TORONTO.

Toronto, July 10—The Toronto cattle market today was demoralized. Receipts were 80 cars, including 1,211 sheep and lambs, 700 hogs and 44 calves. Buying for Montreal was lower, about ten cars being taken, exclusive of export cattle. Export cattle were very dull. The market has seldom before been so discouraging. Cables were unsatisfactory, and reported London and Glasgow markets glutted with American cattle. Range of prices was from 3ic to 3ic per lb. Butchers' cattle were quet. Offerings were not very good. Best were quoted at 3ic per lb, but a few were of such quality as could command that price, and most of the dealers of best offered were at 2ic to 3c per lb, bulls steady, at 2ic to 3c per lb; lambs were slow, at 3i 99 to 83 each.

Calves were weaker, at \$2 to 84 each. Milch cows and springers flat, at \$15 to \$25 cach.

Hogs firm on limited receipts, and best bacon hogs sold at 4ic per lb; stores were not wanted; light and heavy hogs were quoted at 3ic per lb.

Done the members themselves.

The announcement is also made that Mr. G. C. Jones, late of the Wabash Railway, has been appointed trainmaster of this division. Mr. Jones will be chief of the dispatchers and will assume a portion of the duttes formerly discharged by Mr. Tiffin. Mr. Jones has been in the city several days posting himself on the requirements of his new position. He is already very popular with his colleagues. That he is a good railway man is attested by the fact that he is one of Mr. Hays' selections. TORONTO.

ORCHARDS BLIGHTED.

Plague Among Pear and Apple Trees in the Niagara Peninsula.

Chicago. July 13.—The prime influences in wheat trading today were the visible supply report, the falling off in stocks at New York, and the weather report from the Northwest, which indicated a dry and hot temperature in the spring wheat belt. On the opening prices firmed, but later sagged on the visible supply showing an increase of 21,000 bu instead of an expected decrease of something like 500,000 bu. Corn—The early advance in wheat had its effect in the corn pit, but the trading was comparatively light. The strength was mainly due to the fact that an expected reduction in rates to the east would greatly increase the movement of that cereal, and the consequent consumption. Oats were dull and weak.

The leading futures closed as follows: of the ravages of this new enemy to and repass very often during a farm crops.

Over the Bridge.

London Westers Censure the Street Railway Company.

The residents of London West are up in arms against the street railway company over the Kensington taurant, leaves for the old country bridge matter. Two of the councilors stated this morning that when the company obtained permission to run in London West, it was with the understanding that they would use every effort to connect that line with the city line. The villagers complain that this agreement has not been carried out. Now that they have secured consent from the city to cross the bridge they ask London West for \$100 to help defray the expense. The opinion prevails that the company will have to build without any assistance.

"If," said a councilor this morn-"the street railway company can explain how we can pay \$1,000 with \$800, we'll give them the \$100." The railway company have the option of either replacing the present ing an addition to the side of it.

\$1.400 IN DEBT.

This is the Amount Claimed by Inspector Dearness from London West Council.

School Inspector Dearness, of East Middlesex, has submitted a document to Clerk Simpson, of London West, showing the amounts received from the council for the past ten years, together with the expenditures. This statement shows the municipal council to be debtors to the school board to the extent of over \$1,400. No effort may be very small if they keep on whole affair, beyond the provision al will be made this year to settle the board will receive \$795. The remainder of the amount will have to come out of the rate next year. This difficulty has arisen because the economical school board have kept expenditures within the estimates, and the money which remained over and above the requirements for school purposes being left in the hands of the municipal treasurer, who is also treasurer for the school board, has been expended for purposes other than those for which it was set apart.
