Investment of Funds.

"The investment powers of the North American Life were recently greatly enlarged, which no doubt will help materially to swell the already large realized profits heretofore earned by this solid Home Company, and increase its popularity as a policy-holders' company. The company can invest its funds, bonds, stocks or other securities of the Dominion or in any of its provinces or municipalities, as well as of well-established loan companies, but can also invest in or on the stocks or debentures of waterworks, gas, electric light or power, electric railway or telegraph companies incorporated in Canada. It has also power to buy its own policies as well as those of other companies or to make loans upon the same. This company regards the latter class of security as among the best, although there are many of the large foreign companies which do not buy or lend upon policies."—Monetary Times. Persons having any of the above securities to offer should communicate with R. B. Hungerford, Room 6, Masonic Temple. 234 tx
