## HAPPENINGS OF THE HOUR

Chronicled and Condensed for Busy Readers.

sale of the Wanzer Factory at Hamilton Riotous Sydney Strikers Dis-persed by Troops.

CANADIAN.

pects to finish its session before the end of next week.

Sir Henry Tyler visited Hamilton yesterday, inspecting the Grand Trunk shops and other property.

The Supreme Crurt fall term begins Oct.

28. Cases can be entered up to Oct. 7, and factums filed unsil the 4th prox.

H. G. Finkle, Surrogate Court judge at Moorehead, Minn., and formerly of Bath, Ont., died on Thursday.

Over 900 tons of phosphate have been taken within the last month from the Star Hill and Crown raines at Buckingham.

The Wanzer factory at Hamilton has been sold to the Brosius Company—the negotiations being completed on Friday.

The total admission receipts for the ten

The total admission receipts for the ten ays of the Toronto Industrial Exhibition mount to \$69,323, or \$10,627 more than

last year.

Mrs. Gervais, of Pointe du Lac, near Three Rivers, Que, was shot dead by some unknown person while sitting at supper with her husband.

E. Fay, formerly a member of the Toronto Typographical Union, is dead in New York. He worked in the World office in that city, and his friends there are anxious to know where his relatives live.

Seaman Simplair, of the Shetland Lalands.

to know where his relatives live.

Seaman Sinclair, of the Shetland Islands,
Scotland, Ordinary Seaman McKerson, of
Cardiff, Wales, and Fireman John Mitcheson, of Newcastle, England, were washed
overboard from the steamer Barcelona before she was wrecked.

Joseph Stewart, of Westbrook, is the
owner of a remarkable cow. She is 9 years
old and has given birth to 17 calves in the
following rotation. When 2 years old she
had one calf, at 3 twins, at 4 triplets, at 5
twins, at 6 triplets, at 7,8 and 9 twins each
time.

Two youths, named Shipman, of Rock-port, and David Coy, from Michigan, fell into the river at Brockville while intoxi-cated. They tried to hitch to the steamer Ocean, but the wheel smashed their boat and they were thrown into the river. They were rescued.

The Ontario Gazette announces that the regulations and forms of application for an examination of candidates for the civil service of India, to be held for the open competition of June, 1891, are filed in the department of the Provincial Secretary, where they may be seen by intending candidates.

AMERICAN. The anticipated removal of the export duty has already stimulated the trade in Lanadian timber in the Saginaw district. Mr. Geo. W. Childs proposes to purchase from Lord Sackville, for the town of Stratford, the ground on which the Shakespeare memorial stands, and for which his Lordship wants to collect rent.

called on to clear the streets.

Sir Charles Tupper has written to the London Times disclaiming all connection with the Labrador railway project.

A letter from Lord Knutsford states that the law officers of the Crown advise the question of the Trinity University musical degrees to be brought by petition before the Privy Council.

## LAST MOMENT DISPATCHES.

ace at Sandy Hook, N. J., Thursday and

The council of the Catholic Union has ap-pointed a committee to be presided over by the Duke of Norfolk to promote a memorial to Cardinal Newman. Thomas Caron, on the bark Harold, at John, N. B., while attrempting to bear

the vessel late at night, slipped from the gang plank and was drowned.

The army maneuvers at Ronstock were concluded Friday. Emperor William led the final attack. Emperor Francis Joseph was with the army of defense, which was suggessized.

Bishop Levinhack, who has arrived at Paris from Zanzibar, reports that the Uganda missions are in a prosperous condition and that she country has become one of the finest of the British possessions.

The officers of the U.S. war vessel Balti-more, now at Stockholm, dined with King Oscar Wednesday and Thursday. His Majesty visited the vessel and inspected ber minutely. The King expressed great pleasure at all he saw.

The San Francisco Chronicle has an editorial on the management of the World's Fair, in which it says: "Everything that is possible is being done to make the World's Fair a failure, and a shame and disgrace to the nation. The National Committee must extricate itself from the grasp of Chicago, or it will be dragged down to the lowest depths, and the World's Fair will be involved in its fall."

Tramps Crushed to Death. CORROLSTON, Mo., Sept. 20.—As freight train 35 on the Santa Fe Railroad was pullifing in here three cars were thrown off the track and demolished. In one of the cars were five tramps stealing rides to Kansas City. W. C. Drake, of Miles City. Mo., and W. C. Bates, of Johnston, R. L. were killed, James McLaughlin, of Detroit, had his leg crushed. A. Hunge, of Chicago, was bruised about the chest.

True Bill Brought in by the

risoner Apparently Unconcerned —The Dead Man's Brother.

Woodstock, Sept. 19.—The preliminary business on the Bfrehall case intrusted to the grand jury of the Oxford Assizes was completed at 3:45 p.m. to-day, when Foreman Farrington and his fellows reported, "John Reginald Birchall, for the murder of Frederick C. Benwell, a true bill." The court was hard at work all day, with the intention of getting through in time to

The legal array for the defense has been strengthened by the arrival of Mr. Hellmuth, of London, who has had charge of the case from the first. Mr. Blackstock, leading counsel for the defense, in expected here before the close of the week.

here before the close of the week.

DURATION OF THE TRIAL.

A gentleman who is intimate with the lawyers for the Crown spoke of Mr. Blackstock having an advantage of "three or four days, indicating that that was the length of time the prosecuting attorney was expected to occupy. There is usually more time spent upon this work than is allowed for in advance, and in view of the statement above quoted and of the probable length of time to be occupied by the addresses of counsel and the judge's charge, it seems hardly probable that the case will be concluded within a week.

THE PRISORER.

able length of time to be occupied by the addresses of counsel and the junged in addresses of counsel and the junged in concluded within a week.

THE PRISONER.

Ever since his areas Birchall has been most acrupulously protected against the illigided inquiries of the interviewer. As we so-called interviews with Birchall has been most acrupulously protected against the illigided inquiries of the interview. As we so called interviews with Birchall have appeared mainly in American newspans, but not one of these was genuine. To-day the control of the company with a number of pools had a fresh cigar in his land, evidently ready to enjoy a smoke. The story has been circulated to-day the number of pools had a fresh cigar in his land, which was a control of the control

frequently attended St. Pau's Church.

THE DEAD MAN'S BROTHER.
To-day Charles Benwell went to Princeton and visited his brother's grave. He found that the people of the place had shown! their sympathy by caring for the grave and dressing it with flowers. The young man drove out also to the swamp where the frozen remains of his brother were found on the memorable 21st of February. The place, he said, is vastly changed. Instead of a tangled mass of bushes, the place is now open and level, because of the hundreds and thousands of visitors who have trampled about it since its fame as the Swamp of Death was noised about throughout the earth.

FIGHTHALL GONE.

It is stated, on what seems good authority, that Pickthall, whose name has been connected with this case, at one time as a suspect and later as an important witness, is not expected to appear in this trial; that he has disappeared and the Crown officers do not know where to find him.

NEW WITTERSES.

that he has disappeared and the Crown officers do not know where to find him.

NEW WITNESSES.

Detective Bluett has returned from a visit to Princeton, and brought with him two men who will be used as witnesses for the defense. The nature of their evidence he declines to divulge; but it is thought that he will endeaver to prove by them and others that Benwell was alive after the 17th of February. It is also expected that witnesses will be brought from Brantford to prove the same thing, and it is expected that the hotel register at Brantford containing the name of Benwell will be produced in court. Bluett has been indefatigable in his endeavors to complete a defense, and a few days ago made some interesting experiments at the spot where Benwell's body was found. Placing a small boy on the road running through the "swamp of death," immediately at the entrance of the trail, he went to the house of John Rabb, the German who lives a quarter of a mile away, and found that he had an unobstructed view of the lad. He also made experiments with pistol shots, but the results of these observations, or why he made them, he will only divulge at the trial.

Advised to Try Free Trade.

London, Sept. 20.—The Telegraph advises European nations desirous of avoiding calamities likely to arise from the operation of the McKinley Bill to promote freedom of trade among themselves.

Almed at Dillon.

London, Sept. 20. — Warrants were issued against Dillon and O'Brien, but only summones against the others. Dillon says this proves the intention was to frustrate his Irish tour. Sir Charles Russell in a speech at Arlington says the arrests might have incited the people to violence, but happily they have not.

Michael Davit's Organ.

happily they have not.

Michael Davit's Organ.

London, Sept. 20.—Michael Davitt's organ, the Labor World, made its first appearance yesterday, and was enthusiastically welcomed by thousands. Immense orders for the paper have been received by cable from America and elsewhere. The Labor World resembles the Pall Mail Gazette in form, with sixteen neatly-printed pages, five narrow columns to the page.

France Takes Charge of the Society

to have been an immense tactical blunder for the Government. They are satisfied that it will result in signal advantages to

for the Government. They are satisfied that it will result in signal advantages to the Irish cause.

John Cullinane and Michael Daiton, members of the National League, have been arrested. T. D. Sullivan will probably make a tour of America.

The inability of Dillon and O'Brien to make the proposed trip to America is much regretted, but the plan of presenting the true state of Ireland to the American public by means of speeches by leading Irish orators has not been abandoned.

Mr. O'Brien in an interview to-day said he could not imagine what infatuation had driven the Government to make the arrests. "It is easy to see," he said, "what they are driving at. They are making a supreme effort to crush out the organization of the tenants for concerted action. This they expect to accomplish by simultaneous clearances on all estates where the plan of campaign has been adopted. It is, in my opinion, a piece of inconceivable folly, but it seems clear to me this is what the Government propose to attempt. The story of these arrests will ring thereshould research the story of these arrests will ring thereshould research.

it seems clear to me this is what the Government propose to attempt. The story of these arrests will ring throughout America like a trumpet note, compared with which our voices would have been feeble and ineffective. Asked what would be the ultimate effect of the Government's present course on the cause he represents. O'Brion replied, "It will close up the ranks of our followers, revive drooping courage, and banish every shadow of dissention. The combination in Tipperary is absolutely impregnable. They cannot be shaken.

The London News says: "Balfour has met Ireland's famine appeal after his fashion, and has committed an act of stupendous folly."

Lawson's cabinets, \$2 per dozen; Lawson's cart-de-visite, \$1 25 per dozen; Lawson's sunbeams, \$1 per dozen. Corner Pask and Queen's avenue, for one month only.

A RAILWAY HORROR!

Dreadful Disaster on the Read-

READING, Pa., Sept. 19.—A wreck oc-curred on the Reading Railroad, seventeen miles above this place, at about 6:45 to-night. The train which met with the disaster left this city at 6:05 o'clock, ten minutes late. It was running at the rate of at least 38 to 40 miles an hour. It had on board possibly from 125 to 150 pas-sengers, and it consisted of engine, tender, mail and express cars and three passenger cars. Above Shoe-makerville, about fifteen miles above railroad is about 18 to 20 feet higher than the Schuylkill River. Here shortly before 6 o'clock a freight train ran into a coal train, throwing several cars in the latter on the opposite track, and before the train hands had time to go back to warn any approaching train of the danger the Pottsville express came around the curve and ran into the wrecked coal cars on its track. The engine went down the embankment, followed by the entire train with its human freight.

The engine went down the embankment, followed by the entire train with its human freight.

THE WORK OF RESCUE.

The scene was one of great horror. Some of the passengers managed to crawl out of their prison and arouse the neighborhood. Word was telegraphed to this city and help summoned. Physicians and surgeons and 300 workmen were taken to the spot by the company, and with the aid of a traveling away the wreck was at once proceeded with. Work was slow and the dead and dying were taken out with great difficulty. Up to 10 c'clock to-night 6 dead and some of the passenger list is not known.

THE KILLED.

Following is a list of the killed: Wm. D. Shomo, Reading; John White, engineer, Pottsville; Harry Logan, conductor, Pottsville; Harry Logan, conductor, Pottsville; Harry Logan, conductor, Pottsville; Harry Logan, conductor, Pottsville; Pa; Jas. Templin, fireman, and body being crushed; E. W. Logan, baggagemaster, Shenandoah.

NORTY TO FIFTY KILLED.

11:30 p.m.—The Associated Press agent asy conservative estimates place the number of killed at 40 to 50. At 11 c'clock Mail Agent Greenwald's body was taken out, followed by the horribly mangled bodies of two Mahoney City firemen on their way home from the Chester Convention.

Up to midnight thirteen bodies had been

night, and up to 8 o'clock this morning a number more had been taken out, now making the total recovered about twenty. There is no longer any doubt as to the fate of George R. Keercher, general counsel of the Reading Railroad. His body was taken out of the wrecked parlorcar early this morning. Theill-fated train, the Pottsville express, is the same which was wrecked at Tuckerton on June 23 last, and Engineer White and Fireman Templey, who were killed in yesterday's disaster filled the places of the Heller brothers, Lewis and George, engineer and fireman, who lost their lives in the first-mentioned accident.

Up to 10 o'clock a total of 20 bodies had been taken out and the list of injured is now about 50.

THE WORLD OF WORK.

Extensive barricades have been erected upon the quays to protect the non-union men.

men.

Eighty tulle manufacturers at Calais, France, have locked out 5,000 employes for demanding higher wages.

Cigarmakers' Union, No. 97, Boston, has ordered that \$1,000 be forwarded to the Binghampton (N. Y.) strikers by wire.

The men who were arrested for taking part in riotous demonstrations at Sydney have had heavy sentence placed upon them. A general strike of all union carpenters in Spokane Falls was carried out Friday. Work on the Exposition building, however, goes forward.

Work on the Exposition building, however, goes forward.

The International Brotherhood of Railroad Conductors, in session at Toledo, has decided that Toledo shall be the head-quarters of the order. Past Chief Conductor Geo. W. Howard will be re-elected.

Complaint is made to the Toronto Trades and Labor Council that by working at street cleaning at night, day laborers engaged in street repairing manage to get in ten working days a week.

It cost the municipality of Camden, says the Dresden Times, \$58.20 to arrest and hand over for safe keeping Peter Campbell.

The First Presbyterian Church people of St. Marys are talking of replacing their present instrument with a pipe organ in the near future.

The Arrangements for the Great Fair Completed.

ng Needed but Fine Weather to Make It a Grand Success.

Yesterday was judging day at the Western Fair and the ground were thrown open to the public, but gloomy weather and a shower of rain prevented a great crowd from attanding. The untile of preparation in the various departments continued and the improvements in the arranging of exhibits were hourly more noticeable. The officers of the association with their large staff of clerks and assistants have been kept remarkably busy, answering questions, looking afterentries and arranging for the proper carrying on of the various special attractions. The horses, cattle, sheep, hogs and poultry are not quite in shape, but Monday will see all these departments filled up. The band of the Muncey Indians occupied the band stands in the ring and on the hillside alternately. All the machinery has been placed in position, and everything is ready for today, when the school children are expected by the thousands. Picture cards, taffy, peanuts, lemonade and other notions are arranged to catch their eyes, and with fine weather the little ones will be certain to enjoy their day.

The products of fourteen Southern States are to be seen in what was formerly the dairy hall. The entire north side of the building is taken up with the exhibit, which is of a most elaborate and interesting character. The Western Fair is the only one in Canada which has secured this attraction, and under the supervision of Mr. T. C. Williams, of Raleigh, N. C., special commissioner, many curious and interesting things are shown. Forty feet of the western section are occu-

Mr. T. C. Williams, of Raleigh, N. C. special commissioner, many curious and interesting things are shown. Forty feet of the western section are occupied by the botanical exhibit. All kinds of grasses, herbs and shrubs are placed on white cards as they grow. There is not room in this space for all the articles. The peculiar forms of growth make a picture which to the onlooker is at once interesting and novel.

Samples of various goods manufactured are shown, one Mississippi firm displaying 30 varieties of cotton and woolen goods, including cottonades, cashmeres, stripes, plaids, jeans, etc.

The minerals are a sight in themselves. Granites of all kinds, different sections and qualities, including the wonderful leopard or spotted granite, susceptible of a very high polish. The brown stone and sandatone attract attention, and "marl" is worthy of special mention. This is a shell deposit found in large quantities over 300 miles from the coast at a depth of 50 feet or more, and is believed to show that that region was at one time covered by the sea. Then tale or soap stone is a curious article. It is manufactured for the adulteration of flour, lard and candies, it being possible to use 3 per cent. without detection. It takes the place of kaolin or white olay and icless harmful—its only redeeming feature. Asbestos or fibrous rock, gold ores, silver ores, copper ores, copper pyrites, carbonate of iron, iron ores and bessemer iron ores are to be seen. The last mentioned is the best iron ore in the world, and is found in North Carolina, as well as in Tennessee, Georgia and Alabama. Zinc ore, antimony, copperas, potters' clay, black lead, corundum, carbonate of lead, kyanite, rutiles and scores of other things are worth seeing, including the crystals and genns, such as garnets, rubies, amethysts, arrows-of-love stones, fire crystals, crystal quartz in the rough. bodies of two Mahoney City firemen on their way home from the Chester Convention.

Up to midnight thirteen bodies had been recovered. Five bodies are exposed to view in the wreck, and men are not able to reach them. The body of J. L. Miller, of Cressona, was taken cut at midnight.

At 2 o'clock this (Saturday) morning the situation was as follows: Three hundred men were still at work. Fifteen bodies had been taken out. It is believed twenty or more are underneath the wreck.

A passenger who was rescued says: "The train was going at a lively rate of speed. The passengers appeared a happy crowd, the many of them ladies, chatting and laughing after a day's pleasure at the Berks County Fair. Suddenly there was a terrible crash to the other like a ball, when one end of the car went into the water and I was thrown from one side of the car with a force that partially stunned ments of the car went into the water and I was thrown against the side of the car with a force that partially stunned ments and I was thrown from one side of the car with a force that partially stunned ments and I was thrown from one side of the car with a force that partially stunned ments and I was thrown against the side of the car with a force that partially stunned ments are the covered and managed to climb up the seats on that side of the car with a force that partially stunned ments are the car with a force that partially stunned ments are the car with a force that partially stunned ments are the car with a force that partially stunned ments are the car with a force that partially stunned ments are the car with a force that partially stunned ments are the world, and is found in North Carolina, as well as in Tennessee, Georgia and the partially stunned ments are the world, and is found in North Carolina, as well as in Tennessee, Georgia and the partially stunned ments are the world, and is found in North Carolina, as well as in Tennessee, Georgia and the partially stunned ments are the world, and is found in North Carolina, as well as in Ten

herbs and roots in cases.

The pine leaves or needles, known in the South as "pine straw," is shown in its rough state and the various processes of manufactures until it is made into carpets of a very durable and neat discription. Thousands of pounds of this article go to waste annually, its manufacture into goods being a new idea.

The rice plants, their products on the rough and cleaned rice are shown together with all kinds of nuts, including peanuts and other varieties unknown to residents hereabouts.

rough and cleaned rice are shown together with all kinds of nuts, including peanuts and other varieties unknown to residents hereabouts.

The silk rooms and cocoons are baked and seing, the process of manufacture being continued after the cocoons are baked and shipped to Hornellsville, N. Y.

The cotton plants, cotton seed, cotton seed meal and oil and manufactured cotton goods are among the special articles.

Palm tree sections, showing the fibrous wood of the tree which cannot be eaten by worms, and is used for making wharves, palmetto leaves, etc., are shown, as well as asmples of the palm straw hats which every lady in America wears. Orangewood as solid as boxwood is one of the pieces of timber displayed.

Tobacco from the golden belt of North Carolina and Virginia is shown in the raw leaf. This is a tremendous industry in the South, one place (Winston, N. C.), half the size of London supporting 37 factories, which pay out \$40,000 weekly in wages. Durham is the largest smoking tobacco center in the world, and the big syndicate there expends \$80,000 in advertising alone. One instance is related regarding a Carolina cigarette factory which was started by a man and his four sons before the war in a small log house and was sold the other day for \$7,500,000, just \$1,500,000 apiece.

Mr. Williams says the people of the South are solid for free trade. His own experiences as related show him that custom duties are charged between United States and Canada in the most unnecessary manner. "We are all free traders down South," he concluded. "Why, any other idea is preposterous. To tax is not in the interest of farmers—it can only help the manufacturer. To impose a duty on anything is a fraud, and to make the many pay for the support of a few is to stimulate nothing but a false growth."

MONDAY'S PROGRAMME—CITIZENS' DAY.

Agriculture machinery, occupying the

New Perfumes.

Blue Lilies, Rose of Sharon. Violeta of Sicily, etc., etc., etc.

breaking out.

Business in the States.

New York, Sept. 20.—Special telegrams to Bradstreet's show that the volume of general merchandise moving to consumers' hands remains quite large, and that general trade as a whole is fairly satisfactory for the season. Prices are practically unchanged for metals and manufactured articles, but for the moment are lower for most cereals and other food products. The Louisiana sugar crop was never better. Wheat reports from the Pacific coast are very much reduced. Ships are scarce there very much reduced. Ships are scarce there and prices lower. Supplies are quite heavy. The price of wheat declined 2c to 3c this week. Indian corn reacted 1½c. Pork easier, and lard off a few points.
