club, wheat; and Id. on corn since this day week. Markets, however, seem to have become rather firmer, and the downward tendency to have been checked during the last , three days. During last week they were generally quiet, with ng has week they were generally quiet, with no demaal of any consequence heard for foreign wheat. Harvest is said to have been almost everywhere completed, and the results of thresh-ing, rather disappointing. Still, offerings of home-grown wheat were on the increase ; sales for last week were 66,544 quarters, and imports were 395,000 to 400,000 quarters of wheat, and 130,000 to 135,000 barrels of flour, making a total supply equal to 534,000 to 542,000 quarters of wheat against a weekly consumption of 454,000 quarters. The quantity of flour and wheat in transit on the and inst. was 1,925,000 quarters, against 2,104,000 on the 19th ult., and 1,873,000 on the corresponding date last year. The total quantity of wheat in sight on this continent and in transit for Europe on the 22nd ult. was 35,088,000 bushels, against 33,192,000 three weeks ago. England's wants during the coming harvest-year are estimated at 15,000,000 quarters of wheat. The nature of the British crops seems now fairly well known, although no estimate of the aggre-gate yield has yet been published. The Mark

Lane Express of the 23rd ult. publishes its usual annual crop returns ; out of 335 reports, 34 state the wheat crop to have been over-average; 185 state it to have been average, and 115 state it to have been under-average. The Express concludes that the yield will be largely in excess of that of last year, when out of 429 reports 435 reported a yield under-average ; that " the wheat crop is below an average ; barley is above, and bats are also a little above the ordinary yield." It is though by Beerbohm that the United Kingdom will require to import fifteen million' quarters of wheat, being about five-sixths of that wanted last year; and to this may be added the quantity which can be stored away in restoring stocks to their normal mount, so we shall in all probability find a steady demand prevalent during the coming year. Continental advices by mail state that in France the yield of wheat is estimated at about 90,000,000 hectolitres, or 70,200,000 gntls., in weight, whilst last year's crop was officially put down at 60,000,060 gntls., a difference of about 10,000,000 quils. (about 4,500,000 qrs.) The wheat trade remained in a very dull state; liberal shipments from America, in conjunction with freer offers of new home-grown, caused buyers to still hold aloof, in the expectation of even a further decline. To do business 1s. to 2s. less money than in the previous week had to be accepted, for home-grown as well as foreign, and red winter, free on railway waggon at Rouen, was obtainable at 45s. 9d. per 480 lbs., whilst white Michigan was quoted at 46s. 3d. Paris flour markets were decidedly dull. The arrivals of wheat at Marseilles for the week ending August 14th amounted to 57,000 qrs., and the stock in the docks was about 28,500 qrs. Germany pears to have suffered more than any other aropean country in the matter of weather durhoods in some districts, and acted detrimentally on the quality and quantity of all cereal produce. erwent considerable fluctuations at lerlin, but there and everywhere the tendency vas upwards. At Hamburg, wheat on the spot ruled quiet but firm. Stocks of old were nearly xhausted, and local millers had to supply their

wants by purchases of American and Australian. At Danzig new wheat was not yet offered, and old was in request for the interior, no business

as well as can be judged, stood at On street fall sold to day at 95c. to atest sales of spring were at \$1.03 to Dright. Granulated has been unchanged in price and fairly active, several job-lots having sold at 10 to Quotations are as follows, the out-side figures being for retailers' lots, and all sugars being now sold at sixty days :--Porto Rico, per lb., 74 to 84c; Barbadoes, 74 to 84c; Canadian retined, 8 to 94c; Dry Crushed, 114 to 114 c.; Granulated Standard, 104 to 11c., for small lots; Cut Loaf, 114 to 114c. STRUPS-Round lots have been wanted, but as there were none on the market no movement Was reported; prices are firm. Quotations are as follows;--Common. 82 to 34c; medlum, 55 to 58c; and ahoice, 60 to 55c. Sugar-house molasses, none; and West India, none. FRUT-Stocks of all sorts are very low indeed, but there are imports in transit which may be expected to arrive next week; prices are steady. Valencias have sold at 74c. for a lot of 150 boxes. A lot of 500 boxes of 1876 Sultanas, of poor quality, old portaristics. Have been in fair supply and rather with sales of cars of new on truck at 35c, k, and on Monday and Thesday. The ice was again paid to-day, but the market to be week. On the street 36 to 37c, was

Seme sales seen t the market has been decidenty mixed ale reported was that of a car of mixed 70c, for exceptionally bought No. 1, and for 2, on the track. On the street to day for 2, on the track. Aug. 27, 1880. THOMAS C. HEWITT, Manager. Breech Loading Guns.

The "CLIMAX" Breech-loading Shot Gun. 50 The best bargain in Guns ever offered in Canada. The "Climax" Breech-loading Shot Gun represented by the above engraving collipses anything ever offered by us in Guns. They are made throughout in a substantial and first-class manner, and will stand more rough usage than ordinary breech-loaders. The barrel is 12 guage, using the regular action lock, Saider breech action, which is the simplest and extractor, using no complicated levers or springs. Blued extractor, using no complicated levers or springs. Blued

steel mountings. Fancy browned barrel. Checked stock. Barrels from 30 to 36 inches in length. (50 tilting action). Complete weight of gun. 7 to 8 lbs. With each "Climax" gun we give free-25 Re-loadable Shells, Package of Primers, Wads, and a Set of Re-loading Tools, all carcfully boxed and forwarded to any express office in Canada for 36 50. There is no reason now why every one cannot have a breech loader, one that is STEONG, SERVICEABLE, and ACCURATS, as they are mar-vellously cheap at the price. The regularprice of this gun is \$12 00, but in order to bring our Fire-arms prominently before the public we have cat the price to \$6 50. We will forward "Climax" gun, etc., to any address on receipt of price. Full lines of all kinds of Guns, Rifles, Revolvers, etc., Watches, Clocks, Jewellery, and Pisted-ware.
