 T. McMurdo & Co., A. E. Canning, A. E. Worrall, or any of the principal dealers.  
 Green Fly and other garden pests look harmless to the naked eye, but when placed under the microscope one is better able to appreciate its powers of destructiveness. With its deadly sucking tentacles, it quickly absorbs from the stem the sap, which is the blood of the plant. The day following the use of CIRENGOL the green fly will be found of a brown color and powerless to do further harm.
