

FOR ENGLAND.—Mr. James A. Jaques left town this morning en route for London via New York. He goes on a mission for Mr. Massie, and not on a pleasure trip, nevertheless his many friends will wish him a pleasant voyage, and the best of times while he is absent.

The revenue of the Dominion for the first three months of the present year was \$12,682,925, and the expenditure was \$12,615,177. Not much balance to boast.

GOOD TIMES.
Good times this Winter for Merchants and Blacksmiths, and those about to build. LOOK OUT for list of prices to be ready in a few days, which will astonish Hamilton and Toronto rivals.

COMMERCIAL.
Guelph Markets
MERCURY OFFICE, GUELPH, J. November 11, 1868.
There is little change in our markets since last week. Receipts of flour and grain in the cities still continue largely in excess of the shipments. In New York, wheat is reported as in the buyer's favor, with a very large supply. Barter is heavy and quiet, that from Canada selling at \$2.12 1/2, which is equivalent to about \$1.57 in gold.—Somebody must be losing money. In Oswego matters are somewhat better, though business is far from being lively. The Montreal market is unchanged, wheat being some ten cents per bushels higher there than in Guelph. Such a difference of course would not warrant shipment from any of the western towns, and, as a consequence, all the wheat brought to this market is made up of by the mills in the locality. It is not a very difficult matter to absorb it all, for the rain during the past few days, and the consequent muddy roads have left the market almost entirely deserted. Only an occasional load comes straying in, and for the last three or four days there has been no change whatever in the prices. Since our last weekly report fall wheat has declined slightly, chiefly because of the inferior quality of the grain offered. Spring wheat has advanced slightly and there is no doubt there will be a rise when winter fairly sets in. One of those fits of caution has come over produce dealers, when every one is anxiously watching the movements of his neighbour. England is purchasing flour and ignoring wheat, but as her stock of breadstuffs is said to be rapidly diminishing there must soon come a demand from that quarter. We have to record a slight advance in oats, which have so long been steady. This must be on account of local enquiry, for they are higher here than in Toronto. In fact the quotations of the market of that city are no higher for any article than our own. Peas are unchanged as they have been for some weeks past. A week ago, barley which had been drooping, took a leap, without any apparent cause, from \$1.05 to 1.14. Last Friday and Saturday it went a little higher, and there is not enough of the grain coming in to determine what it might do in an ordinary market. Hay has also risen, but all other articles remain as they were a week ago.
