Hear the ringing of the bells!
Our school bells!
What a werld of seleon thought their melody foretells!
But in silence of the sight
How we shiver with strict.
At the terrifying tunnit of their tome!
From us every sound that feets,
From the rust within their threats,
Wrings a grean! Wrings a grean!
And the people!—ah! the people! They that slink up in this steeple! Make us m-o-a-n! Make us m-0-a-n?
They who—tolling! tolling! telling!
Feel a glory in so rolling
On each maiden's heart a stone! They are neither man nor weman! They are neither brute nor human! They are b-v-y-s!

And their leader 'tis whis tells,
As he rolls! rolls! rolls!
A pear from the bells!
And his impish bosom swells
With the peam of the bells!
And the dances and the yells— And the dances and the yells.

But the best regulated machinery—will go wrong sometimes a serving get alone, a cog breaks, see a ball files, and connected to appear derangements. So an elementary derangements. So an elementary of Mr. M's farm. In passing over one of his outlying pasture fields one day he came across a few surious looking thisties. Now M. is a man of good intelligence and fair education, but a knowledge of the science of botany was not summy his secondiplishingents, so he did not suspect the nature of the Sewing Machine, GRICULTURAL IMPLEMENT

was reserved to keep them from going to seed, till seme means for their destruction could be found, and so thickly had they occupied the ground and so rank was their growth in the rich, deep soil, that great swarths were rolled up in the mowing like winterws.

Finally it was suggested that if they could be kept from seeing the light for a season, it weuld kill them, but the materials for this smothering out process not being at hand, it was concluded as the next best plan to cultivate the land so thoroughly that mone could grow. So last spring the field was planted with corn, and as the thistles began to make their appearance, the cultivator was started and kept almost constantly going, with a man following with a hoe to clean out such shoots as were missed. Soon a triple hoe was anbstituted, and more where the thistles grew several times between each corn row, forcing the shovels deeply into the earth. This was continued till the corn, which grew very rapidly, was toe large, after which hooing was kept up as often as any thistles showed themselves, throughout the season. And towards the last, after an interval of two weeks, but two or three plants could be found, and Mr. M. feels very certain that next season will finish them with less than half the labur that it took this season.—Cor. THE UNDERSIGNED HAS ES

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood, permeates every part of the body, riched and vitalized blood per-meates every part of the body, repairing damages and waste, searching out morbid secre-tions, and leaving nothing for disease to feed upon. This is the secret of the won-derful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, and all diseases originating in a bad state of the blood, or accompanied by debitity or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.

Thousands have been changed by the use of this remedy, from weak, stelety, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably heatilate to give its a trial. Chills and Fevers, Humors,

WHILE thanking our former agents and with thanking the liberal patronage and confidence for the past year [and which we still hope to retain, I we would which we still hope to retain, I we would respectfully call their attention to our style No. 61. This Organ being a 6 ctave, Double Reed [O Scale] is a very desirable instrument for advanced players, Planists or parties concaring themselves for the pianofactic and as a parlor instrument, it meets every requirement. Our No. 30 is the same as 61, but different style, and more expensive. Our No. 32 is pronounced by all who have seen it to be the finest lustrument in the world for the price; this organ has two complete setts same as No. 30, with two additional half setts, viz. harrboy and Vox Celeste, making four setts from middle C up and also 14 octaves for Bass Profundo. We are the first and only parties who make this line of Instru-Protundo. We are the arregand only parties who make this line of Instruments, and the universal satisfaction they have giver, and the immense sale of these Organs, show that they are appreciated and encourages us to make them a speciality.
