Pyorrhoea AGAIN.

Pyorrhoea is so insidious that we want to repeat again and again our former warnings against it. It is not painful as a rule, and that very fact makes it all the more dangerous. Watch for those bleeding gums, they are your warnings. Do not give your body a chance to absorb poisons that come from bad teeth or diseased gums. Anything from a headache to a serious illness may result from your neglect. Pyorrhoea is a dreadful disease.
